LETTER

FROM

THE SECRETARY OF THE TREASURY,

TRANSMITTING

*Estimates of appropriations required for the service of the fiscal year
ending June 30, 1886.*

TREASURY DEPARTMENT,

December 1, 1884.

SIR: In conformity to the requirements of sections 3669, 3670, and 3672 of the Revised Statutes, and act of July 7, 1884, (23 Stat., page 254,) I have the honor to transmit, for the information of Congress, the estimates of appropriations required for the service of the fiscal year ending June 30, 1886, as furnished by the several Executive Departments; also, statements of the "proceeds of sales of Government property," and the expenditures of the moneys appropriated for contingent expenses of the Independent Treasury for the fiscal year 1884.

I have the honor to be,

Very respectfully, your obedient servant,

HUGH McCULLOCH,

Secretary.

To the Hon. SPEAKER OF THE HOUSE OF REPRESENTATIVES.

* And \$25,640 paid from appropriations for the Light-House Establishment.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Bureau of Engraving and Printing—Continued.</i>							
One clerk of class three.....	R. S.	706	3575-7	\$1, 600 00		
	Mar. 3, 1875	R. S.	27	167			
	July 7, 1884	18	370	2			
Four clerks of class one.....	23	171	1	4, 800 00		
One clerk	Same acts.....			
	June 19, 1878	20	187	1			
	July 7, 1884	23	171	1	1, 000 00		
	R. S.	706	3575-7			
	R. S.	27	167			
Three copyists, at \$900 each.....	Mar. 3, 1875	18	370	2	2, 700 00	
	July 7, 1884	23	171	1		
	Same acts.....			
Two assistant messengers, at \$720 each.....	do.....	1, 440 00	\$27, 030 00	\$26, 130 00
Four laborers, at \$660 each	do.....	2, 640 00		
<p>NOTE.—The estimate of \$2,750 for assistant chief is an increase of \$500 over the current year's appropriation. The business qualifications required of the assistant and first executive officer of the chief of bureau in the execution of the important work of this branch of the Government justify the amount submitted, which is still below that paid by private companies for like service.</p> <p>The estimate of \$2,000 for disbursing clerk is an increase of \$400 over the current year's appropriation. Under acts March 3, 1881, and July 7, 1884, \$200 was appropriated as "additional to one clerk as disbursing clerk." This sum, with \$1,400 appropriated under same acts for "one clerk of class two," who has been transferred to another office and omitted from the present estimate, has been paid the disbursing clerk, making his compensation \$1,600. As this officer disburses about \$1,000,000 annually, and is required to give bond in the sum of \$95,000, the amount submitted is not unreasonable.</p>							
BUREAU OF STATISTICS.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of the Secretary of War—Continued.</i>							
Three assistant chiefs of divisions, at \$2,000 each.....	Submitted.....				\$6,000 00		
NOTE.—This item is for an increase of \$200 each to three clerks who act as assistant chiefs of divisions, and whose services in that capacity are at all times necessary, especially in the absence of the chiefs of divisions, when it is important that there should be some one in charge of the division who can properly fill the place of the absent incumbent, and whose authority can be properly recognized. Assistant chiefs of divisions in the Treasury Department receive from \$2,000 to \$2,400 each, and persons holding like positions in the office of the Secretary of War should be similarly compensated. If this small increase is granted it will perfect the organization of the clerical force of this office and increase its efficiency, as well as open up the line of promotion to faithful and deserving clerks who have long served the Government. Should it be allowed, it is proposed to reduce the number of \$1,000 clerks to four, leaving the force numerically as at present.							
Stenographer, (increase of \$200 submitted)	{ June 19, 1878 July 7, 1884	20 23	195 179	1 1	} 2,000 00		
NOTE.—The position is an arduous one, calling for the services of a stenographer of experience and special ability. The stenographer to the Secretary of the Treasury receives a salary of \$2,000, and the stenographer to the Secretary of War should be equally compensated.							
Five clerks of class four.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 99 179	167 1 1	} 9,000 00		
Seven clerks of class three.....	Same acts				11,200 00		
Nine clerks of class two.....	do.....				12,600 00		
Twenty-eight clerks of class one.....	do.....				33,600 00		
Four clerks, at \$1,000 each.....	{ June 19, 1878 July 7, 1884	20 23	195 179	1 1	} 4,000 00		
NOTE.—The number of clerks at \$1,000 each may be reduced to four instead of seven, as now allowed, if, in lieu of three omitted, the three assistant chiefs of divisions above asked for are authorized.							
Carpenter.....	{ July 7, 1884	R. S. 23	27 179	167-9 1	} 1,000 00		
Foreman of laborers.....	Same acts				1,000 00		
Four messengers, at \$840 each.....	do.....				3,360 00		
Eleven assistant messengers, at \$720 each.....	do.....				7,920 00		
Four laborers, at \$660 each.....	do.....				2,640 00		
NOTE.—Four laborers in this office have for some years, in addition to their usual work, been performing the duties of assistant messengers, and it is proposed to grade them as assistant messengers instead of as laborers, as at present, which makes a net increase of the two items for assistant messengers and laborers \$240 each.							
One hostler.....	do.....				600 00		
Two hostlers, at \$540 each	do.....				1,080 00		
One watchman.....	do.....				540 00		
						\$116,890 00	\$111,850 00
OFFICE OF THE ADJUTANT-GENERAL.							
<i>Salaries, Office of Adjutant-General—</i>							
Chief clerk.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	35 100 179	215 1 1	} 2,000 00		
Twenty-five clerks of class four.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 100 179	167 1 1	} 45,000 00		
Thirty-five clerks of class three.....	Same acts				56,000 00		
Sixty-nine clerks of class two.....	do.....				96,600 00		
Three hundred and fifty-nine clerks of class one.....	do.....				430,800 00		
Sixteen clerks, at \$1,000 each.....	{ June 19, 1878 July 7, 1884	20 23	195 179	1 1	} 16,000 00		
Five messengers, at \$840 each	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 100 179	167 1 1	} 4,200 00		
Fifty-one assistant messengers, at \$720 each.....	Same acts				36,720 00		
Twenty watchmen, at \$720 each.....	do.....				14,400 00		
Three laborers, at \$660 each.....	do.....				1,980 00		
And not less than two hundred clerks in the office of the Adjutant-General shall be exclusively engaged in preparing and making reports to expedite the settlement of pension applications and soldiers' claims.							
						703,700 00	703,700 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

		Vol. or R. S.	Page.	Sec.			
<i>Salaries, Office of Quartermaster-General—Continued.</i>							
Eleven clerks of class three.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 100 180	167 1 1	{ \$17, 600 00		
Twenty-three clerks of class two.....	Same acts.....				32, 200 00		
Forty-six clerks of class one.....	do.....				55, 200 00		
Ten clerks, at \$1,000 each.....	{ June 19, 1878 July 7, 1884	20 23	195 180	1 1	{ 10, 000 00		
Eighteen copyists, at \$900 each.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 100 180	167-9 1 1	{ 16, 200 00		
Four messengers, at \$840 each, (see note).....	Same acts.....				3, 360 00		
Six assistant messengers, at \$720 each, (see note).....	do.....				4, 320 00		
Two laborers, at \$480 each, (see note).....	Submitted.....				960 00		
One female messenger.....	{ June 20, 1874 July 7, 1884	R. S. 18 23	27 100, '1 180	167-9 1 1	{ 480 00		
Superintendent of building.....	Same acts.....				250 00		
One laborer.....	do.....				225 00		
Two char-women, at \$180 each.....	do.....				360 00		
One engineer.....	do.....				1, 200 00		
One fireman.....	do.....				720 00		
Five watchmen, at \$720 each.....	do.....				3, 600 00		
One draughtsman.....	{ Mar. 3, 1875 July 7, 1884	18 23	360 180	1 1	{ 1, 800 00		
NOTE.—Instead of the two messengers, two assistant messengers, and six laborers provided for this fiscal year, this estimate includes funds for pay of four messengers and six assistant messengers, for the reason that the six laborers have in the past been performing messenger duty, and have not been available for the performance of the real laboring work about the office. To correct this condition of affairs, two common laborers are estimated for at a small salary. The aggregate amount of the estimate is brought below the sum appropriated for the fiscal year 1885.							
For the following clerks and others, to be employed by the Quartermaster-General in the investigation of claims for settlement by the Treasury Department, under the act of July 4, 1864:							
One clerk of class four.....	{ Aug. 5, 1882 July 7, 1884	R. S. 22 23	27 239 180	167-9 1 1	{ 1, 800 00		
Two clerks of class three.....	Same acts.....				3, 200 00		
Four clerks of class two.....	do.....				5, 600 00		
Eleven clerks of class one.....	do.....				13, 200 00		
Two clerks, at \$1,000 each.....	do.....				2, 000 00		
Eleven copyists, at \$900 each.....	do.....				9, 900 00		
Three assistant messengers, at \$720 each.....	do.....				2, 160 00		
One watchman.....	do.....				720 00		
Twenty-five agents, at \$1,400 each.....	do.....				35, 000 00		
						\$240, 255 00	\$240, 639 54
<i>Compensation and Expenses of Agents, Quartermaster's Department—</i>							
For per diem, in lieu of subsistence of the agents while travelling on duty, not exceeding \$3 per day, and for actual necessary expenses for transportation.....	{ Aug. 5, 1882 July 7, 1884	22 23	239 180	1 1	{ 30, 000 00	30, 000 00	30, 000 00
NOTE.—This estimate is for clerks and others employed under the Quartermaster-General in the investigation of claims for settlement by the Treasury Department under the act of July 4, 1864. By acts of August 5, 1882, March 3, 1883, and July 7, 1884, legislative, executive, and judicial acts, they were specifically appropriated for, and, as the necessity exists for their continuance in the service, this estimate is made.							
OFFICE OF THE COMMISSARY-GENERAL.

and the services of skilled draughtsmen, civil engineers, and such other services as the Secretary of War may deem necessary, may be employed in the office of the Chief of Engineers, to carry into effect the various appropriations for rivers and harbors, fortifications, and surveys for military defences, to be paid for from such appropriations: *Provided*, That the expenditures on this account for the fiscal year ending June thirtieth, eighteen hundred and eighty-six, shall not exceed sixty thousand dollars.

NOTE.—The services of a watchman are required for the building rented for the use of this office.

For statement of the number of persons employed and the amount paid to each during the fiscal year ending June 30, 1884, see Appendix "M."

OFFICE OF PUBLICATION OF RECORDS OF THE REBELLION.

Salaries, Office of Publication of Records of the Rebellion—

For person preparing general index to the Official Records of the War of the Rebellion, published under act of June 16, 1880, (21 Stat., 269,) and subsequent acts.....

NOTE.—In proposing \$2,500 as a fair compensation to the person preparing general index, I have been governed by the action of Congress in allowing this amount for the preparation of the general index to the journals of Congress, a work in character very similar to the index to the official records of the war. The present arrangement for this work proves exceedingly embarrassing to the general work of the office.—(*R. N. Scott, officer in charge.*)

	Aug. 5, 1882	22	242	1	480 00		
	July 7, 1884	23	181	1			
NOTE.—The increase of \$200 in the salary of engineer, who served in the United States Navy as first-class fireman in the late war, is recommended upon the ground of efficiency manifested during his more than eight years' service at this building, and more especially in consideration of the increased labor and responsibility to arise from care of the additional boiler, steam-pump, and machinery for the elevator appropriated for by the act of July 7, 1884, and of his skill in the use of tools in making repairs and renewing portions of the warming apparatus, and thereby saving wages of skilled machinists ordinarily employed for that purpose. The amount estimated for conductor of elevator will be necessary for operation of the elevator, for which appropriation was made in the sundry civil act of last session.						\$6,850.00	\$5,930.00
OFFICE OF SUPERINTENDENT, STATE, WAR, AND NAVY DEPARTMENT BUILDING.							
<i>Salaries, Office of Superintendent, State, War, and Navy Department Building—</i>		R. S.	27	167-9

Appropriated..		23	182	1		\$43,300 00	\$41,300 00
NOTE.—The act of July 7, 1884, (23 Stat., 182,) appropriates \$39,700 for rent of buildings for the War Department, and \$1,600 has been allotted from the appropriation, \$3,500, on page 180 of the same act, for hire, &c., of a building for the Adjutant-General's Office, making the amount available for the present fiscal year \$41,300. The Chief Signal Officer asks an allowance of \$1,000 for rent of two additional rooms, "which are absolutely necessary * * * and for other contingencies, in case of compulsory removals, &c." The Commissary-General also states that "notice has been served * * * by Francis D. Lewis, attorney in fact for the heirs of A. B. Stoughton, deceased, that the rent of the building occupied as the office of the Commissary-General of Subsistence will be \$3,500 for the fiscal year ending June 30, 1886."							
A list of the buildings rented in Washington for use of the bureaus of the War Department, with the annual rent of the same, prepared as required by the act of March 3, 1883, (22 Stat., 552,) will be found in Appendix "H."

NOTE.—Increase of \$180 in salary of copyist, submitted; the copyist performs also the duties of stenographer.									
Pay of computers on piece-work in preparing for publication the American Ephemeris and Nautical Almanac, and improving the tables of the planets.....	Aug. 5, 1882	22	245	1	8,400 00				
	July 7, 1884	23	183	1					
HYDROGRAPHIC OFFICE.									
<i>Salaries, Hydrographic Office—</i>									
One clerk of class four.....	Aug. 5, 1882	R. S.	27	167	1,800 00				
	July 7, 1884	22	245	1					
	Submitted.....	23	183	1					
One clerk of class three, (increase of \$200 submitted)....	Aug. 5, 1882	22	245	1	1,600 00				
	July 7, 1884	23	183	1					
One clerk of class two.....	Same acts.....				1,400 00				
One clerk of class one.....do.....				1,200 00				
NOTE.—It is recommended that in place of the present appropriation of two clerks of second class and one clerk of first class, there be allowed one clerk of fourth class, one clerk of third class, one clerk of second class, and one clerk of first class, as above estimated.									
Draftsmen, engravers, copyists, copper-plate printers, printers' apprentice, assistant messenger, and laborers in the Hydrographic Office.....do.....				45,000 00	51,000 00	45,172 61		
<i>Contingent and Miscellaneous Expenses, Hydrographic Office—</i>									
Purchase of chart-paper, copper-plates; electrotyping copper-plates; ink and other materials necessary in printing division; materials for drawing division, and for mounting charts; materials for engravers; for electrotyping charts for immediate use, and transfer of photo-lithographic and other charts to copper; repairs to printing-presses; extra drawing and engraving; purchase of foreign charts and hydrographic works for the use of vessels of the Navy; for the purchase of drawing-paper, drawing materials, and necessary instruments to be furnished naval vessels while surveying; for repairs of such instruments; and for printing Pilot Chart of North Atlantic Ocean.....	Aug. 5, 1882	22	245	1	25,000 00				
	July 7, 1884	23	183, 74	1					
Rent of rooms for the use of the presses for hydrographic printing, and for repairs and heating of the same; and for gas, water, and telephone rents.....	Appropriated..	23	185	1	1,500 00	31,500 00	32,600 00		
Contingent expenses of branch offices at Boston, New York, Philadelphia, Baltimore, New Orleans, and San Francisco, including rent and care of offices, furniture, fuel, and lights, car-fare and ferriage in visiting merchant-vessels, freight, express, telegrams, and other necessary expenses incurred in collecting the latest information for the Pilot Chart, and for the purchase of nautical instruments.....	Appropriated..	23	184	1	5,000 00				
NAVAL OBSERVATORY.									
<i>Salaries, Naval Observatory—</i>									
One assistant astronomer, (increase of \$700 submitted)..	Aug. 5, 1882	22	245	1	2,600 00				
	July 7, 1884	23	184	1					
Two assistant astronomers, at \$2,200, (increase of \$700 each submitted).....	Same acts.....				4,400 00				
One clerk of class four.....do.....				1,800 00				
One instrument-maker, (increase of \$200 submitted).....do.....				1,700 00				
Three computers, at \$1,200 each.....	Submitted.....				3,600 00				
Four watchmen, including one for new Naval-Observatory site.....	Aug. 5, 1882	22	245	1	2,880 00				
	July 7, 1884	23	184	1					
One skilled laborer.....	Same acts.....				1,000 00				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.		
		Vol. or R. S.	Page.	Sec.					
<i>Salaries, Naval Observatory—Continued.</i>									
One skilled laborer.....	Aug. 5, 1882	22	245	1	} \$720 00	\$23,595 00	\$17,420 00		
Seven laborers, at \$660 each.....	July 7, 1882	23	184	1					
One laborer, (April 1 to October 31).....	Same acts.....				4,620 00				
	Submitted.....				275 00				
<i>Contingent and Miscellaneous Expenses, Naval Observatory—</i>									
Miscellaneous computations.....	Aug. 5, 1882	22	245	1	} 1,200 00	17,536 00	9,736 00		
Purchase of professional books and periodicals for the library.....	July 7, 1884	23	184	1					
Purchase of apparatus and material for repairs of instruments.....	Same acts.....				1,000 00				
Repairs of buildings, for fuel, furniture, gas, chemicals, stationery, freight, postage, and all contingent expenses..do.....				2,500 00				
Payment to Smithsonian Institution for freight on publications of Observatory sent to foreign countries.....do.....				4,500 00				
One transit circle.....do.....				336 00				
	Submitted.....				8,000 00				
BUREAU OF ORDNANCE.									
<i>Salaries, Bureau of Ordnance—</i>									
Chief clerk, (increase of \$450 submitted).....	R. S.	70	416	} 2,250 00	10,630 00	8,980 00		
Draughtsman.....	July 7, 1884	23	184	1					
One clerk of class three.....	Same acts.....				1,800 00				
One clerk of class two.....	R. S.	27	167	} 1,600 00				
One clerk.....	July 7, 1884	23	184	1					
One assistant messenger.....	Same acts.....				1,400 00				
One laborer.....do.....				1,000 00				
One clerk of class one.....do.....				720 00				
	Submitted.....				660 00				
					1,200 00				
NOTE.—The work of the bureau has increased greatly of late years, owing to the increasing elaboration of ordnance material, and the smallness of the clerical force has caused the copying of the press-copy books to fall behind over three years.									
BUREAU OF CONSTRUCTION AND REPAIR.									
<i>Salaries, Bureau of Construction and Repair—</i>									
Chief clerk, (increase of \$450 submitted).....	R. S.	70	416	} 2,250 00	17,600 00	12,380 00		
Draughtsman, (increase of \$450 submitted; see note).....	July 7, 1884	23	184	1					
One clerk of class four.....	Same acts.....				2,250 00				
One clerk of class three.....	R. S.	27	167	} 1,800 00				
One clerk of class two.....	July 7, 1884	23	184	1					
One assistant draughtsman.....do.....				1,600 00				
One clerk of class one.....do.....				1,400 00				
One assistant draughtsman.....do.....				1,400 00				
One clerk of class one.....do.....				1,200 00				
One assistant messenger.....do.....				720 00				
One laborer.....do.....				660 00				
Three draughtsmen, at \$1,400 each.....	Submitted.....				4,200 00				
Restoring assistant messenger to rank of messenger, with the pay of such.....do.....				120 00				
NOTE.—As the duties of the draughtsman of this bureau are certainly fully as arduous and important as those of the draughtsman of the Bureau of Steam-Engineering, who is paid \$2,250 per annum, this increase is submitted as just and proper in the case.									
BUREAU OF STEAM-ENGINEERING.									
<i>Salaries, Bureau of Steam-Engineering—</i>									
Chief clerk, (increase of \$450 submitted).....	R. S.	70	416	} 2,250 00	15,340 00	12,290 00

Assistant draughtsman.....	Same acts.....				2,250 00				
One assistant draughtsman.....	R. S.	27	167-9	} 1,400 00				
One assistant draughtsman.....	July 7, 1884	23	184	1					
One clerk of class two, (additional, \$200, to promote to class three, submitted).....	Submitted.....				1,200 00				
One clerk of class one, (additional, \$200, to promote to class two, submitted).....do.....				1,000 00				
One clerk of class one.....	R. S.	27	167	} 1,600 00				
One clerk.....	July 7, 1884	23	184	1					
One assistant messenger.....	Same acts.....				1,400 00				
Two laborers, at \$660 each.....do.....				1,200 00				
do.....				1,000 00				
do.....				720 00				
do.....				1,320 00				
Printing Reports, Bureau of Steam-Engineering—									
Printing reports on valuable experiments made by boards of United States naval engineer officers.....	Submitted.....				1,000 00				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
BUREAU OF PROVISIONS AND CLOTHING.							
Salaries, Bureau of Provisions and Clothing—							
Chief clerk, (increase of \$450 submitted).....	{ July 7, 1884	R. S. 23	70 184	416 1	{ \$2,250 00		
One clerk of class four.....	{ July 7, 1884	R. S. 23	27 184	167 1	{ 1,800 00		
Two clerks of class three.....	Same acts.....				3,200 00		
One clerk of class three, (see note).....	Submitted.....				1,600 00		
Two clerks of class two.....	{ July 7, 1884	R. S. 23	27 184	167 1	{ 2,800 00		
Two clerks of class two, (see note).....	Submitted.....				2,800 00		
Four clerks of class one.....	{ July 7, 1884	R. S. 23	27 184	167 1	{ 4,800 00		
Two copyists, at \$900 each.....	Same acts.....				1,800 00		
One assistant messenger.....	do.....				720 00		
One laborer	do.....				660 00		
One laborer, (see note)	Submitted.....				660 00		
						\$23,090 00	\$17,580 00
Contingent Expenses, Bureau of Provisions and Clothing—							
Furniture, desks, book and file cases, and books for reference, (see note)	Submitted.....					500 00	
NOTE.—By a recent order, it is made the duty of the bureau to supervise the money accounts of all pay officers, and for the performance of this duty the additional clerk of class three and two additional clerks of class two are asked for, as their services are necessary to keep up the work of the bureau. It is also respectfully urged that an additional laborer be allowed the bureau; the increased work demands his services as a messenger, the messenger being employed the greater portion of his time on clerical work. The amount allowed from the appropriation for the Navy Department for the contingent expenses of the bureau is absolutely insufficient to supply its actual requirements, and it is urgently recommended that the amount asked for be appropriated.							
BUREAU OF MEDICINE AND SURGERY.							
Salaries, Bureau of Medicine and Surgery.							
Chief clerk, (see note).....	{ July 7, 1884	R. S. 23	70 185	416 1	{ 1,800 00		
One clerk of class three.....	{ Aug. 5, 1882	R. S. 22	27 244,6	167-9 1	{ 1,600 00		
	July 7, 1884	23	185	1			
One clerk of class two	Same acts				1,400 00		
One clerk of class one	do.....				1,200 00		
One clerk	do.....				1,000 00		
One assistant messenger.....	do.....				720 00		
One laborer.....	do.....				660 00		
One janitor for naval dispensary	do.....				600 00		
One laborer for naval dispensary	do.....				480 00		
One clerk of class one, for service in pension division of bureau, (see note).....	Submitted.....				1,200 00		
						10,660 00	9,460 00
NOTE.—The chief of the Bureau of Medicine and Surgery concurs with the chiefs of the other bureaus of the Navy Department in recommending an increase of \$450 in the pay of chief clerk. The additional clerk for service in pension division of bureau was estimated for last year. The need of additional service is becoming more urgent.							
OFFICE OF THE JUDGE-ADVOCATE GENERAL.							
Salaries, Office of Judge-Advocate General, United States Navy—							
One clerk of class four.....	{ June 8, 1881	R. S. 21	27 164	167 1	{ 1,800 00		
	July 7, 1884	23	185	1			
One clerk of class three.....	Same acts				1,600 00		
Two clerks of class one	do.....				2,400 00		
One laborer.....	do.....				660 00		
						6,460 00	6,473 59
NOTE.—The estimate of the Secretary of the Navy for "Printing and binding," under section 2, act of May 8, 1872, (R. S., 720, sec. 3661,) will be found under the title "Miscellaneous," post.							
Total Navy Department						374,691 00	307,442 20
DEPARTMENT OF THE INTERIOR.

PUBLIC LANDS.							
OFFICES OF THE SURVEYORS-GENERAL. *							
<i>Salaries, Office of Surveyor-General of Arizona—</i>							
Surveyor-general.....	R. S.	389	2210			
	R. S.	391	2226	3,000 00		
Clerks in his office.....	July 7, 1884	23	189	1			
	Same acts.....				5,500 00	\$8,500 00	\$5,500 00
NOTE.—The \$5,500 estimated for clerk-hire in the surveyor-general's office is for the regular office-work on public-land surveys, and for securing copies and obtaining records of private-land grants. The amount heretofore appropriated is totally inadequate, owing to the high prices of living and consequent high wages.							
<i>Salaries, Office of Surveyor-General of California—</i>							
Surveyor-general.....	R. S.	389	2210			
	R. S.	391	2226	3,000 00		
Clerks in his office.....	July 7, 1884	23	189	1			
	Same acts.....				33,500 00	36,500 00	35,000 00
NOTE.—The \$33,500 for clerk-hire is to cover the expense of regular office-work, estimated at \$20,000; office-work in arrears, \$10,000, and for keeper and assistant keeper of the Spanish archives, \$3,500.							
<i>Salaries, Office of Surveyor-General of Colorado—</i>							
Surveyor-general.....	R. S.	389	2210			
	R. S.	391	2226	3,000 00		
Clerks in his office.....	July 7, 1884	23	189	1			
	Same acts.....				8,000 00	11,000 00	9,000 00
NOTE.—The \$8,000 estimated for clerk-hire is for five employes, viz: Chief clerk, \$2,000; two draughtsmen, at \$1,500 each; and two transcribing-clerks, at \$1,500 each; said force being actually required for the current office-work.							
<i>Salaries, Office of Surveyor-General of Dakota—</i>							
Surveyor-general.....	R. S.	388	2208			
	R. S.	391	2226	2,500 00		
Clerks in his office.....	July 7, 1884	23	189	1			
	Same acts.....				12,900 00	15,400 00	11,500 00
NOTE.—The estimate of \$12,900 for clerk-hire is for chief clerk, at \$1,800; chief draughtsman, at \$1,500; and six assistant clerks, at \$1,200 each; making \$10,500; also, \$2,400 for additional clerks attendant upon surveys of exterior and standard lines west of Missouri river and within the present Sioux reservation expected to be relinquished.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.					
		Vol. or R. S.	Page.	Sec.								
Salaries, Office of Surveyor-General of Utah—												
Surveyor-general	R. S.	389	2210	} \$3,000 00	\$7,500 00	\$5,500 00					
Clerks in his office.....	R. S.	391	2226								
	July 7, 1884	23	190	1	} 4,500 00							
	Same acts.....											
NOTE.—The \$4,500 estimated for clerk-hire is necessary to attend to the regular office-work on public surveys.												
Salaries, Office of Surveyor-General of Washington—												
Surveyor-general	R. S.	388	2209	} 2,500 00	12,500 00	8,000 00					
Clerks in his office	R. S.	391	2226								
	July 7, 1884	23	190	1	} 10,000 00							
	Same acts.....											
NOTE.—The estimate of \$10,000 for clerk-hire is to keep up the regular office-work on public surveys and to bring up a large amount of office-work in arrears, consisting in great part of replacing the records lost by the fire of September 12, 1883, and preparing an index of the same.												
Salaries, Office of Surveyor-General of Wyoming—												
Surveyor-general	R. S.	389	2210	} 3,000 00	8,000 00	6,000 00					
Clerks in his office	R. S.	391	2226								
	July 7, 1884	23	190	1	} 5,000 00							
	Same acts.....											
NOTE.—In submitting the foregoing estimates, attention is respectfully invited to the fact that while the sums estimated for salaries of surveyors-general amount to \$42,500, which is an excess of \$4,650 over the amounts appropriated by Congress for salaries of said officers for the year ending June 30, 1885, yet the amounts hereinbefore estimated for said salaries are authorized by specific provisions of law, referred to in the estimates, except in the case of Dakota, where the organic act fixes the salary at \$2,000, but by annual appropriation the salary has been increased to \$2,500, which is the amount estimated.

UNDER THE WAR DEPARTMENT.							
COMMANDING GENERAL'S OFFICE.							
<i>Expenses of Commanding General's Office—</i>							
To defray the contingent expenses of the Commanding-General's Office.....	Mar. 3, 1875 July 5, 1884	18 23	452 107	1 1	}	\$3,000 00	\$1,750 00
NOTE.—The above sum is required to properly conduct the business of the Commanding General's Office; for supplies, necessary books of reference, &c. For the fiscal year, 1866, \$10,000 was allowed; from 1868 to 1876, \$5,000 each year; for 1877, \$3,000; from 1878 to 1883, inclusive, \$2,500 each year; for the fiscal year 1884 and for the present fiscal year, only \$1,750. Thus the amount has been steadily reduced until it has dropped below the minimum required for the proper management of this office.							
ADJUTANT-GENERAL'S DEPARTMENT.							
<i>Expenses of Recruiting—</i>							
For expenses of recruiting and transportation of recruits from rendezvous to depots	July 5, 1884	23	107	1	107,302 50	110,000 00
NOTE.—The number of recruits now required to fill the Army is..... 658							
The number to be discharged on expiration of term during the fiscal year ending June 30, 1886, is.....						2,923	
The loss by discharge for disability and under the sentences of courts-martial and by desertion and death, as determined by the average for the three years past, will be						6,543	
Making the number to be enlisted to keep the Army at its authorized strength of 25,000 men.....						10,124	
The number that will be enlisted or re-enlisted at military posts without expense is about						2,594	
Leaving the number to be estimated for, at a cost of \$14.25 for each recruit, which is the average cost for each recruit obtained at rendezvous during the three years ending June 30, 1884.....						7,530	
<i>Contingencies, Adjutant-General's Department—</i>							
Contingent fund of the Adjutant-General's Department at the headquarters of the several military divisions and departments, being for the purchase of the necessary articles of office, toilet, and desk furniture, stationery, binding, maps, and books of reference, police utensils, &c.....	July 5, 1884	23	107	1	2,500 00	2,500 00
OFFICE OF THE CHIEF SIGNAL OFFICER.							
<i>Signal Service—</i>							
Expenses of the Signal Service of the Army, as follows:							
Purchase, equipment, and repair of the field electric telegraph.....	July 21, 1860 Feb. 22, 1862 July 23, 1866 Aug. 7, 1882 July 5, 1884	12 12 14 22 23	66 344 335 319 107	1 1, 2 22 1 1	} \$2,000 00		
Signal equipments and stores.....	Same acts.....					3,000 00	
Binocular glasses, telescopes, heliostats, and other requisite instruments, including such absolutely necessary meteorological instruments for use on target-ranges.....	do.....					2,200 00	
Telephone apparatus, and maintenance of same.....	do.....					2,250 00	
Tolls for military persons, and employes or their families, crossing the Aqueduct bridge, as well as for teams, &c., carrying articles not required for the supply and maintenance of the post of Fort Myer, Va., and including the use of said bridge for the suspension and permanent location thereon of the telegraph-wires forming the Signal-Service lines between the office of the Chief Signal Officer and the post of Fort Myer, Va. (Has been paid from appropriations for the Signal Service, as per opinion of the Judge-Advocate General of December 4, 1880, and therefore not before specifically appropriated for. Estimate for this was submitted last year, but specific appropriation was not made. In view of the fact that the project for a free bridge has not been consummated, nor is likely to be in the near future, this appropriation is asked)	Submitted.....					500 00	
NOTE.—The amount asked for in this estimate is based upon the possible needs of the Army in the way of signal equipments, &c., and as required by paragraphs 2584 and 2585, Army Regulations, 1881, and paragraph 9 of General Orders, No. 53, Adjutant-General's Office, May 15, 1882.						9,950 00	5,000 00

SUBSISTENCE DEPARTMENT.							
<i>Subsistence of the Army</i> —							
Subsistence of regular troops, Indian scouts, civil employes, &c., (not including enlisted men of the Signal Corps,) as below specified :							
	No. entitled to rations.	No. of days.	No. of rations required.				
Enlisted men, including Indian scouts and hospital stewards.....	25,000	365	9,125,000	July 5, 1884	R. S. 224 108	1293 1	
Civil employes, (A. R., 2179).....	1,000	365	365,000	Same acts.....			
Contract-surgeons, (A. R., 2280).....	75	365	27,375	do.....			
Hospital-matrons.....	160	365	58,400		R. S. 217 221 224	1239 1277 1295	
Military convicts, (at posts).....	275	365	100,375	July 5, 1884	23	108 1	
Prisoners of war, including Indians, for the subsistence of whom no other appropriation is made, (A. R., 1297).....	750	365	273,750	do.....			
Additional half-rations to sergeants and corporals of ordnance.....	120	365	21,900	July 5, 1884	R. S. 224 108	1293 1	
Total.....			9,971,800				
9,971,800 rations, at 20 cents each.....							1,994,360 00
NOTE.—In making the estimate at 20 cents, the following expenses are included, viz: Cost, at place of purchase, of subsistence supplies for issue to troops, &c., (not including stores for issue to enlisted men of the Signal Service,) for extra issues, (including candles for illumination and salt and vinegar for public animals,) and for sales to officers and enlisted men, including the Signal Service, under sections 1144 and 1149 of the Revised Statutes; commutation to enlisted men on furlough, under Army Regulations, 2233, and to ordnance-sergeants at ungarrisoned posts; losses from wastage in issuing; damage in transportation; shrinkage and deterioration while on hand; necessary abandonment or destruction in the field; protection of supplies, including building, repair, and rent of necessary storehouses and offices, when not otherwise furnished; purchase of paulins, &c.; building and repairing of bake houses and ovens; the cost of purchasing, issuing, and accounting for subsistence supplies, and of their care and preservation, including the hire of civil employes, the payment of extra-duty pay to enlisted men detailed for duty in the Subsistence Department at the various posts and stations, and the cost of the required scales, measures, utensils, tools, stationery, blank books and forms, printing, office-furniture, telegrams, and other necessary expenses incident to subsisting the Army.							
The number of military convicts at posts is increased in this estimate over that for the fiscal year 1885, because the actual number of such convicts drawing subsistence in May and June, 1884, was found, by examination of the returns on file in this office, to be about the number above estimated for, and the likelihoods are that this number will not be diminished in the fiscal year 1886.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Subsistence of the Army—Continued.</i>							
Difference between the cost of the ration, at 20 cents, and commutation, at \$1, for the following enlisted men, viz: 15 on duty at Headquarters of the Army, War Department; 3 on duty at United States medical dispensary, Washington, D. C., and 5 on duty as clerks at headquarters divisions and headquarters general recruiting service—23 men, for 365 days, at 80 cents per day.....	July 5, 1884	23	108	1	\$6,716 00		
Difference between the cost of the ration, at 20 cents, and commutation, at 75 cents, for the following enlisted men, viz: 142 on duty as clerks at headquarters divisions, departments, and districts, headquarters general recruiting service, and at West Point Military Academy; 25 on duty in various capacities at military posts and stations—167 men, for 365 days, at 55 cents per day.....	do.....				33,525 25		
Difference between the cost of the ration, at 20 cents, and commutation, at 50 cents, for the following enlisted men, viz: 58 on duty as messengers at headquarters divisions, departments, and districts, and headquarters general recruiting service; 1 on duty at Sandy Hook, N. J.—59 men, for 365 days, at 30 cents per day.....	do.....				6,460 50		
NOTE.—Commutation of rations to enlisted men detailed as clerks and messengers at headquarters of divisions, departments, districts, and general recruiting service is allowed at the above rates by the Secretary of War, in General Orders, No. 54, Headquarters of the Army, Adjutant-General's Office, 1881. The allowance to enlisted men detailed by the General of the Army at Headquarters of the Army, in the War Department, and at United States medical dispensary, Washington, D. C., is fixed by memoranda, War Department, Adjutant-General's Office, October 31, 1863, at \$1 per day; to those at West Point by special authority of the Secretary of War.							
Difference between the cost of the ration, at 20 cents, and the allowance by the Secretary of War, of \$1.50 per day, to enlisted men travelling on detached duty, when it is impracticable to carry cooked or travel rations.....	do.....				20,000 00		
NOTE.—The rate of commutation allowed by the Secretary of War to enlisted men while travelling under orders, when it is impracticable to carry cooked or travel rations, is, by General Orders, No. 104, Headquarters of the Army, Adjutant-General's Office, 1882, announced at \$1.50 per day.							
Difference between the cost of the ration, at 20 cents, and the allowance by the Secretary of War, of \$1.50 per day, to soldiers selected to contest for places or prizes in department, division, and Army rifle-practice teams, while travelling to, remaining at, and returning from places of contest, (estimated)	do.....				20,000 00		
NOTE.—The rate of commutation allowed by the Secretary of War to enlisted men selected to contest for places or prizes in department, division, and Army teams, while going to, remaining at, and returning from places of contest, is announced by General Orders, No. 41, Headquarters of the Army, Adjutant-General's Office, June 15, 1883.							
Difference between the cost of the ration, at 20 cents, and the cost of cooked rations, at 50 cents, per day, for, say, 125 enlisted men, (recruiting parties at rendezvous,) and for, say, 207 daily average number of recruits at rendezvous, say 332 men for 365 days—being 121,180 rations, at 30 cents per ration	do.....				36,354 00		
NOTE.—Contracts for complete cooked rations for recruiting parties and recruits at rendezvous, when subsistence cannot be advantageously issued, are entered into by the proper officers, under Army Regulations, 1565.							
Cost (in excess of ordinary rations) of hot coffee and canned beef and baked beans for troops travelling on cars or other conveyances, when it is impracticable to cook their rations.....	do.....				10,000 00		
NOTE.—The issue of these articles is authorized by General Orders, No. 104, Adjutant-General's Office, 1882.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.	
		Vol. or R. S.	Page.	Sec.				
<i>Subsistence of the Army—Continued.</i>								
Subsistence stores for issue to Indians visiting military posts	July 5, 1883	23	108	1	\$10,000 00			
NOTE.—These issues are made under Army Regulations, 2182.								
Indians employed without pay as guides, scouts, &c.....do.....				10,000 00	\$2,147,415 75	\$1,900,000 00	
NOTE.—It is recommended that of the amount appropriated for subsistence of the Army, on this estimate, \$300,000 shall be made available, from and after the passage of the act making the appropriation, for the purchase of stores which it may be necessary to ship to distant posts in advance of June 30, 1885. The foregoing estimate does not include any provision for furnishing rations or commutation of rations to the 500 enlisted men and the civil employés of the Signal Service, nor for commutation for enlisted men of the Army detailed for duty as operators or as repairmen on military-telegraph lines. It does include provision for the purchase of stores to be held for sale to the officers and enlisted men of the Signal Service, under Revised Statutes, 1144 and 1149.								
Attention is invited to that part of the note at the foot of the estimate for the Subsistence Department for the fiscal year 1885, (Estimate Book, 1885, page 83,) which relates to the form of the clause to be inserted in the appropriation act.								
QUARTERMASTER'S DEPARTMENT.								
<i>Regular Supplies—</i>								
Regular supplies of the Quartermaster's Department, consisting of stoves and heating apparatus, and repair and maintenance of same for heating barracks and quarters; of ranges and stoves for cooking; of fuel and lights for enlisted men, guards, hospitals, storehouses, and offices, and for sale to officers; of forage in kind for the horses, mules, and oxen of the Quartermaster's Department, at the several posts and stations, and with the armies in the field, including its care and protection; for the horses of the several regiments of cavalry, the batteries of artillery, and such companies of infantry and scouts as may be mounted, and for the authorized number of officers' horses, including bedding for the animals; of straw for soldiers' bedding; and of stationery, including blank books for the Quartermaster's Department, certificates for discharged soldiers, blank forms for the Pay and Quartermaster's Department, and for printing of division and department orders and reports..... 	Revised Army Reg's, 1881, p. 203, par. 1821.							
	July 5, 1884	23	108	1				
<i>Horses for Cavalry and Artillery—</i>								
Purchase of horses for the cavalry and artillery, and for the Indian scouts, and for such infantry as may be mounted: <i>Provided</i> , That hereafter the number of horses purchased under this appropriation, added to the number actually on hand, shall not at any time exceed the number of enlisted men and Indian scouts in the mounted service	R. S.	206	1133	}	200,000 00	200,000 00	
	Revised Army Reg's, 1881, p. 203, par. 1821.							
	July 5, 1884	23	109	1				
	<i>Incidental Expenses—</i>							
For postage; extra pay to soldiers employed under the direction of the Quartermaster's Department in the erection of barracks, quarters, and storehouses, and as clerks for post-quartermasters at military posts; in the construction of roads, and other constant labor for periods of not less than ten days, including those employed as clerks and messengers at Army, division, department, and district headquarters; expenses of expresses to and from the frontier posts and armies in the field; of escorts to paymasters and other disbursing officers, and to trains where military escort cannot be furnished; expenses of the interment of officers killed in action, or who die when on duty in the field or at military posts, and on the frontiers, or when travelling under orders, and of non-commissioned officers and soldiers; authorized office-furniture; hire of laborers in the Quartermaster's Department, including the hire of interpreters, spies, and guides for the Army; compensation of clerks and other employés to officers of the Quartermaster's Department; compensation of forage and wagon masters, authorized by the act of July 5, 1838; for the rewards for the apprehension, securing, and delivering of deserters, and for the expenses incident								

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Incidental Expenses—Continued.</i>							
to their pursuit; and for the following expenditures required for the several regiments of cavalry, the batteries of light artillery, and such companies of infantry and scouts as may be mounted, and for the trains, to wit: Hire of veterinary surgeons, and for medicine for horses and mules, picket-ropes, and for shoeing the horses and mules; also, generally, the proper and authorized expenses for the movement and operations of the Army not expressly assigned to any other department: <i>Provided</i> , That two hundred and fifty thousand dollars of this sum, or so much thereof as shall be necessary, shall be set aside for the payment of enlisted men on extra duty	R. S.	207	1137	}	\$700,000 00	\$675,000 00
	R. S.	223	1287			
	Revised Army Reg's, 1881, p. 203, par. 1821.						
	July 5, 1838	5	257	10			
	July 5, 1884	23	109, 110.	1			
NOTE.—The amount asked under this head (\$700,000) is \$170,250 less than the estimate for the fiscal year 1884-'85, but is \$25,000 more than was appropriated for that year.							
This amount is necessary for pay of forage-masters, (for whose payment no estimate was made for 1884-'85,) and for increased extra-duty pay of clerks and messengers at Army, division, department, and district headquarters, and for the increased rewards for apprehension of deserters.							
<i>Army Transportation—</i>							
Transportation of the Army, including baggage of the troops, when moving either by land or water; of clothing and camp and garrison equipage from the depots of Philadelphia and Jeffersonville to the several posts and Army depots and from those depots to the troops in the field; of horse-equipments and of subsistence stores from the places of purchase, and from the places of delivery under contract, to such places as the circumstances of the service may require them to be sent; of ordnance, ordnance stores, and small-arms from the foundries and armories to the arsenals, fortifications, frontier posts, and Army depots; freights, wharfage, tolls, and ferriages; the purchase and hire of horses, mules, oxen, and harness, and the purchase and repair of wagons, carts, and drays, and of ships and other seagoing vessels and boats required for the transportation of supplies, and for garrison purposes; for drayage and cartage at the several posts; hire of teamsters; pay of enlisted men on extra duty driving teams or repairing means of transportation; transportation of funds for the pay and other disbursing departments; the expenses of sailing public transports on the various rivers, the Gulf of Mexico, and the Atlantic and Pacific; for procuring water at such posts as, from their situation, require it to be brought from a distance; and for clearing roads, and for removing obstructions from roads, harbors, and rivers, to the extent which may be required for the actual operations of the troops in the field..... 	R. S.	206	1133-5			
	Revised Army Reg's, p. 203, par. 1821, and p. 204, par. 1822.						
	July 5, 1884	23	110	1			
<i>Fifty per centum of Arrears of Army Transportation due certain Land-Grant Railroads—</i>							
For the payment for Army transportation lawfully due such land-grant railroads as have not received aid in Government bonds, to be adjusted by the proper accounting officers in accordance with the decisions of the Supreme Court in cases decided under such land-grant acts; but in no case shall more than fifty per centum of the full amount of the service be paid: <i>Provided</i> , That such compensation shall be computed upon the basis of the tariff rates for like transportation performed for the public at large, and shall be accepted as in full for all demands for said services.....	July 5, 1884	23	111	1	125,000 00	125,000 00
<i>Barracks and Quarters—</i>							
For barracks and quarters for troops, storehouses for the safe-keeping of military stores, for offices, and for grounds for camp and summer cantonments, and for temporary buildings at frontier stations; for the construction of temporary buildings and stables and for repairing public buildings at established posts.....	R. S.	206	1136	}	\$700,000 00	
	R. S.	221	1270			
	Revised Army Reg's, 1881, p. 204, par's 1821, 1822.						
	July 5, 1884	23	111	1			
For quarters for veterinary surgeons, quartermaster-sergeants, commissary-sergeants, and ordnance-sergeants.....	Submitted....			25,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
Barracks and Quarters—Continued.							
For chapels, school-houses, and libraries.....	Submitted.....				\$20,000 00		
For targets, shooting-galleries, and ranges, and repairs thereof	do.....				15,000 00	\$760,000 00	\$700,000 00
NOTE.—The amount asked for under this head is \$40,000 less than the estimate for the fiscal year 1884-'85, and \$60,000 more than was appropriated for that year. The providing of quarters for veterinary surgeons, quartermaster-sergeants, &c., the construction of chapels and libraries where most needed and the expense of constructing and keeping in repair targets, target-ranges, and shooting-galleries, will require the excess of \$60,000 embraced in this estimate, and all these expenditures are necessary for the good of the service, all veterinary surgeons, &c., at present being practically without proper quarters.							
Construction and Repair of Hospitals—							
For construction and repair of hospitals, as reported by the Surgeon-General of the Army, including the pay of enlisted men employed on extra duty in the same. ...	July 5, 1884	23	111	1	125,000 00		
For construction of quarters for hospital-stewards, as recommended by the Surgeon-General of the Army, including the pay of enlisted men employed on extra duty in the same.....	Submitted..				15,000 00	140,000 00	100,000 00
NOTE.—The amount asked for under this head is the same as the estimate for the fiscal year 1884-'85, but is \$40,000 more than was appropriated for that year. The Surgeon-General, referring to the quarters for hospital-stewards, says: "The necessity for such quarters must be obvious, as the residence of a hospital-steward with his family within the hospital building, as is generally the case at present, cannot be considered otherwise than objectionable to hygienic and sanitary rules, and interfering with the proper administration of the hospital department and intrusive to the best interests of the patients."							
Clothing and Equipage—							
For cloth, woollens, materials, and for the manufacture of clothing for the Army, for issue and for sales at cost price, according to the Army Regulations; for altering and fitting clothing and washing and cleansing when necessary; for equipage, and for expenses of packing and handling and similar necessities	Revised Army Reg's, 1881, p. 203, par. 1821. July 5, 1884	R. S. 23	206 111	1133-5 1	} }	1,499,000 00	1,400,000 00
NOTE.—The amount asked for under this head is \$99,000 more than was estimated for the fiscal year 1884-'85, and \$99,000 more than was appropriated for that year. The reduced stock of clothing and equipage and materials on hand, however, makes the necessity for this additional sum apparent.							
Contingencies of the Army—							
For all contingent expenses of the Army not provided for by other estimates, and embracing all branches of the military service, to be expended under the immediate orders of the Secretary of War.....	July 5, 1884	23	111	1		30,000 00	30,000 00
MEDICAL DEPARTMENT.							
Medical and Hospital Department—							
For the purchase of medical and hospital supplies, expenses of purveying depots, pay of employes, medical care and treatment of officers and enlisted men of the Army on duty at posts and stations for which no other provision is made, and for other miscellaneous expenses of the Medical Department.....	July 5, 1884	23	111	1		250,000 00	225,000 00
NOTE.—This amount (\$250,000) will be required to meet the wants of the Medical Department for the ensuing fiscal year. The new "standard supply-table" requires the purchase of many new articles, including medicines, instruments, books, &c., required to enable medical officers of the Army to keep pace with the medical profession in civil life. The limited number of contract-surgeons allowed by law necessitates the temporary employment, under existing regulations, of private physicians to attend officers and enlisted men on duty at stations where there is no medical officer of the Army. These physicians are paid by the visit, from the medical appropriation, and the reduction in the number of contract-surgeons necessarily increases correspondingly the expenditure for medical attendance by private physicians.							
Medical Museum and Library—							
For Army Medical Museum, including ordinary repairs of the Museum hall, preservation of specimens, and the preparation or purchase of new specimens.....	July 5, 1884	23	112	1	5,000 00		
For the library of the Surgeon-General's Office.....	do.....				10,000 00	15,000 00	15,000 00
NOTE.—This amount (\$10,000) is necessary to enable the library to obtain all new medical works of all countries as soon as published, and thus meet the demands now being made upon it by physicians in all parts of the United States.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
ENGINEER DEPARTMENT.							
<i>Engineer Depot at Willet's Point, New York—</i>							
Purchase of engineering materials to continue the present course of instruction of the engineer battalion in their special duties of sappers, miners, and pontoniers.....	Appropriated..	23	112	1	\$1,000 00		
Incidental expenses of the depot, remodelling ponton-trains, repairing instruments, purchase of fuel, forage, stationery, chemicals, professional books for library, extra-duty pay to enlisted men employed as artisans, ordinary repairs and unforeseen expenses.....	do.....				4,000 00		
Repairing, surveying, and other instruments accumulated in depot for want of means to repair, arising from inadequate appropriation of \$1,000 for preceding item in each of the fiscal years 1883-'84 and 1884-'85.....	Submitted.....				2,000 00		
Erection of a new double house, greatly needed as quarters for two medical officers, and specially authorized by Secretary of War, at a cost of \$10,000.....	do.....				10,000 00	\$17,000 00	\$5,200 00
ORDNANCE DEPARTMENT.							
<i>Ordnance Service—</i>							
Current expenses of the ordnance service.....	July 5, 1884	23	112	1		150,000 00	100,000 00
NOTE.—The amount estimated for under this head is required to pay the expenses at the arsenals of receiving stores and issuing arms and other ordnance supplies; of police and office duties; of rents, tolls, fuel, and lights; of stationery and office-furniture; of tools and instruments for use; of public animals, forage, and vehicles; incidental expenses of the ordnance service, including compensation of workmen in the armory and museum building connected with the ordnance office, and expenses attending practical trials and tests of ordnance, small-arms, and other ordnance supplies not otherwise specially provided for. This amount cannot be reduced without embarrassment to the public service. The amount appropriated for several years has been found insufficient.							
<i>Ordnance, Ordnance Stores and Supplies—</i>							
Manufacture of metallic ammunition for small-arms.....	July 5, 1884	23	112	1	150,000 00		
NOTE.—This amount will manufacture about seven million rounds for the rifle and carbine now in actual use, and ought not be reduced. The quantity of ammunition on hand is very limited, and a supply should be kept on hand for the hostile uses of the Army and as a prudent reserve in store for general military purposes. Rifle and carbine ammunition costs to manufacture \$20 per thousand, and revolver, \$15 per thousand.							
Ammunition, tools, and material for target-practice.....	do.....				50,000 00		
NOTE.—Existing orders from the War Department authorize the expenditure for target-practice of cartridges or reloading materials to the amount of \$2.70 per man per annum, and about \$1.93 per man per annum for gallery-practice, and, basing the strength of the Army (enlisted men and commissioned officers) at 20,000 men, it will require the above amount for this expenditure alone. Soldiers should be made good marksmen, but this cannot be done without a liberal supply of ammunition for target-practice. The amount asked for is reasonable, if the soldier is to be provided with cartridges sufficient for his proper instruction.							
Mounting and dismounting guns, and removing the armaments from forts being modified or repaired, including heavy carriages returned to arsenals for alteration and repairs, and other necessary expenses of the same character, and for repairing ordnance and ordnance stores in the hands of troops, and for issue at the arsenals and depots, and for extra-duty pay for enlisted men detailed for ordnance service.....	do.....				30,000 00		
Purchase and manufacture of ordnance stores to fill requisitions of troops.....	do.....				150,000 00		
Infantry, cavalry, and artillery equipments.....	do.....				100,000 00		
Horse-equipments for cavalry, harness for field and machine guns, and for cavalry forge-carts, &c.....	do.....				100,000 00		
NOTE.—From the large supplies of equipments on hand at the close of the war there have been selected the needed supplies for the Army, but the most of the then supplies now on hand are unserviceable, owing to the deterioration of the leather-work. The introduction of the machine and mountain guns and cavalry-forges requires the manufacture of new harness for them, and hereafter new leather-work for horse-equipments for cavalry must be made.							
Overhauling, cleaning, and preserving new ordnance stores on hand at the arsenals.....	do.....				30,000 00	610,000 00	400,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
Manufacture of Arms at National Armories—							
Manufacture of arms at the national armory	July 5, 1884	23	112	1	\$800,000 00		
NOTE.—Besides supplying the regular Army, the militia, the various colleges, and the other branches constituting the Military Establishment, the War Department has now to supply arms, ammunition, &c., to the Marine Corps and to the several Executive Departments for use in protecting public money and property, under the act of March 3, 1879. During the ten years preceding the war of the rebellion, from 1852 to 1861, there was appropriated annually, on an average, \$251,000 for the manufacture of arms at the national armories; and with this sum the wants of a smaller Army and of a smaller population permitted the gradual increase of them in store. The increased cost of the present breech-loading rifle, the greater demand for its use, and the paucity of the appropriations of late years have left the country in a dangerous condition, there being on hand August 31, 1884, subject to issue, but 106,078 breech-loading rifles and carbines. It is of the most vital importance to the nation that the manufacture of arms by this Department be steadily continued, in quantities sufficient to render a gradual accumulation of them in store a certainty. The number of small-arms on hand should never be less than 500,000.							
Manufacture of steel breech-loading rifled guns for field-service, and metal carriages for the same	Submitted.....				50,000 00	\$850,000 00	\$400,000 00
NOTE.—Muzzle-loading wrought-iron rifles for field service, with carriages of wood, have been used in our service to the present time. Modern breech-loading rifles for field artillery are unknown in our Army, and it is but recently that suitable steel for their manufacture has been provided by our own steel-makers. This Department has made at the Watertown arsenal a 3.2-inch calibre breech-loading steel gun, of steel made at the Midvale Works, in Philadelphia, and its trial by a board of experts, as required by law, is now being prosecuted, with every indication of success. Metal carriages for the same have also been made at the Watervliet arsenal. Forty of these guns should be provided for our eight light batteries, and the estimate is submitted to enable this Department to make a substantial beginning in that direction.							
Total Support of the Army.....						26,110,489 95	24,444,450 00
MILITARY ACADEMY.							
Pay of the Military Academy—

Current and Ordinary Expenses, Military Academy—							
Repairs and improvements, viz: Timber, planks, boards, joists, wall-strips, laths, shingles, slate, tin, sheet-lead, zinc, nails, screws, locks, hinges, glass, paints, turpentine, oils, varnish, brushes, stone, brick, flag, lime, cement, plaster, hair, sewer and drain pipe, blasting-powder, fuse, iron, steel, tools, mantels, and other such materials, and for pay of overseer and master-builder, and citizen mechanics and labor employed on repairs and improvements that cannot be done by enlisted men.....	Mar. 31, 1884	23	7-9	1	15,000 00	\$244,605 00	\$228,218 50

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Current and Ordinary Expenses, Military Academy—Continued.</i>							
Fuel and apparatus, viz: Coal, wood, stoves, grates, furnaces, ranges and fixtures, fire-brick, clay, sand; repairs of steam-heating apparatus, grates, furnaces, stoves, ranges, and fixtures.....	Mar. 31, 1884	23	7-9	1	\$13,000 00		
NOTE.—The increase of \$1,000, asked for over the appropriation of current fiscal year, is due to the fact that the cadet barracks has been increased one-fifth in size. The consumption of coal required to heat this building will, therefore, be twenty per cent. greater than in previous years. As this is the first year the new addition to the cadet barracks is occupied, it is asked that the \$1,000 increase may become immediately available.							
Gas-pipes, fixtures, lamp-posts, gasometers, retorts, and repairs.....	do.				900 00		
Fuel for cadet mess-hall, laundry, and shops.....	do.				3,000 00		
Postage and telegrams.....	do.				300 00		
Stationery, viz: Blank books, paper, envelopes, quills, steel-pens, rubber, erasers, pencils, mucilage, wax, wafers, folders, fasteners, rules, files, ink, inkstands, holders, red tape, rubber-bands, blotting-pads, &c.....	do.				600 00		
Transportation of material, discharged cadets, and ferriages.....	do.				2,000 00		
Printing: Type, materials for office, diplomas for graduates, annual register, blanks, and monthly reports to parents of cadets.....	do.				1,000 00		
Clerk to disbursing officer and quartermaster	do.				1,650 00		
NOTE.—The salary of this clerk was cut down July 1, 1877, from \$1,650 to \$1,200 per annum. He has been in the employ of the Government at West Point thirty-seven years. His duties are onerous and very responsible, and it is urgently recommended to increase his pay to \$1,650 per year, what it formerly was.							
Clerk to the adjutant in charge of records.....	do.				1,500 00		
NOTE.—The same remark applies as in the preceding case, except that this clerk's salary was cut down July 1, 1877, from \$1,500 per year to \$1,200. It is now asked to increase his salary to what it formerly was, viz., \$1,500 per year.							
Clerk to the treasurer.....	do.				1,200 00		
Department of instruction in mathematics:							
Repairs and material for the preservation of models and instruments.....	do.				50 00		
Text-books, books of reference, binding, and stationery for use of instructors.....	do.				150 00		
One draughtsman, to draw figures, make corrections and copies of subjects, rendered necessary by revision of text-books in mathematics now under way	do.				100 00		
Total					\$300		
Department of civil and military engineering:							
Models, maps, purchase and repair of instruments, text-books, books of reference, stationery for the use of instructors, and contingencies.....	do.				500 00		
Extra pay of enlisted man employed as draughtsman.....	do.				100 00		
Total.....					\$600		
NOTE.—This is a reduction of \$500 in the amount appropriated for the current fiscal year.							
Department of chemistry, mineralogy, and geology:							
Chemicals, chemical apparatus, glass and porcelain ware, paper, wire, sheet-metal, ores, photographic apparatus and material	do.				500 00		
Rough specimens, fossils, files, alcohol, lamps, blow-pipes, pencils, and paper for practical instruction in mineralogy and geology, and for gradual increase of the cabinet.....	do.				400 00		
Repairs and addition to electric, magnetic, pneumatic, and thermic apparatus, and apparatus illustrating the optical properties of substances.....	do.				750 00		
Pay of mechanic employed in chemical and geological section-rooms, and in lecture-rooms.....	do.				1,000 00		
Models, maps, and diagrams, text-books, and stationery for the use of instructors.....	do.				180 00		
Contingencies.....	do.				100 00		
Total.....					\$2,930		
Department of modern languages:							
Stationery, text-books, and books of reference for the use of instructors, and for printing examination-papers	do.				200 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

						856,715 00	*75,000 00
<i>Repairs, Bureau of Ordnance—</i>							
Necessary repairs to ordnance buildings, magazines, gun-parks, boats, lighters, wharves, machinery, and other objects of the like character.....	Mar. 3, 1883 July 7, 1884	R. S. 22 23	721 474 262,'3	3666 1 1	}	16,000 00	*7,500 00

* For the six months ending December 31, 1884.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
Contingent, Bureau of Ordnance—							
Miscellaneous items, viz: For freight to foreign and home stations; advertising and auctioneers' fees; cartage and express-charges; repairs to fire-engines; gas and water pipes; gas and water tax at magazines; toll, ferriage, foreign postage, and telegrams to and from the bureau.....	Mar. 3, 1883 July 7, 1884	R. S. 22 23	721 474 262, '3	3666 1 1	}	\$5,000 00	*\$1,500 00
NOTE.—The sum heretofore appropriated for the above items has been found insufficient. The bureau was obliged to ask for a deficiency of \$400 for the last fiscal year, (1883-'84,) which was appropriated, but unforeseen and unavoidable contingencies on foreign stations have arisen, which create a still further deficiency.							
Civil Establishment, Bureau of Ordnance—							
Civil establishment at navy-yards.....	Mar. 3, 1883 July 7, 1884	22 23	474 262, '3	1 1	}	11,217 25	*2,500 00
NOTE.—The increase asked for in the above item is to restore the former civil establishment under this bureau, except at the Washington navy-yard, where it increases the pay of the principal clerk to \$1,600, and provides for one clerk at \$1,200 and a writer at \$1,000. It also changes the pay of the clerk at the Portsmouth and Mare Island yards to \$1,150 each. No clerk or writer is asked for at Pensacola or League Island.							
Torpedo Corps—							
Labor, material, freight, and express-charges; general repairs to grounds, buildings, wharves, &c.; boats; instruction; instruments, tools, furniture, experiments, and general torpedo outfits.....	Mar. 3, 1883 July 7, 1884	R. S. R. S. 22 23	721 733 474 262, '3	3666 3709, 3747 1 1	} \$60,000 00		
NOTE.—Gun-cotton is now being used as the charge of torpedoes, in lieu of gunpowder, which has heretofore been paid for from the appropriation "Ordnance."							
Purchase of a torpedo-boat and the working drawings of the same	Submitted.....				55,000 00	115,000 00	*25,000 00
NOTE.—The purchase of a fast torpedo-boat from one of the leading builders of the world will furnish our people with a type and example of the most advanced form of construction, which is not now available.							
BUREAU OF EQUIPMENT AND RECRUITING.							
Equipment of Vessels—							
Coal for steamers' and ships' use, including expenses for transportation, storage, and handling; hemp, wire, hides, and other materials for the manufacture of rope and cordage; iron for the manufacture of anchors, cables, galleys, and chains; canvas for the manufacture of sails, awnings, bags, and hammocks; heating apparatus for receiving-ships; and for the purchase of all other articles of equipment at home and abroad; and for the pay of labor in equipping vessels and manufacture of equipment articles in the several navy-yards.....	Mar. 3, 1883 July 7, 1884	R. S. 22 23	733 475 262, '3	3709, 3747 1 1	}	896,000 00	*400,000 00
Transportation and Recruiting, Bureau of Equipment and Recruiting—							
Expenses of recruiting for the naval service, rent of rendezvous, and expenses of maintaining the same; advertising for men and boys; and for the transportation of enlisted men at home and abroad	Mar. 3, 1883 July 7, 1884	R. S. 22 23	721 475 262, '3	3666 1 1	}	35,000 00	*12,500 00
Contingent, Bureau of Equipment and Recruiting—							
Extra expenses of training-ships; freight and transportation of equipment stores; printing, advertising, telegraphing, books, and models; postage, car-tickets, ferriage, ice; apprehension of deserters and stragglers; certificates and good-conduct badges for enlisted men; school-books for training-ships; medals for boys; and emergencies arising under cognizance of the Bureau of Equipment and Recruiting unforeseen and impossible to classify	Mar. 3, 1883 July 7, 1884	R. S. 22 23	721 475 262, '5	3666 1 1	}	20,000 00	*5,000 00

NOTE.—Amount paid during last fiscal year, \$114,560.90.							
For rations and commutation of rations for 8,250 men and boys, and 1,000 marines, 3,376,250 rations, at 30 cents.....	Same acts.....				1,012,875 00		
NOTE.—Amount paid for commuted rations during last fiscal year, 1,408,997 rations, at 30 cents..... \$422,699 10 Cost of rations issued during last fiscal year: 1,876,545 rations; cost of rations, 30.9245 +..... 580,312 33 1,003,011 43							
For commuted rations stopped on account of sick in hospital and credited to the hospital-fund.....do.....				13,500 00		
NOTE.—Amount credited during the last fiscal year, 44,737 rations, at 30 cents, \$13,421.10.							
For losses on rations issued, 5 per cent. on \$580,312.33....do.....				29,015 62		
For water for drinking and cooking on board ships.....do.....				15,000 00		
NOTE.—Amount expended during last fiscal year, \$13,669.70.							
For labor and expenses of inspectionsdo.....				85,000 00		
NOTE.—Amount expended during last fiscal year, \$83,900.70.						1,275,840 62	*550,000 00
<i>Contingent, Bureau of Provisions and Clothing—</i>							
Freight on shipments, candles, fuel, books and blanks, stationery, advertising, furniture for inspections and pay offices in navy-yards, expenses of Naval Clothing Factory, foreign postage, telegrams, express-charges, tolls, ferriage, car-tickets, yeomen's stores, iron safes, newspapers, ice, and other expenses not enumerated...	Mar. 3, 1883 July 7, 1884	R. S. 22 23	721 476 262, '3	3666 1 1	}	60,000 00	*20,000 00
NOTE.—For several years past the freight on provisions has been paid from the appropriation provisions, and the freight on all other stores belonging to the bureau from the appropriation contingent. When provisions are shipped other stores belonging to the bureau are almost invariably shipped at the same time, and thus it becomes necessary to prorate the amount of freight between the two appropriations, and to make out two sets of bills. To simplify this and to obviate the necessity for the double labor, it is recommended that the appropriation be so changed as to pay all freight from the appropriation contingent, and that that appropriation be increased to \$60,000 from \$40,000, the amount appropriated for the current year.

						310,000 00	*\$41,632 50
<i>Screw-Vessel, Ordnance—</i>							
For main and secondary batteries complete for the "New York".....	Submitted.....					300,900 00	
<i>Steel Vessels, Ordnance—</i>							
For the armament of the additional vessels proposed by the Navy Department, viz:							
One cruiser of 4,500 tons.....	Submitted.....				275,902 00		
One cruiser of 3,000 tons.....	do.....				181,996 00		
One dispatch-vessel of 1,500 tons.....	do.....				101,214 00		
One heavily-armed gunboat of 1,500 tons, No. 1.....	do.....				112,940 00		
One heavily-armed gunboat of 1,500 tons, No. 2.....	do.....				126,226 00		
One light gunboat, 750 tons.....	do.....				65,644 00		
One gunboat 900 tons.....	do.....				113,875 00		
One steel ram.....	do.....				28,106 00		
One cruising torpedo-boat, (boat and armament complete).....	do.....				97,500 00		
Two harbor torpedo-boats, (boat and armament complete).....	do.....				117,000 00		
One armored vessel, 8,500 tons.....	do.....				480,615 00.		
Total under Bureau of Ordnance.....						1,701,018 00	
NOTE.—In making these estimates, the price of English steel has been used in calculating the cost of all 8 and 10 inch guns. If American steel could be used the price of the steel for these calibres would be increased 50 per cent., making an increase in the estimates of about \$120,000.							
The estimates for the torpedo-boats are made by taking the English prices for the largest and swiftest types, (133 and 110 feet long, respectively,) and adding 30 per cent. to the cost. The entire cost of these torpedo-boats is estimated for above. If this bureau is to furnish their armament only, it will cost \$65,678, assuming that a torpedo costing the same as the "Whitehead" is to be used.

	June 3, 1884	23	35	2			
July 4, 1884	23	98	1, 6				
					\$60, 000, 000 00	\$20, 810, 000 00	
NOTES.—1. The sum of \$20,810,000 was appropriated for the service of the year 1885. (See act approved July 4, 1884, 23 Stat., 98.) This act also provided "that any balance of the appropriation for the above purposes for the current fiscal year [1884] that may remain unexpended on the 30th day of June, 1884, estimated at \$66,000,000, is hereby reappropriated and made available for the service of the year ending June 30, 1885." The amount unexpended which is available for the year 1885 is, in round numbers, sixty-eight and one quarter millions, which, added to the regular appropriation, \$20,810,000, makes the total sum available for the year a little in excess of \$89,000,000. It is believed that not far from \$30,000,000 will remain unexpended at the close of the year 1885.							
2. Since 1870, and until the past two years, all unexpended balances at the close of the year have been covered into the Treasury. No good reasons have been presented why there should be a departure from this practice, and it is suggested that the unexpended balances be covered into the Treasury as heretofore, and that the service for each be provided for by the regular annual appropriation acts.							
3. Section 4755 of the Revised Statutes provides that Navy pensions shall be paid out of the "Navy-pension fund," upon an appropriation by Congress, so far as the same may be sufficient.							
4. The act of June 14, 1878, and section 1, act of July 4, 1884, fixes the compensation of pension agents, and that of July 25, 1882, section 4, fixes the compensation of examining surgeons.

LIGHT-HOUSES, BEACONS, AND FOG-SIGNALS.							
<i>Lubec Narrows Light-Station, Maine—</i> Establishing a light to guide through the dredged channel in Lubec Narrows, Maine	Submitted.....					\$40,000 00	

NOTE.—Since the dredged channel between Lubec and Campobello Island, on the coast of Maine, has been completed by the War Department, it has become evident that, to make this channel of value to commerce at night, a light should be established at the entrance.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Green Island Light-Station, Maine—</i> Establishing a light upon Green Island, near the entrance to Burnt Coat harbor, Maine.....						\$12,000 00	
NOTE.—Burnt Coat harbor is an excellent and capacious harbor of refuge. The range-lights which guided to the entrance were unsatisfactory, and a vessel was wrecked last year while trying to make the harbor by their aid. One of them was accordingly discontinued, and it is proposed to erect in its stead a light-house on Green Island, about one mile to the southward of the entrance.							
<i>Deer Island Light-Station, Massachusetts—</i> For a light-house and fog-signal at Deer Island, Boston harbor, Massachusetts.....						\$35,000 00	
NOTE.—The steamers plying between Boston and the northern ports make use of the Broad Sound channels, and a light and fog-signal at this point are particularly desirable because of the narrow and devious passages.							
<i>Hell Gate Electric Light, New York—</i> For the purchase of land for the site of the electric-light tower already established at Hallet's Point, near Hell Gate, New York		23	197	1		10,000 .00	\$8,400 00
NOTE.—If this land is not purchased at the present time, it cannot be obtained for less than \$11,000. The land is held at present under lease, which the Light-House Board has no funds to renew.							
<i>Romer Shoal Light-Station, New York—</i> Establishing a light on Romer shoal, in the lower bay of New York						25,000 00	
NOTE.—This light is necessary to enable vessels (particularly those inward bound) to pass through the Swash channel with safety when the weather is such that the Staten Island ranges cannot be defined with certainty. The use of the Swash channel lessens the distance between the bar and the upper harbor of New York two and three-quarter miles. During the winter months, when the lower bay is filled with field ice moving in floes of great area, it becomes hazardous to use the main ship-channel. At such times the Swash channel can often be used with comparative safety, as the running ice found there has become broken in the upper bay or on the shoals on either side of the Swash channel.							
<i>Whitehall Narrows Beacon-Light, New York—</i> For establishing a beacon-light to guide through Whitehall Narrows, above Pulpit Point, New York.....						200 00	
NOTE.—The channel above this point is not clearly defined, and an additional light is necessary. It is proposed to establish a small and inexpensive beacon like those now used in the same locality.							
<i>Winter-Quarter Shoal Light-Ship, Virginia—</i> For the construction and establishment of an iron light-ship with a fog-signal for Winter-Quarter shoal, Virginia..						60,000 00	
NOTE.—There is no doubt that the safety of coasting-vessels, as well as those from over sea, would be greatly enhanced by the establishment of a light-ship with an effective fog-signal on this most dangerous shoal.							
<i>Steam-Tender for the Fourth Light-House District—</i> For building a new steam-tender for service in the fourth light-house district.....						60,000 00	
NOTE.—This is to take the place of the "Geranium," a wooden side-wheel steamer. There were long periods during last winter when it was impossible to replace important buoys because of the peculiar construction of this tender. She can be removed to some district where such arduous service is not required.							
<i>Craighill Channel Cut-off Ranges, Maryland—</i> For range-lights to guide through the new cut-off channel, entrance to Baltimore, Md						25,000 00	
NOTE.—The new Craighill Channel cut-off is now nearly completed. Range-lights upon land will be required to enable vessels to use it at night.							
<i>Page's Rock Light-Station, Virginia—</i> Establishing a light on Page's Rock, in York river, Virginia.....						25,000 00	
NOTE.—This rock is quite dangerous, even to small vessels. The increase of commerce upon the river, and still greater prospective increase, make a light at this point quite necessary. The continuation of railroads now centering at West Point, head of York river, includes over thirteen hundred miles of road, necessitating additional and daily lines of steamers to New York and Baltimore.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Greenbury Point Light-Station, Maryland—</i> Building a light-house on the shoal off Greenbury Point, Maryland, to replace the one on the point..... NOTE.—The land about the light-house on the point is washing away and the structure is endangered. In its present position the light is of little use, as it is difficult to distinguish it from the lights of Annapolis. It is proposed to build a new structure nearer the channel.	Submitted.....					\$25,000 00	
<i>Bush's Bluff Light-Station, Virginia—</i> For a light-house and fog-bell on Bush's Bluff, Elizabeth river, near Norfolk, Va..... NOTE.—This is a most dangerous point for vessels bound to and from Norfolk in thick weather. Many vessels have gone ashore here because of the narrowness of the channel. The commerce of the Elizabeth river is increasing.	Submitted.....					25,000 00	
<i>Pamlico Light-Station, North Carolina—</i> Building a new screw-pile light-house off Pamlico Point, North Carolina, to replace the light on the point..... NOTE.—The present structure is in danger of being washed away. A light on the shoal will be of much greater value to the extensive commerce of these waters, and would cost but little, if any, more than a permanent protection for the present tower and dwelling.	Submitted.....					25,000 00	
<i>Steam-Tender for the Fifth Light-House District—</i> Steam-tender to supply the beacons in the fifth district now lighted by gas..... NOTE.—In the sounds of North Carolina a considerable number of the beacons are now lighted economically and efficiently by compressed gas. For this service a special vessel is necessary, the one at present in use being in many ways unsuitable and worn-out.	Submitted.....					15,000 00	
<i>Hunting Island Light-Station, South Carolina—</i> Protecting the site of the light-house at Hunting Island, South Carolina..... NOTE.—The sea has been encroaching upon the site of this light-house for many years, and it is now seriously threatened.	Submitted.....					10,000 00	
<i>Mosquito Inlet Light-Station, Florida—</i> Completing the light-house at Mosquito Inlet, Florida... { NOTE.—The funds for prosecuting this important work are now exhausted, as no appropriation was made last year for its completion.	Appropriated.. Submitted.....	22	607	1	}.....	70,000 00	
<i>Hillsboro' Inlet Light-Station, Florida—</i> Building a new iron light-house at Hillsboro' Inlet, Florida..... NOTE.—This is an important point not yet lighted, and necessary to complete the system for this dangerous coast.	Submitted.....					90,000 00	
<i>Anclote Keys Light-Station, Florida—</i> Establishing a light at Anclote Keys, Florida..... NOTE.—There is a long line of coast here without a light. It is greatly needed as a guide to the safe anchorage which exists at this point inside the Keys.	Submitted.....					20,000 00	
<i>Apalachicola Range-Lights, Florida—</i> Range-lights to guide into the Apalachicola river, Florida..... NOTE.—In order that this channel may be used at night, it will be necessary to establish two or more inexpensive beacon-lights, like those used to mark the approaches to Mobile.	Submitted.....					600 00	
<i>Niagara River Ranges, New York—</i> Range-lights to guide into the entrance of the Niagara river, New York, the lease of the necessary sites being hereby authorized..... NOTE.—There is a large and increasing commerce which enters the mouth of this river, and range-lights are necessary to insure safety of navigation at night. It is proposed to suspend small lights from masts, and permission to erect them can be had for a nominal sum.	Submitted.....					250 00	
<i>Port Sanilac Light-Station, Michigan—</i> Completing the construction of a light-house at or near Port Sanilac, Lake Huron, Michigan..... NOTE.—By the act of July 7, 1884, the sum allowed for this light-house was limited to \$20,000. Of this amount, \$10,000 have been appropriated. The entire sum will be required.	Appropriated..	23	198	1	10,000 00	\$10,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Pipe Island Light-Station, Michigan—</i> Establishment of a light upon Pipe Island, Michigan, to form a range to guide into the Detour passage, Saint Mary's river.....	Submitted.....					\$10,000 00	
NOTE.—The Detour passage is an important channel by which vessels pass to Saint Mary's river and on to Lake Superior. A light at Pipe Island to range with the one now upon Frying-pan shoal (which will be slightly moved for the purpose) will be of great service in entering the passage. It will also be of much service in coming down the river.							
<i>Saint Mary's River Ranges, Michigan—</i> Erecting range-lights to guide through the dredged cut in Saint Mary's river, near Round Island, Michigan.....	Submitted.....					12,000 00	
NOTE.—The value of the dredged channel in this important passage, which is used by vessels passing to Lake Superior, will be greatly enhanced by the establishment of range-lights.							
<i>Milwaukee Light-Station, Wisconsin—</i> Building a new light-house to take the place of the one at the north point of Milwaukee bay, Wisconsin.....	Submitted.....					15,000 00	
NOTE.—The present structure is in danger from the gradual abrasion of the shore. It is proposed to abandon it, purchase additional land, and build a new dwelling and tower.							
<i>Angel Island Fog-Signal, California—</i> Establishment of a fog-signal on Angel Island, San Francisco bay, California.....	Submitted.....					4,500 00	
NOTE.—The terminus of the Northern Pacific Railroad is now at Point Tiburon, and boats between this point and San Francisco necessarily pass through an intricate passage. The establishment of a fog-signal would greatly expedite the passage, both for this line and for the ferry-boats to Sancelito.							
<i>Northwest Seal Rock Light-Station, California—</i> Continuing the construction of a light-house on Northwest Seal rock, off Point Saint George, California.....	Appropriated..	23	198	1		150,000 00	\$30,000 00
NOTE.—The work on this nearly inaccessible rock has been almost discontinued because the appropriation made by the last Congress was insufficient. Work cannot be carried on with advantage at a less expenditure than \$15,000 per month, and a certain sum must necessarily be set aside to meet the casualties to which such a work is necessarily exposed. The sum mentioned is the least that should be appropriated with a view to true economy.							
<i>Cape Orford Light-Station, Oregon—</i> Purchasing right of way to the light-house at Cape Orford, Oregon.....	Submitted.....					2,000 00	
NOTE.—The present road from the light-house to Cape Orford, the nearest post office, is along the ocean beach for about half the distance. Elk river empties into the ocean on this beach, producing dangerous quicksands. The beach cannot be travelled except at low tide, and the ascent at either end is difficult and dangerous.							
<i>Destruction Island Light-Station, Washington Territory—</i> Establishing a first-order light and fog-signal on Destruction Island, Washington Territory.....	Submitted.....					85,000 00	
NOTE.—This is a prominent point on the coast, and a light here would be an important aid to navigation.							
<i>Supply-Steamer for the Atlantic and Gulf Coasts—</i> New iron steamer for the transportation of oil and other supplies to the light-houses on the Atlantic and Gulf coasts.....	Submitted.....					150,000 00	
NOTE.—As mineral oil has now been introduced into light-houses, it is found that the supply-steamer "Fern" is too small to carry the increased bulk necessary. It is, therefore, proposed to use her as a buoy-tender, and build a more suitable vessel for a supply-steamer.							
<i>Building for the Light-House Board—</i> For erecting a suitable building at Washington for the use of the Light-House Board, to contain its offices, its archives, its museum, and its laboratory.....	Submitted.....					250,000 00	
NOTE.—The Board has been for some time very seriously inconvenienced by the insufficiency of the quarters assigned to it in the Treasury building. The building is necessarily crowded by offices and bureaus, constantly increasing in number and size, and, notwithstanding the fact that the Light-House Service and the business connected therewith are constantly increasing in importance, the quarters for the Board are more and more confined.							
Total Light-Houses, Beacons, and Fog-Signals.....						1,261,550 00	48,400 00
Total Public Works under Treasury Department.....						4,490,916 54	823,400 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.

Naval Station, Key West, Fla.— Purchase of Mallory lot.....	Submitted.....					15,000 00	
NOTE.—The chief of the Bureau of Yards and Docks furnishes estimates for the improvement of the navy-yards and stations, amounting to \$3,799,865.29. They are not submitted, except as above, by the Secretary of the Navy, for the reason that, in his opinion, before making further appropriations for the permanent improvement of the navy-yards, Congress should adopt a definite and complete plan, determining what yards shall be closed as working yards and what yards shall continue to be used for construction and repair, and how the latter shall be improved. It is, however, requested that these estimates of the chief of the bureau may be printed for information with his other estimates.

UNDER THE WAR DEPARTMENT.							
ARSENALS.							
<i>Rock Island Arsenal, Rock Island, Ill.—</i>							
Shop K, an iron-finishing shop for the armory.....	Appropriated..	23	215	1		\$75, 000 00	
NOTE.—This is the last of the armory shops, and the last shop required to complete the plans for both the armory and arsenal shops. It was begun in August, 1881. The present appropriation will put in all the iron beams and columns for the third floor, and finish the walls of the building. It is believed that the sum estimated for will be sufficient for purchasing the iron for and manufacturing and putting up the iron-roof frame, and for putting on the roof; for purchasing all the lumber still required, and manufacturing a portion of the interior work; and for purchasing all the bricks required for fire-proof arches; and leave the building in condition for easy completion in another year. For an economical prosecution of the work, it is earnestly recommended that the whole amount asked for be appropriated.							
Completing shop H, an iron-finishing shop for the armory.....do.....						3, 500 00	
NOTE.—The appropriation made for the present year is the whole amount which it was estimated a year ago would be required to complete this building. From a very careful estimate made last month, it is found that, in consequence of the largely increased price of labor, averaging about fifteen per cent., this additional sum will now be required to finish the building.							
Completing storehouse No. 4	do.....					5, 700 00	
NOTE.—The appropriation made for the present year is the whole amount which it was estimated a year ago would be required to complete this building. From a very careful estimate made last month, it is found that, in consequence of the largely increased price of labor, averaging about fifteen per cent., this additional sum will now be required to finish the building.							
Storehouse I.....	Submitted.....					55, 000 00	
NOTE.—This building is not yet commenced. It is proposed to locate it at the point marked "Storehouse I," on the accompanying map. The amount estimated for would make all necessary excavations for basement and foundations, furnish material much needed in grading grounds, put in foundations and a portion of the walls, and is estimated for now for the important purpose of prosecuting the work economically.							
Fire-proof stone building for offices for both the armory and arsenal.....do.....						46, 000 00	
NOTE.—It is proposed to locate this building at the point marked "O" on the accompanying map. The building is intended as a general office for both the armory and arsenal and for all the business of the post. It should be fire-proof throughout, and contain vaults for the books, records, and funds of the arsenal, and it should coincide somewhat in its architecture, appearance, and stone used with the other buildings at the arsenal. The amount asked for is deemed sufficient for procuring foundations, building the walls with suitable architecture, putting in the iron beams for fire-proof floors, and other iron-work. The important reasons for making this estimate are that an office is required for immediate use; it has to be built some time, and the work can be done much cheaper and better by doing it slowly, in connection with other work, than after the other work is completed. There is now no office at this arsenal. For present use, rooms have been temporarily partitioned off in the north end of the west wing of shop B, (one of the finishing-shops for the armory.) This furnishes sufficient office-room, but the partitions are of wood and very temporary, and the rooms are badly heated with stoves. The office is not comfortable in winter, and there is some danger of fire, endangering the loss or damage of a very costly building and the loss of the records of the arsenal.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Rock Island Arsenal, Rock Island, Ill.—Continued.</i>							
One block of officers' quarters, (stone).....	Submitted.....				\$19,000 00		
<p>NOTE.—An estimate for this building has been made in preceding years, but an appropriation was not made. It is somewhat important that the building should be erected, and therefore the estimate is renewed. There are quarters for only a portion of the officers at the arsenal, and the others are still living in the very temporary wooden buildings hastily put up in connection with the military prison here during the war. These buildings are now worthless; they are badly built, and have so decayed that they can hardly be maintained, and are not in a habitable condition. They are in the way of other improvements, and ought to be removed. The proposed permanent building is all that is now required, and its construction is very desirable.</p>							
Lumber storehouse.....	do.....				14,000 00		
<p>NOTE.—This building is not yet commenced. The amount estimated for is the total amount required for completing the building. It is proposed to locate it at the point marked "L. S." on the accompanying map. It is to be 53 feet by 234 feet, one story high; to be built of brick; exterior of walls to be faced with pressed cream-colored Milwaukee brick, to harmonize in color with the adjacent stone buildings; to have a slate roof; and be provided with a railroad switch (or siding) running lengthwise, and an over-traveller for economical unloading and stacking of lumber, and for handling other heavy loads. This building is badly needed for immediate use in storing and seasoning the better grades of lumber. There is now no lumber storehouse at the arsenal. Lumber is stacked for seasoning, and then temporarily covered with rough sheds. This is not economical; does not answer for long seasoning; prevents the use of proper regulations for issuing lumber, and the location of the piles causes considerable danger from fires. The dimensions of the building are planned to meet the permanent requirements of the arsenal, after building work is completed, for storing lumber required in the construction of stores and repairs of the arsenal. It is also adapted for storing, painting, and loading on cars for shipment heavy artillery-carriages and other heavy weights. The construction of the building at this time is also important, that economic use may be made of excavations for grading and for filling low ground preparatory to laying necessary railway-tracks.</p>							
General care, preservation, and improvement; for building new roads; for care and preservation of the water-power; for painting and care and preservation of permanent buildings, bridges, and shores of the island; for building fences, grading grounds, and repairs and extension of railroad.....	Appropriated..	23	215	1	26,000 00		
<p>NOTE.—This work is almost absolutely necessary in the progress of the work of building the arsenal. The roads are required for immediate use in building operations, and should be so permanently built as to become a permanent part of the arsenal, and this work on roads, grading, and sewers can be done far more economically while other excavations and building are going on, and the two kinds of work which are dependent. A large portion of the amount is absolutely necessary for the preservation of immense buildings and extensive roads, bridges, and other constructions already built, and for the maintenance of the water-power and transmission of power. I cannot too strenuously urge the importance of this estimate, and the economy and necessity of an appropriation of the whole amount asked for.</p>							
Machinery and shop-fixtures.....	do.....				17,000 00		
<p>NOTE.—It is proposed, with the money estimated for, to continue the work of putting shafting and other fixtures into the shops now being completed, to add to the plant of the arsenal such machines as are required for immediate use and form part of the permanent plant of the arsenal, and to continue the construction of one of the great lines of shafting for connecting the shops with the water-power. It is important that the fitting up of the shops for use should progress with the construction of the buildings. These fixtures are manufactured in the arsenal shops, and the work can be done much more cheaply at slack times, in connection with other work, than if postponed till the other work is completed.</p>							
<i>Rock Island Bridge—</i>							
Care and preservation, and expense of maintaining and operating the draw.....	Appropriated..	23	215	1	9,000 00		
Protecting Rock Island bridge by means of sheer-booms.....	do.....				250 00		
<p>NOTE.—This estimate is for the care and preservation of the bridge between Davenport, Iowa, and Rock Island, Ill., and the island and the road and causeway connecting the bridges. It includes all ordinary repairs, but is mainly for expense of operating the draw, for which two sets of hands, consisting of engineer, fireman, and tender, are required. This work is difficult, and excellent men must be employed, and guards for maintaining order on the long bridges and their large use by the public. This large use also causes considerable wear and necessity for repairs.</p>							
						9,250 00	9,250 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.

<i>Springfield Arsenal, Springfield, Mass.—</i>							
Repairs and preservation of grounds, buildings, and machinery not used for manufacturing purposes.....	Appropriated..	23	215	1	\$15,000 00		
Milling-shop, two stories and basement, to conform architecturally to the other armory buildings, about 275 feet by 35 feet, fire-proof, of brick and iron.....	Submitted.....				30,000 00		
NOTE.—This building is to be used in lieu of the present milling-shop, three stories and basement, (two-story building increased to three during the civil war,) 182 feet by 35 feet, which, by reason of overcrowding with machinery, insufficient light, and condition of floors and building generally, is unfit, and constitutes so dangerous a combination that a fire in it would very probably destroy the principal machinery of the armory and suspend its operations until a new building could be built and new machinery put in it.						\$45,000 00	\$15,000 00
<i>Allegheny Arsenal, Pittsburgh, Pa.—</i>							
Grading sidewalks and putting down a brick foot-pavement on Penn avenue, between Thirty-ninth and Fortieth streets, and on Thirty-ninth and Fortieth streets, between Penn avenue and the Allegheny Valley Railroad, adjoining the arsenal walls.....	Submitted.....				7,500 00		
NOTE.—A brick pavement is necessary to accommodate the increasing foot-travel along the streets surrounding the arsenal. From the curbstone to the arsenal walls there is nothing but earth. The opposite sides of these streets, private property, are built up and well paved.							
Repairs of storehouses, quarters, walks, roads, cisterns, &c.....	do.....				4,000 00		
						11,500 00	
<i>Augusta Arsenal, Augusta, Ga.—</i>							
Repairs of storehouses, magazines, quarters, barracks, hospital fences, walks, roads, cisterns, well, &c.....	Submitted.....					4,000 00	
<i>Benicia Arsenal, Benicia, Cal.—</i>							
Purchasing machines for carpenters' shop, viz: Planers, grooving-machine, saws and tables, mortising-machine, and boring-machine, and labor, &c., in erecting the above.....	Submitted.....				7,235 00		
NOTE.—The machinery was all destroyed or rendered useless by the fire which injured the shops in November, 1880.							
Purchasing cement sewer-pipe, 1,800 feet, at \$1.50 per foot.....	do.....				2,700 00		
NOTE.—To carry off and empty into Straits of Carquinez excrements, &c., from privy-vaults back of quarters, necessary for sanitary considerations.							
Purchasing and erecting two boilers for shops.....	do.....				2,800 00		
NOTE.—To run engine in new shops.							
Building a reservoir for artesian water, to hold 105,800 gallons.....	do.....				5,500 00		
NOTE.—To store artesian water for use in case of fire, for use in boilers of engines, for washing, and for flushing sewers. The supply of water is variable, depending entirely upon the character of the winter season and the amount of rain which falls. The water obtained from the wells is healthy to drink, but it is too hard to be used in boilers and for washing purposes. An abundant supply of water can be obtained from artesian well, which is perfectly soft. A reservoir is necessary to store this water for use.							
Erection of a storehouse, 40 by 40 feet, fire-proof, one story high, with grated windows.....	do.....				8,828 00		
NOTE.—The stores and materials for issue are stored in the arsenal-building and the old shop-building, which has been transferred into a storehouse. Both of these are more than a quarter of a mile from the shops in which the work of the arsenal will be executed. The material, such as steel, iron, brass, nails, rope, leather, screws, wire, thread, &c., which are for manufactures and have to be obtained frequently during the work-day, should be stored conveniently to the shops.							
Erection of a fire-proof boiler-house, 40 by 20 feet inside.....	do.....				5,850 00		
NOTE.—To be erected 70 feet from shops and on a lower level, (20 feet below.) Shops will be protected from any accident occurring in it by an earthen traverse.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Benicia Arsenal, Benicia, Cal.—Continued.</i>							
One iron gateway, with stone pillars, for main gate at arsenal.....	Submitted.....				\$2,600 00		
NOTE.—It is time to commence the erection of a permanent fence between the town of Benicia and the arsenal grounds, and this will be the initial point from which to commence its erection, both north and south.							
Erection of a paint-shop, 50 by 30 feet.....	do.....				9,574 00		
NOTE.—At present an old frame building is used which was built by the Quartermaster's Department before the Ordnance Department had possession of the site on which it stands.							
Dredging around the wharf.....	do.....				5,496 00		
NOTE.—Dredging around front and sides of wharf to remove debris, &c., deposited by the current, which brings down from both the Sacramento and San Joaquin rivers the alluvium from placer and hydraulic mines.							
Repairing the wharf.....	do.....				1,265 00		
NOTE.—Tenter-piles and sheathing need repairing and renewing.							
Grading grounds.....	do.....				9,365 00		
NOTE.—The difference of level in some places between different parts of the surface of the ground is two hundred and three feet. The different benches or slopes should be shaped so as to present some uniformity without entirely destroying nature's work.							
Building a brick cistern at magazine No. 1.....	do.....				2,900 00		
Building a brick cistern at magazine No. 3.....	do.....				2,500 00		
NOTE.—A considerable quantity of water could be obtained from the roofs of these buildings, but it is all lost for want of cisterns, and in case of fire near either of them there is no water-supply near enough to be of any service in extinguishing it.							
Erection of two new laboratory buildings.....	do.....				4,500 00		
Building a wall 2,400 feet long, 1½ feet thick, and 8 feet high above ground.....	do.....				16,240 00		
NOTE.—To separate arsenal reserve from property of private parties on north side of reserve.							
Building a fire-proof stable.....	do.....				13,065 00		
Building a pavement 1,453 feet long, 6 feet wide, on upper road.....	do.....				1,917 00		
Painting public buildings.....	do.....				1,350 00		
Permanent repairs of post, fences, &c.....	Appropriated..	23	215	1	8,755 00		
Reclaiming 18½ acres of marsh-land for occupancy, and for healthful considerations.....	Submitted.....				35,000 00		
NOTE.—This marsh is in front of the enlisted men's quarters, shops, and office. The trade-winds, which prevail in summer, pass over it before reaching all of the above buildings and the officers' quarters. The tide used to flow and ebb without any interruption over this marsh, but since the railroad embankment has been built it only oozes through and partially wets the marsh, sufficiently to allow the sun's rays, when the water recedes, to evaporate deleterious and malarious gases, which will affect the health of the post; and as the water on the north side of the straits is continually shallowing, the marsh becomes yearly more stagnant, and consequently more offensive and dangerous. A communication from the Chief of Ordnance, in further explanation of the estimates for Benicia arsenal, will be found in the Appendix "Bb."

		Vol. or R. S.	Page.	Sec.			
<i>Frankford Arsenal, Philadelphia, Pa.—Continued.</i>							
One 25-horse-power expansion steam-engine.....	Submitted.....				\$3,500 00		
Increasing height of stack 25 feet.....do.....				900 00		
<p>NOTE.—The expenses attending steam-power and heating of shops with the present old cylinder-boilers are nearly one hundred per cent. greater than they should be in comparison with the steam-generators largely in use in manufacturing places in and around Philadelphia. The evaporation test made in January last showed only 5.39 pounds of water for each pound of coal, whereas the best forms of boilers now in use give as high as 10 and 12 pounds of water per pound of coal. The boilers in use are of old pattern, and, in consequence of their age, are limited to a maximum pressure of 70 pounds. During the winter season it is difficult to maintain this pressure. The demands of the workshops require speed on the engine to be kept up to a fixed and uniform rate. This has during the winter months, when the demands for steam for heating purposes is large, fallen below that required, and thus lessened the work and capacity of the engine in the shops, which should be the production of about fifty thousand cartridges daily when working to maximum capacity. The power required for present manufactures should not be judged by the past; the manufacture of solid-head cartridges, large quantities of bullets for separate issue, and the uses of steam for economy in heating, have drawn largely on our old-time facilities, and will, no doubt, be on the increase in the future. The distribution of steam to the various buildings, some of them 240 feet distant from the boilers, will require to be rearranged, owing to the waste from condensation by underground conduit. The remedy is overhead conduit, when the weather only is to be considered. The 30-horse-power Corliss engine is in good condition, and lately the valves have been re-adjusted by means of the steam-indicator with considerable benefit. The old 12-horse-power engine is taxed to its utmost capacity, although absolutely worn-out, and when compared with modern engines may, in truth, be termed a steam-waster. Its place should be supplied with an expansion-working engine of about 25-horse-power, of the Porter, Allen, or Buckeye pattern, costing, completely set up, about \$3,500. The patterns of boilers investigated are the Galloway, made by the Edge Moor Steel and Iron Company, near Chester, Pa., and the double-decker, made by Wetherill & Co., Chester, Pa. The Galloway cost per pair, set up, about \$9,000, and require a very high stack. The Wetherill cost, set up complete, about \$6,000. The latter pattern has been selected upon which to work out the plans and estimate herewith submitted.</p>							
Two compound double-action presses.....do.....				2,800 00		
Four combined priming and shell-spreading machines....do.....				2,200 00		
Two cartridge-trimming machines.....do.....				1,000 00		
One cartridge-heading machine.....do.....				600 00		
Five cartridge-tapering machines.....do.....				4,000 00		
One cartridge-primer anvil-inserting machinedo.....				400 00		
One cartridge-metal lubricating machinedo.....				150 00		
One cartridge-varnishing machine.....do.....				400 00		
Four presses for paper-box work.....do.....				2,000 00		
<p>NOTE.—The machinery now on hand and to be manufactured during the present fiscal year will give a daily product of from forty-five to fifty thousand cartridges. The new machines above proposed will not materially increase the product, but are intended to replace old and worn-out machinery, and as a reserve in case of break-downs or other accidents.</p>							
Taking down and rebuilding in cement a portion of the stone wall on the Frankford creek and Delaware river...do.....				5,000 00		
<p>NOTE.—The wall on the creek and river fronts is of open stone-work, subject to the action of the tides, and needs constant repair. If once properly built, this annual source of expense would cease. In asking for \$5,000 for the next fiscal year, it is proposed to make a beginning of this job, and by securing an annual appropriation of this amount for four or five years the whole work can be done. The amount now asked will erect the wall from Bridge street to the arsenal wharf.</p>							
Second story to brick carpenter-shop.....do.....				1,800 00		
<p>NOTE.—With the placing of the new machinery authorized for the carpenter-shop this year, the bench-space will be too crowded. The fabrication of boxes for cartridges and bullets takes up now the entire floor. Our pattern-makers, whose services become more constant day by day, should be located out of the dust and turmoil of the general work, and I strongly urge this improvement as early as practicable, as the slate roof is in very bad condition now, and will soon have to be renewed.</p>							
<i>Indianapolis Arsenal, Indianapolis, Ind.—</i>							
For 2,287 lineal feet of cement walk, from Nos. 1 and 2 officers' quarters to gate at south entrance of arsenal grounds, and to office building, &c.....	Submitted.....					\$38,350 00	\$4,700 00
<p>NOTE.—These walks are necessary. The only means of communication between the points mentioned is by carriage-road, which becomes exceedingly muddy and disagreeable in wet weather.</p>							
						2,500 00	

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.

Repairs to cistern	Submitted.....				\$300 00		
Completing water-supply of post, and repairs to drains and sewers	do.....				800 00		
Painting and general repairing of public buildings, including pointing, repairs to roofs, guttering, &c.....	do.....				1,500 00		
Gravelling and grading roads.....	do.....				500 00		
Completing river wall, levelling and cementing top	do.....				400 00		
						\$3,500 00	
<i>New York Arsenal, New York City—</i>							
Repairs of permanent dock, sea-wall, underground and surface drains and sewers, repairs of roads, repairs of permanent enclosures, fire apparatus, tanks, and hose...	Submitted.....				5,000 00		
Grading and improving grounds	do.....				2,000 00		
Repairs of storehouses and other permanent buildings.....	do.....				1,500 00		
Extending and repairing fences.....	do.....				1,500 00		
NOTE.—Repairing wharf, drains, and sewers; keeping in repair water-tanks, fire apparatus and hose; extending fences and repairs of same, and enclosures; grading and improving grounds; repairs and proper preservation of public buildings.							
Dredging in front of stone wharf.....	do.....				3,000 00		
NOTE.—Dredging in front of stone wharf to admit vessels of proper draught receiving and discharging ordnance stores to save expense of lighterage, demurrage, &c.							
Painting buildings and fences.....	do.....				3,000 00		
One set of officers' quarters.....	do.....				5,000 00		
NOTE.—This is very necessary. At present the officer who is to occupy these quarters is obliged to live in New York city, at great expense and at great inconvenience to his work on the Island at the arsenal. The interest on the \$5,000 asked for is much less than is now paid the officer for commutation of quarters, and the appropriation asked for is in the interest of economy.						21,000 00	
<i>Saint Louis Powder-Depot, Jefferson Barracks, Mo.—</i>							
Repairing barracks and quarters, magazine, roofs, gutters, slopes, drains, retaining-walls, coping, lighting grounds, &c.....	Submitted.....					2,500 00	
<i>San Antonio Arsenal, San Antonio, Tex.—</i>							
Laying a concrete sidewalk 6 feet wide and 784 feet long on Flores street.....	Submitted.....				1,411 20		
Laying a concrete sidewalk 6 feet wide and 1,480 feet long on Arsenal street.....	do.....				2,664 00		
NOTE.—This work has been ordered to be done by the city of San Antonio, by resolution of the city councils, dated April 7, 1884.							
Repairs of buildings, roads, drains, &c.....	do.....				5,000 00		
						9,075 20	\$13,150 00
<i>Powder-Depot, Dover, N. J.—</i>							
Grading grounds, erecting magazines, and other necessary buildings, and all expenses incident thereto	Appropriated..	23	215	1		150,000 00	40,000 00
NOTE.—This estimate is to enable this Department to continue the erection of the necessary magazines for the storage of powder.							
<i>Sandy Hook Proving-Ground, New Jersey—</i>							
Clearing, levelling, grading, and building roads, and general repairs at the proving-ground.....	Appropriated..	23	215	1		5,000 00	5,000 00
NOTE.—For target-ranges at the proving-ground. These will extend nearly four miles down the beach, and will require considerable work. Plank roads, with railroads, should be built to save expense and time in communicating from place to place on the grounds.							
<i>Watertown Arsenal, Watertown, Mass.—</i>							
Providing a system of sewerage.....	Submitted.....				5,248 00		
NOTE.—The plan is to lay 8-inch cast-iron pipe to the river; branch 6-inch pipes from the privies, closets, and sinks, connect and carry off the sewerage. The natural slope of the ground is favorable, and as it now costs \$125 a year to clean the numerous cesspools and vaults, it is not only a healthful but an economical measure. I regard it as a very necessary improvement to this large and important arsenal.							
New rain-water leaders from roofs of buildings, and for repairs of old leaders.....	do.....				510 00		
NOTE.—The increase of the water-supply of the post is very much needed. An excellent system for its distribution exists, but the supply is insufficient.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. 		Vol. or R. S.	Page.	Sec.			
<i>Watertown Arsenal, Watertown, Mass.—Continued.</i>							
Rebuilding and repairing, enclosing and interior fences....	Submitted.....				\$1,500 00		
NOTE.—These fences are old and are falling down for want of repairs.							
Repairs to wharf.....	do.....				400 00		
NOTE.—This is necessary if the wharf is to be retained, as the sea-wall is down for 185 feet and fast falling away.							
Repairs to storage-gasometer at gas-works.....	do.....				500 00		
Repairs to slate roofs of public buildings.....	do.....				400 00		
NOTE.—There is hardly a building that does not leak.							
Repairing lightning-rods on public buildings.....	do.....				100 00		
Repainting public buildings.....	do.....				600 00		
Care and preservation of grounds.....	do.....				730 00		
						\$9,988 00	
<i>Testing-Machine, Watertown Arsenal—</i>							
Caring for, preserving, using, and operating the United States testing-machine at Watertown arsenal.....	Appropriated..	23	112	1	10,000 00		
Purchase of material for specimens, and labor to prepare them.....	Submitted.....				10,000 00		
Machine to test small specimens.....	do.....				15,000 00		
NOTE.—The present testing-machine is limited in its operations to tests of tension and compression. It is not adapted to making tests of torsional and transverse resistance, which tests are deemed to be of the greatest value and importance by distinguished civil engineers, as well as by this Department. Past experience clearly shows that the machine as it is is fully occupied, and that, to meet the requirements of the present and future, <i>new machines</i> for this work ought to be at once provided. The results obtained are for the benefit of the whole country. Such machines are too costly for individual enterprise to provide, and governmental ownership and supervision stamp the published results as so correct and reliable as to make them acceptable to engineers and manufacturers the world over.							
						35,000 00	\$10,000 00
<i>Watervliet Arsenal, West Troy, N. Y.—</i>							
General repairs to buildings, bridges, enclosing walls, fences, roads, and grounds.....	Submitted.....				4,000 00		
Painting exterior of brick shop-buildings, including metal roofs.....	do.....				3,000 00		
NOTE.—These buildings are much in need of paint. The roofs especially must be painted during the coming year to prevent serious deterioration.							
Special repairs on buildings occupied as office and store-house by the assistant commissary of post.....	do.....				250 00

<i>Modification of Forts and Batteries—</i> Modification of existing forts and batteries and modifi- cation and continuing construction of incomplete bat- teries to adapt them to modern ordnance	Submitted.....					500,000 00	
<i>Preservation and Repair of Fortifications—</i> Protection, preservation, and repair of fortifications for which there may be no special appropriation available...	Appropriated..	23	158	1		175,000 00	175,000 00
<i>Torpedoes for Harbor Defences—</i> Purchase of submarine mines, and necessary appliances to operate them, for closing the channels leading to our principal seaports	Appropriated..	23	158	1	300,000 00		
Requisite casemates, cable-galleries, &c., to render it pos- sible to operate submarine mines	Submitted.....				200,000 00		
Movable torpedoes propelled and controlled by power operated from shore-stations	Appropriated..	23	158	1	30,000 00		
Continuing torpedo experiments and for practical instruc- tion of engineer troops in the details of the service.....do.....				30,000 00	560,000 00	100,000 00
NOTE.—The foregoing estimates for "Fortifications and other works of defence" will be explained in the annual report of the Chief of Engineers for 1884.							
<i>Armament of Fortifications—</i> Armament of sea-coast fortifications, including the manu- facture and conversion of heavy guns and carriages, projectiles, fuses, powder, and implements, their trial and proof, and all necessary expenses incident thereto, including compensation of draughtsmen on gun-con- struction, while employed in Ordnance Bureau, and for machine-guns and experiments in the use of dyna- mite and other high explosives for projectiles.....	Appropriated..	23	159	1	600,000 00		
For proving heavy cannon for the armament of fortifica- tions, an annual permanent appropriation	Submitted.....				1,500,000 00	2,100,000 00	400,000 00
NOTE.—The second item is based on recommendations made by the foundry board after most careful and thorough consideration of the whole subject. The board, in its report, says: "There will still be needed the hearty co-operation of the private industries of the country. This cannot be aroused unless there is held out to them a fair prospect of remuneration. * * * This can only be done by a permanent and liberal appropriation by Congress for the specific purpose of providing the country with modern artillery, which appropriation shall be a guaranty against loss to the companies who elect to undertake the work. This is entirely consistent with the action of Congress in providing for the supply of arms for the militia. The act authorizing this practice was passed in 1808, and since that time the yearly disbursement has been made from the Treasury without interruption. A similar act, providing for the supply of heavy ordnance for the regular service, will be but a further development of the same idea."							
Total Fortifications and other Works of Defence						7,303,000 00	*680,000 00

* \$20,000 was appropriated for "Machine-guns, 1885," not asked in 1886; making the total amount appropriated for fortifications and other works of defence, 1885, \$700,000.

[illegible]

Cadet barracks: Reflooring certain rooms and halls, painting wood-work and repairing same, door-locks, &c., scraping and kalsomining walls, and repairing piazza...	do.....				8,830 00		
NOTE.—An appropriation was obtained this fiscal year to refloor portions of the cadet barracks. It is now proposed to complete the reflooring of the entire building. The walls of the rooms in this building have been for years annually whitewashed; the whitewash is now so thick on the walls as to render them unsightly. It is desirable to have this removed and kalsomine substituted. The wood-work throughout the barracks needs repairs. The piazza, beams, flooring, &c., are in a very bad condition. The piazza itself has fallen away from the main building several inches.							
Alteration of library building for the accommodation of increased number of books now on hand.....	do.....				9,833 25		
Alteration and repairs to old cadet hospital	do.....				3,000 00		
NOTE.—Officers are now quartered in this building. To make it suitable for such quarters, the amount asked for is necessary.							
Pointing new cadet hospital.....	do.....				1,150 00		
Pointing administration building	do.....				790 00		
Pointing portion of cadet barracks	do.....				300 00		
Relining parapets of cadet barracks with galvanized iron ..	do.....				500 00		
NOTE.—The new cadet hospital and administration building have never been pointed. In places in these buildings the water has worked its way through the joints of the stone-work. Especially is this the case with the cadet barracks, where, in places, in consequence of the fire in 1871, and from other causes, the mortar has entirely disappeared. All the parapets of the cadet barracks have been lined except those in four divisions. This lining is a protection to the building against the entrance of water through the joints where the parapets connect with roof.							

*\$6,500 was appropriated for "Elevator, building 17th and F streets, 1885," making the aggregate appropriations for public buildings and grounds in Washington, 1885, \$458,750.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. One new set of quarters for a married officer	Submitted.....				\$7,000 00		
NOTE.—Since the passage of the law requiring officers to serve four years before being ordered to duty at the Military Academy, the number of unmarried officers available for this duty has been greatly decreased.							
Water-works: Renewal of material in filter-beds, improving ventilation of filter-house, and hose for use in cleaning filter-bed and water-house, and for use in fire-service at same; tools, implements, and material for the use of the two keepers, and for repair of siphon-house, filter-house, and of four and one-half miles of supply-pipes; for shed for tools, and storage of fuel for keeper at Round Pond, and for tool-house at filter; for gauges at Round Pond and at Delafield Pond, and stairs for access to same.....	Mar. 31, 1884	23	9	1	520 00		
Additional bath-tubs and repairs to bath-tubs in cadet barracks; completion of the setting, casing, partitioning off, and concreting around twenty bath-tubs for use of the cadetsdo.....				1,000 00		
NOTE.—\$3,000 was asked for last year for setting up twenty additional bath-tubs for the cadets. Only \$2,000, however, was appropriated, which is inadequate to complete satisfactory bathing arrangements for the corps, now over three hundred strong. The additional amount of \$1,000 is necessary to properly complete the work.							
Band barracks, viz: Floor-timbers, flooring and plastering basement of; concreting area; stairs from basement; porches, with stairs to back yard; water and drain pipes, and repairs.....	Submitted.....				3,857 14		
NOTE.—The amount asked for is necessary to complete the basement of the building and for repairs to prevent its deterioration. An amount greater than that asked for was available at the time the building was erected, but, not being used in the fiscal year for which it was appropriated, it reverted to the Treasury.							
Erection of a gymnasium for cadets.....do.....				10,103 46		
Barracks for the detachment of cavalry.....do.....				12,500 00		
Quartermaster's warehouse.....do.....				8,537 43		
NOTE.—The present warehouses are frame structures, and are in the last stages of decay, and are wholly unsuited for the purposes for which they were built. Should a fire break out in any one of them, all would most likely be destroyed, and much valuable Government property would be lost.							
Addition to the present building containing water-closets for the use of cadets, so as to permit twelve new closets and six new urinals to be set up.....do.....				1,700 00		
NOTE.—The water-closets and urinals now in use are not sufficient for the use of the cadets. Even before the number of cadets was increased, inconvenience resulted from the want of a sufficient number of water-closets and urinals.							
Erection of a new ice-cooler, or refrigerator, for the cadet mess, to be immediately availabledo.....				300 00		
NOTE.—The present cooler is situated very near the range, the heat from which causes a rapid wasting of the ice.							
Total Military Academy.....						\$74,257 28	\$16,880 00
MISCELLANEOUS.							
Library and Offices for Artillery School, Fort Monroe, Va.—							
Construction of a fire-proof building for the accommodation of the artillery-school library, and the offices of the commanding officer, adjutant, quartermaster, commissary of subsistence, and post ordnance officer.....	Submitted.....					\$30,000 00	
NOTE.—Section 1136, Revised Statutes, declares "that permanent barracks or quarters, and buildings and structures of a permanent nature, shall not be constructed unless detailed estimates shall have been previously submitted to Congress and approved by a special appropriation for the same, except when constructed by the troops, and no such structures the cost of which shall exceed \$20,000 shall be erected unless by special authority of Congress." The necessity for the building is fully set forth in Senate Ex. Doc. No. 2, 46th Cong., 3d sess.							
Buildings at Military Posts—							
Construction of buildings at the following-named military posts:							
Fort Niagara, N. Y.: Construction of buildings, (House {	Appropriated..	23	217	1	30,000 00		
Ex. Doc. 45, 46th Cong., 2d sess.)	Submitted.....						
Fort Bliss, Tex.: Continuing operations.....do.....				30,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
Buildings at Military Posts—Continued.							
Atlanta, Ga.: Construction of new post, (see report of the General of the Army of 1882, page 14; also, Book of Estimates, 1883-'84, page 155).....	Submitted.....				\$100,000 00		
Land for site for same.....	do.....				15,000 00		
Fort Adams, R. I.: For construction of four company posts.....	do.....				80,000 00		
Little Rock barracks, Ark.: For construction of stable, gun-shed, and shops.....	do.....				8,226 09		
David's Island, New York harbor: For construction of buildings, (Senate Ex. Doc. 49, 46th Cong., 2d sess.)....	do.....				75,000 00

Vancouver barracks, Wash. Ter.: For construction of buildings for headquarters, for officers' quarters, and for barracks.....	do.....				205,381 74		
					1,343,605 75		
Reduction by Secretary of War.....					343,605 75		
						\$1,000,000 00	\$200,000 00
Army and Navy Hospital, Hot Springs, Ark.—							
For labor and material to put the hospital in a thorough state of completion, as indicated by the architect, but not included in the present contract.....	Appropriated..	23	221	1	} 21,600 00		
	Submitted.....						
For labor and material for grading, enclosing, and improving grounds of the hospital.....	do.....				27,200 00		
For heating the bath-house at the hospital, including valves, pipes, fittings, and labor.....	do.....				2,500 00		
NOTE.—Under the original plans and specifications submitted by the architect, no provision is made for heating the bath and pool rooms. This estimate is submitted to remedy the defect. A temperature of 85° or 90° must be maintained for eight or ten months in the year.							
For furnishing the hospital, including furniture for rooms for patients, (officers,) and of wards for enlisted men, necessary bedding, hospital clothing, and miscellaneous articles.....	do.....				16,500 00		
For erection of one set of quarters for medical officer.....	do.....				9,000 00	76,800 00	8,000 00
NOTE.—No adequate provision is made in the plans of the hospital for resident medical officer. The report of the Surgeon-General, dated October 3, 1884, submitting the detailed estimates, will be found in Appendix "C."							
Total Miscellaneous.....						1,106,800 00	*208,000 00
HARBORS AND RIVERS.							
Examinations and Surveys at South Pass, Mississippi River—							
Annual expense of ascertaining the depth of water and width of channel secured and maintained from time to time by James B. Eads at South Pass of the Mississippi river, and to enable the Secretary of War to report to Congress during the maintenance of the work, as required by the act of March 3, 1875, (18 Stat., 366).....	July 5, 1884	23	146	1		\$17,400 00	\$10,000 00

*In addition to the amount, \$208,000, appropriated for buildings at military posts and for the Army and Navy hospital, the following amounts, for quartermasters' depot, Philadelphia, Pa., 1885, \$20,000, and Army depot building, St. Paul, Minn., 1885, \$15,000, were appropriated, making the aggregate appropriated under "Miscellaneous," 1885, \$243,000.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.

ENGRAVING AND PRINTING.							
Labor and Expenses of Engraving and Printing— Labor and expenses of engraving and printing, namely: For labor, (by the year, day, or piece,) including labor of workmen skilled in engraving, transferring, plate-printing, and other specialties necessary for carrying on the work of engraving and printing United States notes, certificates of deposit for United States notes, certificates of deposit for silver dollars, certificates of deposit for gold coin, and registered bonds for transfers, the pay for such labor to be fixed by the Secretary of the Treasury at rates not exceeding the rates usually paid for such work; and for other expenses of engraving and printing said securities of the United States; for materials other than distinctive paper required in the work of engraving and printing; for the purchase of engravers' tools, dies, rolls, and plates; for machinery and repairs to the same; and for expenses of operating macerating-machines at the Bureau of Engraving and Printing for the destruction of the United States notes, bonds, and other obligations of the United States authorized to be destroyed	R. S.	706	3575-7	}	\$425,000 00	*\$475,700 00
Appropriated..		23	199	1			
NOTE.—The estimate under the head of "Engraving and printing" for the current fiscal year called for \$425,000 for engraving, printing, and finishing United States notes, gold and silver certificates, registered bonds for transfer, and expenses of operating the macerators. The amount appropriated under that head, act July 7, 1884, was \$475,700, which was made to include additional items, to wit, for work on national-bank notes, \$110,000, and for work on certificates of letters-patent, \$700, with only \$365,000 for United States notes, gold and silver certificates, registered bonds for transfer, and expenses of operating macerators, or \$60,000 less than estimate, and a sum inadequate to meet the requirement of the Treasurer U. S., which is 8,000,000 sheets of notes and certificates, only a portion of which can be furnished with the amount appropriated. For the fiscal year now estimated for, the full amount, \$425,000, is absolutely necessary to meet the requirements of the Treasurer in order to bring up and maintain a sufficient reserve of United States notes and certificates of deposit to answer the demands on his office and avoid the objectionable use of freshly-printed notes.							
LIGHT-HOUSE ESTABLISHMENT.							
Supplies of Light-Houses— Supplying the light-houses, beacon-lights, and fog-signals on the Atlantic, Gulf, Lake, and Pacific coasts with illuminating and cleansing materials, and such other materials as may be required for annual consumption, including the expenses of inspection and delivery of the same; for books and furniture for stations and other incidental and necessary expenses.....	Appropriated..	23	200	1	\$375,000 00	\$350,000 00
Repairs and Incidental Expenses of Light-Houses— Repairs and incidental expenses of light-houses and stations, for rebuilding, renovating, and improving the same, and buildings connected therewith; for the establishing and repairing of pier-head lights; and for the purchase and repair of illuminating apparatus and machinery.....	Appropriated..	23	200	1	310,000 00	310,000 00
Salaries of Keepers of Light-Houses— Salaries, fuel, rations, rent of quarters where necessary, and similar incidental expenses of one thousand and fifteen light-keepers and fog-signal keepers.....	Appropriated..	R. S.	908	4673	}	585,000 00	585,000 00
		23	200	1			
Expenses of Light-Vessels— Seamen's wages, rations, repairs, salaries, supplies, and incidental expenses of thirty light-ships.....	Appropriated..	23	200	1	240,000 00	230,000 00

* Includes \$110,000 for work on national-bank notes, and \$700 for work on certificates of letters-patent, appropriated for 1885 under the head of "Engraving and printing."

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Expenses of Buoyage—</i> Expenses of raising, cleaning, painting, repairing, removing, and supplying losses of buoys, spindles, and day-beacons, and for the maintenance of whistling buoys and bell buoys, and for chains, sinkers, and similar necessities.....	Appropriated..	23	200	1	\$345,000 00	\$325,000 00
<i>Expenses of Fog-Signals—</i> Establishing, renewing, duplicating, and improving fog-signals and buildings connected therewith, and for repairs and incidental expenses of the same.....	Appropriated..	23	200	1	70,000 00	35,000 00

Miscellaneous expenses, District offices and markets: Fuel, ice, gas, repairs, insurance, and general necessary expenses of District offices and markets.....	do.....					\$65,490 00	\$64,750 00
NOTE.—The foregoing estimates omit the item of \$3,000 for salary of the surveyor of the District of Columbia, and the provision requiring the surveyor to furnish his own assistant for field-work, and to pay all fees authorized by law to the collector, which are contained in the estimates of the Commissioners for the engineer's office. The law prescribes the fees to be received by the surveyor for the performance of his duties, and the act of Congress of June 20, 1874, (18 Stat., 117, sec. 3,) prohibits the payment of any salary or compensation to him, or any of his subordinates, except such fees for special services as are allowed by law. If the appropriation should be made and the provision become a law, the United States would have to pay one-half of the surveyor's salary, and would also be required to appropriate an additional sum equal to the amount of fees collected. A similar change was proposed by the Commissioners in their estimates of last year, but Congress refused to approve it. In the absence of any explanation as to why the change is again proposed, and in view of the action of Congress, this Department cannot recommend the approval of this item and provision. It is recommended that the Commissioners be required to specify particularly what officers and employes shall be furnished with horses and vehicles at the public expense.							
<i>Improvements and Repairs—</i>							
Repairs to concrete pavements..... {	June 11, 1878	20	104	3	50,000 00		
	July 5, 1884	23	125	1

Constructing, Repairing, and Maintaining Bridges—							
Ordinary care of Anacostia, Benning's, and Chain bridges, including fuel, oil, lamps, matches, &c.....	June 11, 1878	20	104	3	\$2,000 00		
Replanking and repainting Anacostia bridge.....	July 5, 1884	23	125	1			
Two draw-keepers at Anacostia and Benning's bridges, at \$720 each.....	June 11, 1878	20	104	3	5,500 00		
One bridge-keeper at Chain bridge.....	July 7, 1884	23	182	1			
Repairing and maintaining bridges under the control of the Commissioners of the District of Columbia.....	June 11, 1878	20	104	3	660 00		
	July 5, 1884	23	125	1			
						\$15,600 00	\$2,500 00
<p>NOTE.—The items contained herein for replanking and repainting Anacostia bridge, and for draw-keepers and bridge-keeper at Anacostia, Benning's, and Chain bridges are not in the estimates of the Commissioners. The act of July 11, 1878, providing a permanent form of government for the District of Columbia requires the Commissioners' estimates to show in detail the cost of constructing, repairing, and maintaining all bridges authorized by law across the Potomac river within the District of Columbia, and also all other streams in said District, (20 Stat., 104.)</p> <p>The items added are a part of the cost of maintaining and repairing the bridges referred to, and should have been heretofore included in the District estimates. They are based on the estimates of the War Department authorities, who have control and supervision of said bridges. The item of \$6,000 in the estimates of the Commissioners for repairing and maintaining bridges under their control is largely in excess of the usual estimate and appropriation for that purpose, but no explanation is furnished as to the increase, nor does the estimate contain such a detailed statement as the law requires. It is submitted to the attention of Congress for such action as may be deemed advisable.</p>							
Washington Aqueduct—							
Engineering, maintenance, and repairs, and construction of an overflow at the receiving-reservoir.....	June 11, 1878	20	104	3		22,000 00	20,000 00
	July 5, 1884	23	125	1			
<p>NOTE.—This item is the same as the estimate of the War Department, and is \$2,000 in excess of the Commissioners' estimates. The increase is the estimated cost of constructing an overflow at the receiving reservoir.</p>							
Maintaining Institutions of Charity, Reformatories, and Prisons—							
Washington Asylum:

<i>Buildings for schools:</i>							
Purchase of sites, and the erection and completion of new buildings, and for furniture for new school-buildings.....	do.....					60,000 00	69,500 00
<p>NOTE.—The estimate of the Commissioners for expenses of public schools does not contain such "an itemized statement and estimate" as the act of June 11, 1878, (20 Stat., 104,) seems to require. The number of teachers or janitors is not shown, nor is there any information furnished as to the salaries it is intended to pay.</p> <p>The estimate for new buildings does not show how many buildings it is proposed to erect, where they are to be located, or the cost of each.</p> <p>The law requires that the money appropriated each year for school purposes shall be divided between the white and colored schools in the proportion that the number of white children in the District between the ages of six and seventeen years bears to the number of colored children between those ages, (sections 281 and 306, Revised Statutes, D. C.)</p> <p>The Department has asked, in connection with the settlement of the Commissioners' accounts, for statements showing the amount to which each class of schools was entitled, and the expenditures on behalf of each; but no such statements have been furnished.</p> <p>It is suggested that so long as the present law remains in force it would be better if the estimates and appropriations should show the amount to be expended for each class of schools.</p>							
<i>Miscellaneous Expenses—</i>							
Repairs and replacement of public hay-scales..... {	June 11, 1878	20	104	3	500 00

UNDER THE WAR DEPARTMENT.							
SIGNAL SERVICE.							
<i>Observation and Report of Storms—</i>							
Expenses of meteorological observations and reports by telegraph, signal, or otherwise, announcing the probable approach and force of storms, for the benefit of the commerce and agriculture of the United States, as follows:							
For the manufacture, purchase, and repair of instruments.....	{ Feb. 9, 1870 Appropriated..	R. S. 16 23	36 369 217	221-3 1 1	} \$23, 148 00		
NOTE.—An increase of \$3,148 is submitted, to supply regular needs of this service; an increase of \$6,000 for the purchase of the necessary instruments and apparatus, and expenses incidental thereto, for the better study and investigation of thermometer, barometer, and hygrometer exposures, anemometer comparisons, atmospheric electricity, earth temperatures, solar radiation, rain-band spectroscopy, and sky observations. A further increase of \$3,500 is also submitted for the purpose of establishing and re-establishing and supplying with complete outfits of instruments, the following-named stations: Santa Fé, N. Mex.; Winnemucca, Nev.; Springfield, Mo.; Eagle Pass, Tex.; San Antonio, Tex.; Abilene, Tex.; Starkville, Miss.; Madison, Wis.; Burlington, Vt.; Grand Junction, Colo.; Independence, Cal.; Milford, or Frisco, Utah; San Luis Obispo, Cal.; Concordia, Kans.; Valentine, Nebr.; Rawlins, Wyo.; Lansing, Mich.; Harrisburg, Pa.; Sayre, Pa.; Owego, or Elmira, N. Y.; Raleigh, N. C.; Walla Walla, Wash., and National Park, making a total increase submitted of \$17,648.							
Telegraphic reports and messages over commercial lines, and for the rent of leased lines, extra night-services of operators, necessary for tri-daily indications.....	Same acts					166, 000 00	
NOTE.—An increase of \$25,000 is submitted to provide for the additional cost upon the establishing and re-establishing of the following-named stations: Santa Fé, N. Mex.; Winnemucca, Nev.; Springfield, Mo.; Eagle Pass, Tex.; San Antonio, Tex.; Abilene, Tex.; Starkville, Miss.; Madison, Wis.; Burlington, Vt.; Grand Junction, Colo.; Independence, Cal.; San Luis Obispo, Cal.; Milford, or Frisco, Utah; Concordia, Kans.; Valentine, Nebr.; Rawlins, Wyo.; Lansing, Mich.; Harrisburg, Pa.; Sayre, Pa.; Owego, or Elmira, N. Y.; Raleigh, N. C.; Walla Walla, Wash., and National Park. A further increase of \$5,000 is submitted, to provide for the reports from the West India stations, making a total increase submitted of \$30,000.							
Expenses of storm, cautionary, off-shore, and other signals on the sea and lake coasts of the United States, announcing the probable approach and force of storms, including pay of observers, services of operators, (where not otherwise provided for,) lanterns, flags, &c.....	do.....					13, 000 00	
NOTE.—An increase of \$3,000 is submitted, as the appropriation for the present fiscal year ending June 30, 1885, is deemed insufficient for the needs of this branch of the service, and the increased amount asked for is to be used for the purchase of a better class of lantern, to replace those at the more important stations rendered unfit for service, and also to replace with new flags those worn-out.							
Continuing the connection of signal-stations at life-saving stations and light-houses, including services of operators, repair-men, materials, (such as cable, wire poles, insulators, &c.), and general service.....	do.....					38, 950 00	
NOTE.—An increase of \$33,450 is submitted for the purchase of new cables, poles, insulators, brackets, and instruments, to replace old, rotten, and broken ones. The estimate is made up as follows: 2,298 yards cable for Barnegat inlet..... \$1, 100 1½ miles cable for Hatteras inlet..... 1, 000 400 yards cable for Heady's Bay inlet..... 200 400 yards cable for New River inlet..... 200 200 yards cable for Sloop Point inlet..... 100 11¼ miles cable for Block Island inlet..... 18, 350 225 miles No. 9 galvanized-iron wire..... 5, 500 100 miles new poles..... 3, 000 Insulators, brackets, spikes, &c..... 500 Maintenance of Nantucket line..... 2, 000 Services of operators, repair-men, &c..... 7, 000 Total..... 38, 950							
Manufacture, purchase, and repair of instrument-shelters.....	do.....					4, 000 00	
NOTE.—An increase of \$2,000 is submitted for the purpose of supplying the twenty-two stations, for which estimate has been submitted for establishing and re-establishing.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Observation and Report of Storms—Continued.</i>							
Rents, hire of civilian employes, furniture, light, heating supplies, stationery, ice, repairs, and other expenses of offices maintained for public use in cities and ports receiving reports outside of Washington, D. C. } Feb. 9, 1870 Appropriated..	R. S. 16 23	36 369 217	221-3 1 1	} \$55,700 00		
<p>NOTE.—An increase of \$5,500 is submitted, to supply a better service for the present number of stations, and \$10,200 to provide for the establishing and re-establishing and maintaining of the following-named stations: Santa Fé, N. Mex.; Winnemucca, Nev.; Springfield, Mo.; Eagle Pass, Tex.; San Antonio, Tex.; Abilene, Tex.; Starkville, Miss.; Madison, Wis.; Burlington, Vt.; Grand Junction, Colo.; Independence, Cal.; Milford, or Frisco, Utah; San Luis Obispo, Cal.; Concordia, Kans.; Valentine, Nebr.; Rawlins, Wyo.; Lansing, Mich.; Harrisburg, Pa.; Sayre, Pa.; Owego, or Elmira, N. Y.; Raleigh, N. C.; Walla Walla, Wash.; National Park—a total increase of \$15,700.</p>							
Expenses incident to the copying of synchronous international meteorological observations, to be used in connection with the publications of this office, and for observations in the West Indies for especial use in the announcement of hurricanes on the Atlantic and Gulf coasts of the United States.....	Submitted.....				7,000 00		
<p>NOTE.—This estimate was submitted for the fiscal year ending June 30, 1885, but no appropriation was made therefor, and the Chief Signal Officer desires to call particular attention to the fact that the accuracy of predictions of storms depends very considerably upon a knowledge of contemporaneous international meteorological phenomena, and desires to urge that this estimate may be favorably considered, as the service has been under much embarrassment in its study and predictions of storms during the period since these observations (for want of necessary appropriation to continue them) were suspended.</p>							
River and flood observations, and expenses incidental thereto.....	Appropriated..	23	217	1	10,000 00		
For expenses (including paper, forms, printing supplies, hire of civilian printers, engravers, &c.) of preparing, printing, and distributing maps, bulletins, &c., to be displayed in chambers of commerce and boards of trade rooms and for distribution.....do.....				47,630 00		
<p>NOTE.—An increase of \$22,630 is submitted to cover the hiring of civilian printers, the purchase of absolutely necessary manifold forms, and for the purchase of a lithograph-press, two printing-presses, paper-cutter, and type, to replace old and worn-out articles, the type having been in constant use for five years and the presses twelve years, and of 100 weather-maps, large, to replace those worn-out by a constant use of fourteen years.</p> <p>In this connection, I desire to say that, as this appropriation furnishes the means by which the investigations of this service are presented to the public, a cutting off of the amount estimated for, which is based upon experience and actual needs, will entail not only embarrassment, but oftentimes complete failure in the dissemination of such information as the public demands from this service.</p> <p>This estimate is in addition to that submitted for printing and binding under the War Department, and is for the printing at the office of the Chief Signal Officer and at various stations throughout the service, and is of such a character (maps and bulletins of the weather, which must reach the public as soon as possible to be of any value) that it is impracticable to have the work done at the Public Printing Office, owing to the delay which would be thereby occasioned.</p>							
Observations and expenses incidental thereto, announcing the probable approach and severity of frosts, for the benefit of the cotton-belt region of the United States.....do.....				10,000 00		
<p>NOTE.—An increase of \$3,000 is submitted for the purpose of maintaining the present number of stations on an efficient basis, as shown in detail hereunder:</p> <p>Pay of operators, handling 30,270 reports, at 5 cents per report..... \$1,513 50</p> <p>Expenses of delivering reports..... 300 00</p> <p>1 operator, at \$6 per month, for 12 months..... 72 00</p> <p>151 observers, taking 214 observations each, a total of 32,314 observations, at 25 cents each..... 8,078 50</p> <p>1 operator, at \$3 per month, for 12 months..... 36 00</p> <p style="text-align: right;">10,000 00</p>							
Expenses of collection and collation of meteorological observations made by ship-masters and ship-captains, for the more complete study of storms, with a view to the accurate prediction of their frequency, periodicity, and direction	Submitted.....				2,000 00		
<p>NOTE.—This estimate is submitted for the purpose of securing certain data of a meteorological character necessary in the prosecution of a thorough study of the subject, which data are now obtained, if at all, in an irregular manner. To systematize the collection of this information, and utilize it to the best advantage when obtained, is the object of this estimate.</p>							
						\$377,428 00	\$241,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.

<i>Construction, Maintenance, and Repair of Military-Telegraph Lines—</i>							
Construction of a military-telegraph line for the connection of the military posts of Fort Robinson, Nebr., with Fort Laramie, Wyo., for the better protection of immigration and the frontier settlements from depredations.....	Submitted.....				\$6,000 00		
Maintenance and repair of military-telegraph lines, including rents of office, salaries of civilian operators and repair-men, lights, supplies, and general repairs.....	Appropriated..	23	217	1	35,000 00	\$41,000 00	\$24,000 00
NOTE.—The increase of \$17,000 is made up as follows: \$6,000 is for the construction of a new line from Fort Robinson to Fort Laramie, especially urged by the department commanders, and \$11,000 is to restore the appropriation for maintenance to the amount appropriated for a series of years past, and which amount is found to be necessary to maintain the present lines under the control of this office in good condition.							
<i>Signal-Service Pay—</i>							
One Brigadier-General.....	July 7, 1884	R. S. 23	220 218	1261 1	5,500 00		
Sixteen second lieutenants, mounted.....	Same acts.....				24,000 00		
NOTE.—An increase of two lieutenants is made, as allowed by the sundry civil act approved June 20, 1878, necessitating an increase of three thousand dollars in the estimate.							
Longevity pay to the officers of the Signal Corps, to be paid with current monthly pay.....	June 18, 1878 Feb. 24, 1881 July 7, 1884	R. S. 20 21 23	220 150 346 218	1262, 3 7 1 1	4,250 00		
One hundred and fifty sergeants, Signal Corps.....	June 20, 1878 June 23, 1879 June 16, 1880 July 7, 1884	20 21 21 23	219 30 267 218	1 1 1 1	69,600 00		
NOTE.—An increase of \$8,400 is submitted, and it is requested that a proviso be inserted in the appropriation act dividing the 150 sergeants of the Signal Corps into three classes, fixing their pay proper as follows: 25 sergeants, Signal Corps, (first class,) at \$50 per month; 50 sergeants, Signal Corps, (second class,) at \$40 per month; 75 sergeants, Signal Corps, (third class,) at \$34 per month.							
Thirty corporals, Signal Corps.....	Same acts.....				7,200 00		
Three hundred and five privates, first class, Signal Corps..	do.....				62,220 00		
Fifteen privates, second class, Signal Corps.....	do.....				2,340 00		
Pay to enlisted men for length of service.....	July 7, 1884	R. S. 23	222 218	1284 1	18,481 10		
Retained pay, payable on discharge.....	July 7, 1884	R. S. 23	222 218	1282 1	8,118 00		
Pay for clothing not drawn, payable on discharge.....	July 7, 1884	R. S. 23	224 218	1302 1	25,853 30		
Travel allowances, payable on discharge.....	July 7, 1884	R. S. 23	223 218	1290 1	6,339 11		
Mileage to officers when travelling on duty under orders..	July 24, 1876 June 30, 1882 July 7, 1884	19 22 23	100 118 218	2 1 1	5,000 00		
Pay of contract-surgeon.....	July 7, 1884	23	218	1	1,200 00		
Commutation of quarters to commissioned officers at places where there are no public quarters.....	June 18, 1878 June 23, 1879 June 30, 1882 July 7, 1884	20 21 22 23	151 31 118	9 1 1	7,200 00		
NOTE.—This includes the six officers detailed from the Army for duty with the Signal Corps.						247,301 51	245,158 00
<i>Signal Service, Subsistence—</i>							
Subsistence stores, rations in kind for enlisted men and for sales to officers and enlisted men of the Signal Service, as follows:							
Subsistence stores to forty enlisted men of the Signal Corps for 365 days, at 25 cents per day per man.....	Appropriated..	23	218	1	3,650 00		
Subsistence stores, authorized articles, for sales to officers and enlisted men and company messes, as allowed by par. 2199, Army Regulations, 1881, (see note at end of estimate).....	do.....				10,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Signal Service, Subsistence—Continued.</i>							
Commutation of rations to enlisted men of the Signal Corps when at stations, as follows:							
Four hundred and sixty men at office of the Chief Signal Officer and on duty at signal-stations throughout the United States, for 365 days, at \$1 per man per day	Appropriated..				\$167,900 00		
NOTE. —Heretofore the rates for commutation of rations have been \$1 per man per day at the office of the Chief Signal Officer and certain specially designated stations, and 75 cents per man per day at all others. In order to equalize this allowance to all men alike, for the reason that experience has demonstrated that, as a rule, the cost of living is about the same at all places where stations of observation are located, (investigation extended no further,) and \$1 per man per day seems to be the minimum price at which board can be obtained, an increase of \$17,586.35 is therefore submitted, and the Chief Signal Officer desires to urge this, as he considers the allowance of \$1 per day for all men to be absolutely necessary. There should be no difference in the pay of the men of the Corps, whether on station or at this office, except that caused by rank or length of service, and, as the exigencies of the service frequently require men to be ordered from this office or high-rate stations to low-rate stations, the difference in the pay thus caused operates as a hardship which was not intended by the transfer, leading to discontent, and it is the object of this estimate to overcome this feature, as well as for the reasons already adduced.							
Commutation of rations to ten enlisted men per day while travelling, as follows:							
NOTE. —Of the ten men per day travelling, it is estimated that one will be of the class receiving rations in kind, and nine of the class receiving commutation of rations at \$1 per day.							
Difference between cost of rations, at 25 cents per day, (above estimated for,) and commutation, at \$1.50 per day, allowed to an average of one enlisted man of the Signal Corps per day, travelling under orders, when it is impracticable to carry cooked rations, say one man for 365 days, at \$1.25 per day.....	do.....				456 25		
Difference between commutation of rations, at \$1 per day, (above estimated for,) and commutation, at \$1.50 per day, allowed to an average of nine enlisted men of the Signal Corps per day, travelling under orders, when it is impracticable to carry cooked rations, say nine men for 365 days, at 50 cents per day.....	do.....				1,642 50		
From the aggregate of the foregoing estimate should be deducted the amount that will be collected during the fiscal year by the Subsistence Department under the act approved July 5, 1884, (Public No. 90, page 3,) and which amount will be taken up under the appropriation of that department for immediate disbursement for fresh supplies.....					183,648 75		
					10,000 00		
						\$173,648 75	\$155,000 00
<i>Signal Service, Regular Supplies—</i>							
Fuel, authorized allowance for enlisted men at Fort Myer, Virginia, and for various offices at Fort Myer, Virginia, and on United States military-telegraph lines, and for issue of the regulation allowance to officers at Fort Myer, Virginia, Washington, D. C., and on United States military-telegraph lines.....	Appropriated..	23	218	1	9,146 00		
NOTE. —The sum of \$1,323 will be collected during the fiscal year by the Quartermaster's Department from the various officers purchasing fuel, as allowed by paragraph 1851, Army Regulations, 1881, say 441 cords of wood, at \$3 per cord.							
Commutation of fuel for 460 men of the Signal Corps, on duty at office of the Chief Signal Officer and at signal-stations throughout the United States, at \$9 per man per month.....	do.....				49,680 00		
NOTE. —Heretofore the rates for commutation of fuel have been \$9 per man per month at the office of the Chief Signal Officer and certain specially-designated stations, and \$8 per man per month at all others. In order to equalize this allowance to all men alike, for the reason that experience has demonstrated that, as a rule, the cost of living is about the same at all places, an increase of \$2,592 is therefore submitted, and the Chief Signal Officer desires to urge this, as he considers that there should be no difference in the pay of the men of the Corps, except that caused by rank or length of service, and, as the exigencies of the service frequently require men to be ordered from this office or high-rate stations to low-rate stations, the difference in the pay thus caused operates as a hardship which was not intended by the transfer, leading to discontent, and it is the object of this estimate to overcome this feature, as well as for the reasons already adduced.							
Forage (regulation allowance as per par. 1886, Army Regulations, 1881) for six horses, at \$115 each per annum.....	do.....				690 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.

<i>Signal Service, Barracks and Quarters—Continued.</i>							
Work and supplies at Fort Myer, Virginia.....	Appropriated..				\$2,000 00		
NOTE.—An increase of \$500 submitted.							
For building an addition to the instruction building for recitation and lecture-rooms at post of Fort Myer, Virginia	Submitted ..				1,724 69	\$119,644 69	\$85,908 00
<i>Signal Service, Clothing, Camp and Garrison Equipage—</i>							
Purchase of the necessary axes, flags, halyards, brooms, and brushes for post of Fort Myer, Virginia	Submitted.....				73 89		
Clothing issues in kind, say complete outfits for sixty-four men of the Signal Corps, at an average of \$65.70 per man per annum, and the purchase of other articles of clothing necessary for issue.....	Appropriated..	23	218	1	8,910 30	8,984 19	5,315 80
<i>Signal Service, Medical Department—</i>							
Medical attendance and medicines for officers and enlisted men of the Signal Corps.....	Appropriated..	23	218	1	5,000 00		
Medical attendance and medicines for officers doing duty in connection with the Signal Service	do.....				100 00		
For medical and hospital supplies at Fort Myer, Virginia.....	do.....				700 00		
For medicines furnished to officers and enlisted men from purveying depots and Army dispensaries	do.....				1,000 00		
For work and supplies at Fort Myer, Virginia, on hospital account.....	do.....				500 00	7,300 00	7,000 00
<i>Signal Service, Ordnance Stores—</i>							
For ammunition for authorized purposes at post of Fort Myer, Virginia	Appropriated..	22	319	1	300 00		
For materials for preservation and care of ordnance and ordnance stores at post of Fort Myer, Virginia.....					150 00		
For necessary ordnance stores, ammunition, &c., for use of the Signal Corps, U. S. Army.....	Submitted.....				2,000 00	2,450 00	
NOTE.—The sum of \$2,450 was estimated for the fiscal year ending June 30, 1885, but nothing was appropriated, and yet Fort Myer, Virginia, is maintained as a regular military post, and stored there are valuable ordnance and ordnance stores, which, without an appropriation for their preservation and care, will soon be rendered unfit for use; besides, on the isolated stations of this service, especially on the frontier, the lives of the enlisted men are in jeopardy and Government property at the mercy of lawless persons unless such men are supplied with necessary means of protecting the same. This estimate is therefore again submitted, and, after the reasons given, it is hoped it will be favorably considered.							
Total of above estimates for the Signal Service.....						1,088,249 84	*858,357 88
NOTE.—The foregoing estimates for the Signal Service amount to.....						\$1,088,249 84	
The other estimates submitted for the Signal Service will be found as follows:

NATIONAL CEMETRIES.							
<i>National Cemeteries—</i>							
Maintaining and improving national cemeteries, including fuel for superintendents of national cemeteries, forage for horses and mules, pay of laborers, purchase of tools, &c.....	July 7, 1884	R. S. 23	943 219	4870 4879 1		\$110,000 00	\$100,000 00
NOTE.—The amount asked is \$10,000 more than the estimate for 1885. The additional sum will be needed to cover the increased expenses of maintaining the public animals, and means of transportation required for repairing roads and other work at the cemeteries. This expenditure grows out of the necessity of keeping in repair the increased number of roads and easy means of access to the cemeteries prescribed by the acts of Congress.							

*Appropriated for "Establishing signal-stations on Island of Nantucket, 1885," not asked in 1886, \$20,000, which makes the total appropriated for the Signal Service under "Miscellaneous" \$878,357.88.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

<i>Pay of Superintendents of National Cemeteries—</i> Pay of seventy-three superintendents of national cemeteries.....	July 7, 1884	R. S. 23	943 219	4873 1	\$60, 440 00	\$60, 440 00
Total National Cemeteries						170, 440 00	*160, 440 00
MISCELLANEOUS OBJECTS.							
<i>Surveys and Reconnoissances in Military Divisions and Departments—</i> Military surveys and reconnoissances, and surveys of military reservations by the engineer officers attached to the several headquarters of military divisions and departments, being an average of \$5,000 for each of the eight military divisions and departments west of the Mississippi river.....	Submitted.....				\$40, 000 00		
Publication of maps for use of the War Department.....	Appropriated..	23	220	1	10, 000 00	\$50, 000 00	\$5, 000 00
<i>Survey of Northern and Northwestern Lakes—</i> Printing and issuing charts for use of navigators, and electrotyping copper-plates for chart-printing	Appropriated..	23	220	1	3, 000 00	3, 000 00
<i>Transportation of Reports and Maps to Foreign Countries—</i> Transportation of reports and maps to foreign countries, through the Smithsonian Institution	Appropriated..	23	220	1	200 00	300 00
<i>Mississippi River Commission—</i> Salaries and travelling expenses of Mississippi River Commission, and for salaries and travelling expenses of assistant engineers under them, and for office expenses and contingencies	Appropriated..	23	220	1	100, 000 00	75, 000 00
<i>Artificial Limbs—</i> Furnishing artificial limbs and appliances, or commutation therefor, and transportation, to be disbursed under the direction of the Surgeon-General of the Army.. Aug. 15, 1876 Appropriated..	R. S. 19 23	929 203 220	4787, 4791 1, 2 1	550, 000 00	100, 000 00
NOTE.—The act of August 15, 1876, provides that artificial limbs shall be issued once every five years. The fourth period of five years will begin June 17, 1885. It has been found that much the greater part are called for in the first year or first two years of each period. In 1871 and 1872 the cost was approximately \$619,440.19; in 1876 and 1877, \$500,460.95; and in 1881 and 1882, \$558,735.99. In the first of these periods almost the entire expenditure was in the first year; in the next, the greater part was in the second year. In 1881 it was \$447,786.78, and in 1882, \$110,949.21. The number of persons incapacitated for labor in consequence of injuries or exposure is at present on the increase.							
<i>Appliances for Disabled Soldiers—</i> Providing surgical appliances for persons disabled in the military or naval service of the United States, and not entitled to artificial limbs.....	Appropriated..	23	220	1	2, 000 00	2, 000 00
<i>Support of Transient Paupers—</i> Care, support, and medical treatment of seventy-five transient paupers, medical and surgical patients in the city of Washington.....	Appropriated..	23	220	1	15, 000 00	15, 000 00
<i>Maintenance of Army and Navy Hospital, Hot Springs, Ark.—</i> Means of transportation for use of the hospital, and maintenance of same for one year	Submitted.....				5, 430 00		
Hire of employes: Steward, apothecary, clerk, butler, cooks, ward-masters, nurses, engineer, laundresses, and all necessary service.....do.....				17, 280 00		
Medicines, hospital stores, dressings, instruments, &c.....do.....				1, 720 00		
Fuel, gas, ice, stationery, and other necessary expenses....do.....				13, 800 00		
						38, 230 00	
NOTE.—No provision has yet been made by Congress for the maintenance of the hospital.							
<i>Expenses of Military Convicts—</i> Payment of costs and charges of State penitentiaries for the care, clothing, maintenance, and medical attendance of United States military convicts confined in them..	Appropriated..	23	220	1	10, 000 00	10, 000 00
<i>Publication of Official Records of the War of the Rebellion—</i> Continuing the publication of the Official Records of the War of the Rebellion, and printing and binding, under the direction of the Secretary of War, of a compilation of the official records, Union and Confederate, so far as the same may be ready during the fiscal year, to be distributed as provided by act of July 7, 1884.....	Appropriated..	23	220	1	36, 000 00	36, 000 00

*In addition to \$160,440, appropriations were made for 1885 not asked for in 1886, as follows: Carson City Cemetery, Nevada, \$1,000; Fort Gratiot Cemetery, Michigan, \$3,000; Philadelphia National Cemetery, Pennsylvania, \$15,000; Cypress Hills National Cemetery, New York, \$15,000; road from Chattanooga to National Cemetery, Tennessee, \$2,500; road from Fort Scott to National Cemetery, Kansas, \$10,000; road from Springfield to National Cemetery, Missouri, \$20,000; making the aggregate appropriations for cemeteries and roads to cemeteries, 1885, \$227,540.

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. <i>Examination of State Claims under Act of June 27, 1882—</i>							
Payment of expenses of a board of three officers of the Army, to be detailed to assist the Secretary of War in examining and reporting upon the claims of the States and Territories named in the act of June 27, 1882, (chapter 241 of the Laws of the 47th Congress, 1st session,) while on such duty, including clerk-hire, hotel, travelling, and such other necessary expenses as shall be approved by the Secretary of War: <i>Provided</i> , That said officers shall, before proceeding to the discharge of said duties, be sworn that they will carefully examine said claims, and that they will, to the best of their ability, make a just, true, and impartial statement thereof, as required by said act; this amount to be immediately available.....	Submitted.....					25, 000 00	
NOTE.—Section 1 of the act of June 27, 1882, (22 Stat., 111, 112,) provides "that the Secretary of the Treasury is hereby authorized and directed, with the aid and assistance of the Secretary of War, to cause to be examined and investigated all the claims" mentioned in said act, while section 2 places upon the Secretary of War the whole duty of deciding as to the necessity of each and every expenditure charged for, and the rates which should be allowed therefor. This estimate is submitted to carry said legislation into effect, no means having been provided by Congress.

UNDER THE DEPARTMENT OF THE INTERIOR.							
PUBLIC LANDS.							
<i>Contingent Expenses, Office of Surveyor-General of Arizona—</i>							
Rent of office for surveyor-general, pay of messenger, fuel, books, stationery, and other incidental expenses..	Appropriated..	R. S. 23	391 209	2227 1	\$2, 500 00		
NOTE.—The estimate of \$2,500 is made to cover the expenses arising from an expected increase of public surveys and consequent necessity for a larger amount for the purchase of stationery, binding of field-notes, mounting plates, &c.							
<i>Contingent Expenses, Office of Surveyor-General of California—</i>							
Books, stationery, pay of messenger, and other incidental expenses.....	Appropriated..	R. S. 23	391 209	2227 1	4, 000 00		
<i>Contingent Expenses, Office of Surveyor-General of Colorado—</i>							
Rent of office for surveyor-general, fuel, books, stationery, and other incidental expenses.....	Appropriated..	R. S. 23	391 209	2227 1	3, 000 00		
NOTE.—The estimate of \$3,000 is made to cover the necessarily increased expenditures arising from the largely augmented amount of surveys whereby office expenses are greatly enhanced. In view of the fact that a large proportion of the annual appropriation is expended for rent of rooms used as offices, it is apparent that the amount submitted is not in excess of actual necessity.							

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes. COLLECTING THE REVENUE FROM PUBLIC LANDS.							
Salaries and Commissions of Registers and Receivers— Compensation of registers and receivers of local land offices, (see detailed statement following.)	July 7, 1884	R. S. 23	392 210	2237- 2240 1		\$545, 600 00	\$500, 000 00
<p>NOTE.—The estimate submitted for compensation of registers and receivers is based upon the salaries earned and fees and commissions collected and covered into the Treasury by them during the fiscal year ended June 30, 1884, with the addition of two offices to be opened at Glenwood Springs, Colo., and Cœur D'Alene, Idaho. For a number of years past it has been found necessary to appropriate annually large amounts to cover deficiencies in the appropriations for this service. The disposals of public lands have been yearly increasing. For the fiscal year ended June 30, 1884, the disposals were 165 per centum greater than they were during the year ended June 30, 1881; 91 per centum greater than during the fiscal year 1882; and 41 per centum greater than during the fiscal year 1883. This causes an increase in the fees and commissions earned by those officers in sparsely-settled districts, where the earnings have not heretofore reached the maximum allowed by law, but in no case does an officer receive compensation from the appropriation in excess of the maximum of \$3,000 prescribed by section 2240 of the Revised Statutes. In estimating for the compensation of officers who have not heretofore received the maximum, an increase of about four per centum upon their compensation for the fiscal year 1884 is included, to provide for any increase that may occur in the fiscal year 1886. In making this appropriation it should be remembered that every cent paid to a register or receiver, with the exception of their annual salary of \$500 each, aggregating nearly \$108,000, (there being 106 offices now in operation and two additional ordered to be opened,) and commissions allowed on all moneys received at each receiver's office in payment for lands, is collected by them from the entrymen and paid into the Treasury.</p>

		Vol. or R. S.	Page.	Sec.			
<i>Depredations on Public Timber—</i> To meet the expenses of protecting timber on public lands.....	Appropriated..	23	210	1	\$75,000 00	\$75,000 00
NOTE.—A less amount than the sum estimated would be wholly inadequate to the requirements of the service. See note to estimate for settlement of claims for swamp-lands, &c., below.							
<i>Protecting Public Lands—</i> For the protection of public lands from illegal and fraudulent entry or appropriation.....	Appropriated..	23	210	1	400,000 00	75,000 00
NOTE.—The benefit the United States derives from the appropriation for protecting public lands from illegal or fraudulent entry is limited in time to but a little over one year, as no appropriation had ever been made for that purpose prior to the act of March 3, 1883, when the sum of \$100,000 was provided. The reports of the agents employed thereunder show that attempts were continually being made to make a vast number of fraudulent entries that, had it not been for their investigations, would in all probability have been consummated. The knowledge that the Government has provided moneys to defray the expenses of detecting and preventing such entries has deterred a large number of persons from attempting to make them, while at the same time others, undeterred by the fear of detection and punishment, are continually attempting to make fraudulent entries in the interest of speculators. A less amount than that estimated would be inadequate to the demands of the service. For additional reasons why the amount estimated should be appropriated, see Ex. Doc. No. 165, H. R., 48th Cong., 1st sess. See, also, note to estimate for settlement of claims for swamp-lands, &c., below.							
<i>Expenses of Hearings—</i> Expenses of hearings held by registers and receivers, under instructions from the General Land Office, to determine whether alleged fraudulent entries are of that character or have been made in compliance with law ...	Submitted.....				60,000 00	
NOTE.—The foregoing estimate is submitted to defray the expenses of hearings ordered by the General Land Office in cases of alleged fraudulent or illegal entries. Said entries are suspended upon the reports of investigations made by special agents, hearings are then ordered to be held by the register and receiver, and all parties in interest notified thereof. The expenses to be borne by the United States are those of its own witnesses and the taking of testimony to establish the fraudulent or illegal character of the entry. There is no other appropriation at the disposal of this office available for this purpose, the entire appropriation for protecting public lands being required to defray the expenses of the special agents in making examinations. To be made immediately available.							
<i>Settlement of Claims for Swamp-Lands and Swamp-Land Indemnity—</i> Salaries and expenses of agents employed in adjusting claims for swamp-lands, and for indemnity for swamp-lands.....	Appropriated..	23	210	1	20,000 00	20,000 00
NOTE.—The foregoing estimate is submitted to cover the salaries and expenses of agents appointed to investigate in the field lands claimed as swamp-land: <i>Provided</i> , That agents and others employed under this and the appropriations for "Depredations on public timber" and "Protecting public lands," while travelling on duty, shall be allowed per diem, in lieu of subsistence, at a rate to be fixed by the Secretary of the Interior, not exceeding three dollars per day, and for actual necessary expenses for transportation.							
<i>Reproducing Plats of Surveys, General Land Office—</i> To enable the Commissioner of the General Land Office to continue to reproduce worn and defaced official plats of survey on file, and other plats constituting a part of the records of said office, and also to furnish local land offices with the same, (increase of \$5,000 submitted).....	Appropriated..	23	210	1	25,000 00	20,000 00
NOTE.—The sum of \$25,000 is required to continue the work of reproducing plats to prevent a total obliteration of designations on official township plats, defaced and mutilated by constant use during a period of many years, thus rendering them unavailable in furnishing certified copies, under the provisions of an act of Congress, approved July 2, 1864, (13 Stat., p. 375.) The usual annual appropriation of \$20,000 will employ the force engaged in the reproduction of plats but ten months, and the increase of \$5,000 is submitted to continue the work throughout the entire fiscal year.							
Total Public Lands, exclusive of surveying.....						1,402,200 00	867,500 00

SURVEYING THE PUBLIC LANDS.							
<i>Surveying Public Lands—</i>							
For surveying the public lands, \$600,000, at rates not exceeding \$9 per linear mile for standard and meander lines, \$7 for township, and \$5 for section lines, except that the Commissioner of the General Land Office may allow for the survey of standard and meander lines through lands heavily timbered, mountainous, or covered with dense undergrowth, a sum not exceeding \$13 per linear mile for standard lines, \$11 for township, and \$7 for section lines, <i>or where, for any cause not provided for by law, he is unable to get the necessary surveys made at the rates aforesaid, he may allow a sum not exceeding \$12 per linear mile for standard lines, \$10 for township, and \$6 for section lines: Provided, That</i> out of the appropriation hereby estimated an amount not exceeding \$75,000 may be expended for occasional examinations of public surveys in the several surveying districts, in order to test the accuracy of the work in the field, prevent payment for fraudulent and imperfect surveys returned by deputy surveyors, and inspect mineral deposits, coal-fields, and timber districts, and for the making of such other surveys or examinations as may be required for identification of lands for purposes of evidence in any suit or proceeding in behalf of the United States	R. S.	438	2395, 2413	}	\$600,000 00	\$350,000 00
Appropriated..	23	211	1				
NOTE.—The intermediate rates (those in <i>Italics</i>) should be made applicable to all surveying districts, as each district contains tracts of country to which the maximum rates are not applicable, and which cannot be surveyed at the minimum rates.							
<i>Resurveys of Public Lands—</i>							
For such resurveys of the public lands as in the discretion of the Commissioner of the General Land Office may be considered necessary.....	Appropriated..	23	211	1	25,000 00	10,000 00
NOTE.—Many applications are received at the General Land Office from settlers on the public lands surveyed many years ago, stating that no corners of the public surveys can be found, and in order that the Government may properly dispose of such lands, it becomes necessary to resurvey them if upon examination none of the corners can be found, hence the estimate of \$25,000 is submitted.							
<i>Surveying Private-Land Claims in Arizona—</i>							
Expenses attending the examination of private-land claim titles in the Territory of Arizona, and reporting the same to Congress, as provided in the act of July 15, 1870; also, for the preliminary survey of such claims, at a rate not exceeding \$16 per linear mile, and office expenses.....	R. S.	390	2223	}	8,000 00	8,000 00
Appropriated..	23	211	1				
<i>Surveying Private-Land Claims in New Mexico—</i>							
Expenses attending the examination of private-land claim titles in the Territory of New Mexico, and reporting the same to Congress, as provided by the act of July 22, 1854, (10 Stat., p. 308;) also, for the preliminary survey of unconfirmed and survey of confirmed private-land claims in New Mexico, at a rate not exceeding \$16 per linear mile, and office expenses..	R. S.	390	2223	}	8,000 00	8,000 00
Appropriated..	23	211	1				
<i>Surveying Confirmed Private-Land Claims in California—</i>							
Survey of confirmed private-land claims in California, at the rates prescribed by law, including office expenses	R. S.	390	2223	}	5,000 00	5,000 00
Appropriated..	23	211	1				
<i>Surveying Confirmed Private-Land Claims in Louisiana—</i>							
Surveys of private-land claims in Louisiana confirmed by decrees of courts or by private acts of Congress: <i>Provided, That</i> no part of the appropriation hereby estimated shall be applied to the survey of any private-land claim, and more particularly what are known as "donation claims," unless it shall appear that the land to be surveyed is actually occupied or reserved to satisfy such claim.....	S.	390	2223	}	10,000 00	5,000 00
Appropriated..	23	211	1				

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated am't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Survey and Remarking of Boundary-Lines—</i>							
Survey of the boundary-line between the Territories of Dakota and Montana, estimated at 280 miles	Submitted.....				\$8,400 00		
Remarking of the boundary-line between the State of Colorado and the Territory of Utah, estimated at 210 miles	do.....				6,300 00		
Survey of the boundaries of the Yellowstone Park, in the Territories of Wyoming, Idaho, and Montana, estimated at 250 miles.....	do.....				7,500 00		
Surveying, marking, and establishing the boundary-line between the Territories of Idaho and Montana, the necessary astronomical work, and making returns thereof, estimated at 600 miles, at \$40 per mile	do.....				24,000 00	\$46,200 00	
<p>NOTE.—The importance of these boundary surveys arises from the fact of the pressing necessity of defining the closing limits of the public-land surveys in the Territories of Dakota and Montana, particularly within the limits of the Northern Pacific Railroad Company's land-grant; the total inability of Indian agents, deputy surveyors, and others of identifying the monuments on the line between Colorado and Utah, and the imperative requirement, by reason of the extension of the public-land surveys in the Territories of Wyoming, Idaho, and Montana, of defining the out-boundaries of the Yellowstone Park within the same.</p> <p>The surveying, marking, and establishing the boundary-line between Idaho and Montana is rendered necessary by the extension of the public-land surveys in both Territories; to define their limits, involving territorial and individual rights, which should be protected in order to avoid complications, both as to surveys of the public lands and rights acquired thereunder, which must otherwise result therefrom.</p>							
<i>Survey, Appraisal, and Sale of Abandoned Military Reservations—</i>							
For necessary expenses of survey, appraisal, and sale of abandoned military reservations, transferred to the control of the Secretary of the Interior under the provisions of an act of Congress approved July 5, 1884.....	Submitted.....					25,000 00	
<p>NOTE.—About thirty different abandoned military reservations have been placed under the control of the Secretary of the Interior by the President's order, dated July 22, 1884, the aggregate area of which exceeds one-half million acres. The estimate of the cost of survey of those not already surveyed is \$10,000, and for expenses of appraisal and sale of the whole, \$15,000, making a total of \$25,000.</p>							
<i>Initial Monuments, Mineral Surveys—</i>							
Establishing initial monuments of a permanent character to govern mineral surveys, in order to secure accuracy in the survey of mineral claims, and to connect the monuments with each other and with the public lands..	Appropriated..	23	211	1		10,000 00	\$5,000 00
<p>NOTE.—The \$10,000 is estimated for the cost of erecting permanent initial monuments in the mining districts where no lines of public surveys have been or can be extended, and to secure accuracy of surveys and prevent conflicts. One or two miners cannot afford to have permanent monuments erected at their cost, in addition to paying for the survey of their claims, as required by law. The appropriation is also necessary to pay the expense of connecting mineral claims with each other, and thus show their relative positions by trigonometrical surveys and to secure accurate information as to their position, thus preventing conflicts and litigation.</p>							
<i>Iron Monuments, Public Surveys—</i>							
Purchase of iron monuments, cost of transportation to the offices of surveyors-general, and storage, to mark the lines of public surveys passing over public lands devoid of timber and stone.....	Appropriated..	23	211	1		10,000 00	5,000 00
<p>NOTE.—It is intended to secure the permanency of nine corner boundaries in each township, to be planted at the distance of every second mile, and said monuments being of iron, would thereby be protected from destructive agencies, such as fire, winds, and cattle, and would afford ready reference from which local surveys could restore intervening corners, originally constructed from perishable material.</p>							
<i>Geological Survey—</i>							
Salaries of the scientific assistants:							
Five geologists, at \$4,000 each.....	Aug. 7, 1882	22	329	1	} 20,000 00		
	July 7, 1884	23	212	1			
Two geologists, at \$3,000 each.....	Same acts.....				6,000 00		
One geologist.....	do.....				2,700 00		
Two geologists, at \$2,400 each.....	do.....				4,800 00		
Two geologists, at \$2,000 each.....	do.....				4,000 00		
One paleontologist.....	do.....				4,000 00		

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt't required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Geological Survey—Continued.</i>

One chemist.....	Same acts.....				3,000 00		
One chief geographer.....	do.....				2,000 00		
Three geographers, at \$2,500 each.....	do.....				2,700 00		
One general assistant.....	do.....				7,500 00		
Three topographers, at \$2,000 each.....	do.....				3,000 00		
	do.....				6,000 00		
General expenses:							
For the Geological Survey, and the classification of the public lands, and examination of the geological structure, mineral resources, and products of the national domain, and to continue the preparation of a geological map of the United States, including the pay of temporary employes in the field and office, and all other necessary expenses, to be expended under the direction of the Secretary of the Interior.....	Mar. 3, 1879	20	394	1	} 500,000 00	\$567,700 00	\$453,700 00
	July 7, 1884	23	212	1			
Total Surveying Public Lands.....						1,314,900 00	849,700 00
MISCELLANEOUS OBJECTS.							
GOVERNMENT HOSPITAL FOR THE INSANE.							
<i>Contingent Expenses, Government Hospital for the Insane—</i>							
Support, clothing, and treatment in the Government Hospital for the Insane of the insane from the Army and Navy, Marine Corps, and Revenue-Cutter Service; persons charged with or convicted of crimes against the United States; inmates of the National Home for Disabled Volunteer Soldiers; and of the indigent insane of the District of Columbia.....		R. S.	938	4838, 4858	}	\$270,000 00	\$208,300 00
Appropriated..		23	213	1			
NOTE.—The basis of this estimate is an expense of \$225 per annum for each inmate, and an average number of 1,200, which it is hoped will not be exceeded. For some years a portion of this expense has been provided for in the bill for the District of Columbia, an amount which has been increased from year to year in the proportion of increase of the number of inmates from the District. Should Congress see fit to continue this appropriation, the rate of increase being the same as hitherto, the amount in the District bill will be \$53,462, leaving the sum of \$216,538 to be provided in the sundry civil bill. It is asked that of this appropriation not exceeding \$1,000 may be expended, as in previous years, in defraying the expenses of the removal of patients to their friends.							
COLUMBIA INSTITUTION FOR THE DEAF AND DUMB.							
<i>Current Expenses, Columbia Institution for the Deaf and Dumb—</i>							
Support of the institution, including salaries and incidental expenses, and for books and illustrative apparatus, for general repairs and improvements.....	Appropriated..	23	213	1	55,000 00	55,000 00
FREEDMEN'S HOSPITAL AND ASYLUM.							
<i>Support of Freedmen's Hospital and Asylum, Washington, D. C.—</i>							
Subsistence	Appropriated..	23	214	1	22,000 00	50,500 00	49,000 00
Salaries and compensation of surgeon-in-chief, two assistant surgeons, engineer, clerk, matron, nurses, laundresses, cooks, teamsters, watchmen, and laborers.....	do.....				14,000 00		
Rent of hospital buildings and grounds.....	do.....				4,000 00		
Fuel and light, clothing, bedding, forage, transportation, medicines and medical supplies, repairs and furniture, and other absolutely necessary expenses.....	do.....				10,500 00		
HOWARD UNIVERSITY.							
<i>Maintenance of Howard University—</i>							
Maintenance of the Howard University: To be used in payment of part of the salaries of the officers, professors, and teachers, and other regular employes of the university.....	Appropriated..	23	214	1	19,000 00	22,500 00	18,500 00
Increase of library, of cabinet, and of philosophical and chemical apparatus, and improvements in the rooms containing the same.....	Submitted.....				3,500 00		
NOTE.—See Appendix "A a."							
NATIONAL MUSEUM.							
<i>Heating and Lighting, National Museum—</i>							
Expense of heating, lighting, and telephonic and electrical service for the National Museum	Appropriated..	23	214	1	10,000 00	6,000 00

Estimates of appropriations required for the service of the fiscal year ending June 30, 1886—Continued.

General object, (title of appropriation,) and details and explanations.	Date of acts, or treaties, providing for the expenditure.	References to Stats. at Large, or to Revised Statutes.			Estimated amt required for each detailed object of expenditure.	Total amount to be appropriated under each head of appropriation.	Amount appropriated for the fiscal year ending June 30, 1885.
		Vol. or R. S.	Page.	Sec.			
<i>Preservation of Collections, National Museum—</i> Preservation, exhibition, and increase of the collections received from the surveying and exploring expeditions of the Government, and from other sources, including salaries or compensation of all necessary employes.....	Appropriated..	23	214	1	\$110,000 00	\$101,000 00
NOTE.—Much complaint has been made by employes of the Museum, and their friends, that the salaries paid are so much below the Government standard, and the increase of the present estimate over that for the fiscal year 1885 is intended to make up the difference. The average of payment at the present time is \$60 per month for each individual, while that for the Department of Agriculture, representing about the same average of employes, is \$81 per month for each person employed. More than sixty persons in the Museum are greatly underpaid.							
<i>Preservation of Collections, National Museum, Armory Building—</i> Care of the Armory building and its grounds, and for the expense of watching, preservation, and storage of property of the National Museum and of the United States Fish Commission contained therein, including salaries or compensation of all necessary employes.....	Appropriated..	23	214	1	2,500 00	2,500 00
<i>Furniture and Fixtures, National Museum—</i> Cases, furniture, and fixtures required for the exhibition of the collections of the United States National Museum, and for salaries or compensation of all necessary employes	Appropriated..	23	214	1	50,000 00	40,000 00
TENTH CENSUS.							
<i>Expenses of the Tenth Census—</i> For proof-reading, rent, care of records, &c.....	{	Mar. 3, 1879	20	480	20	10,000 00

		Vol. or R. S.	Page.	Sec.			
SPECIFIC.							
UNDER THE TREASURY DEPARTMENT.							
Smithsonian Institution—							
Specific appropriation to pay for the erection of buildings and expenses of the Smithsonian Institution, being six per cent. on the fund derived from the bequest of James Smithson.....		R. S.	728	3689	\$42,180 00	\$42,180 00	\$42,180 00
Collecting Revenue from Customs—							
Specific appropriation of \$2,750,000 for the expenses of collecting the revenue from customs for each half year, in addition to such sums as may be received from fines, penalties, and forfeitures connected with the customs, and from fees paid into the Treasury by customs officers, and from storage, cartage, drayage, labor, and services.....		R. S.	724	3687	5,500,000 00	5,500,000 00	5,500,000 00
NOTE.—The estimate of expenses for conducting the business of collecting the revenue from customs, required by section 5 of the act of August 5, 1882, to be submitted by the Secretary of the Treasury, will be made the subject of a separate communication to Congress.							
UNDER THE WAR DEPARTMENT.							
Arming and Equiping the Militia—							
Specific appropriation of \$200,000 annually for the purpose of providing arms and military equipments for the whole body of the militia of the United States.....		R. S.	290	1661	200,000 00	200,000 00	200,000 00
Total Permanent Specific Appropriations.....					5,742,180 00	5,742,180 00	5,742,180 00
INDEFINITE.							
EXECUTIVE.							
UNDER THE TREASURY DEPARTMENT.							
Return of Proceeds of Captured and Abandoned Property—							
Indefinite appropriation for the return of proceeds from the sale of captured and abandoned property to the owners thereof, who may, to the satisfaction of the Court of Claims, prove their right to and ownership of said property		R. S.	724	3689	\$20,000 00	\$20,000 00	
Sinking-Fund—							
Indefinite appropriation of one per cent. of the entire debt of the United States, to be set apart as a sinking-fund for the purchase or payment of the public debt, in such manner as the Secretary of the Treasury shall from time to time direct.....	Apr. 17, 1876	R. S. 19	725 33	3689 2	17,829,087 22	18,305,289 24	46,790,229 50
Indefinite appropriation of an amount equal to the interest on all bonds belonging to the sinking-fund, to be applied, as the Secretary of the Treasury shall from time to time direct, to the purchase or payment of the public debt.....	Apr. 17, 1876	R. S. 19	724 33	3688 2			
NOTE.—The amount actually required for the sinking-fund cannot be accurately determined at the time the estimate is made, as it depends upon what the principal of the debt may be seven months subsequently. Changes are liable to occur in the outstanding amount represented by coin certificates, certificates of deposit, and fractional currency—which are considered as a part of the debt—as also in the accrued interest which may be due on the bonds obtained for the fund.							
Interest on the Public Debt—							
Indefinite appropriation for payment of interest on the public debt, viz:							
Navy-pension fund.....	July 1, 1864	13	414	1	44,872,589 28	47,372,589 28	50,704,897 76

<i>Expenses of Regulating Immigration, (Customs)—</i>							
That there shall be levied, collected, and paid a duty of fifty cents for each and every passenger not a citizen of the United States who shall come by steam or sail vessel from a foreign port to any port within the United States. The said duty shall be paid to the collector of customs of the port to which such passenger shall come, or if there be no collector at such port, then to the collector of customs nearest thereto, by the master, owner, agent, or consignee of every such vessel, within twenty-four hours after the entry thereof into such port. The money thus collected shall be paid into the United States Treasury, and shall constitute a fund to be called the immigrant fund, and shall be used, under the direction of the Secretary of the Treasury, to defray the expense of regulating immigration under this act, and for the care of immigrants arriving in the United States, for the relief of such as are in distress, and for the general purposes and expenses of carrying this act into effect. The duty imposed by this section shall be a lien upon the vessels which shall bring such passengers into the United States, and shall be a debt in favor of the United States against the owner or owners of such vessels; and the payment of such duty may be enforced by any legal or equitable remedy: <i>Provided</i> , That no greater sum shall be expended for the purposes hereinbefore mentioned, at any port, than shall have been collected at such port..... APPENDIX A.

In relation to the estimates for "Salaries, Office of Supervising Architect, Treasury Department." (See page 19.)

TREASURY DEPARTMENT,
Office of the Supervising Architect, October 17, 1884.

SIR: I have the honor to enclose herewith estimates of salaries for this office for the fiscal year ending June 30, 1886, in amount twenty thousand one hundred and seventy dollars, (\$20,170.) This is seven hundred and fifty dollars (\$750) in excess of the amount appropriated for the current fiscal year. Five hundred dollars additional for the assistant, to bring his compensation nearer what it should be, in view of his arduous and valuable services, and two hundred and fifty dollars additional for the photographer, to restore his compensation to what it was prior to July 1, 1881.

The late Secretary, in letter of May 15, 1884, recommended to Congress the increase of the compensation of the assistant, and, in view of the increased amount of work devolving upon him, and his long and faithful service, I cannot too strongly urge the appropriation of the amount estimated.

Very respectfully,

M. E. BELL, *Supervising Architect.*

Hon. SECRETARY OF THE TREASURY.

List of employes in office of Supervising Architect, Treasury Department, and amounts paid each, during the fiscal year ended June 30, 1884, from appropriations for public buildings, furnished under requirements of the act of Congress approved July 7, 1884.—(23 Stats., p. 168.)

APPENDIX B.

Letter of First Auditor in relation to the force of his office. (Estimate on pages 20 and 21.)

TREASURY DEPARTMENT,

Office of the Secretary, Washington, D. C., October 1, 1884.

SIR: I have the honor to transmit herewith estimates of appropriations required for the use of the First Auditor's Office for the fiscal year ending June 30, 1886.

The estimates contain the following changes: I have asked for one additional chief of division and for a messenger.

There are in this office eight independent desks, the duties of which are entirely outside the organized divisions of this office. Upon these desks were settled during the last fiscal year about eight thousand five hundred accounts. I desire, and consider it would be for the benefit of the service, to organize a division, to be called the division of miscellaneous accounts, which shall include these miscellaneous and independent desks, with a competent chief of division to supervise the work.

The fact that this office is not the custodian of the accounts it has audited, and that for all purposes of reference it has to send to the files of the Register's Office, and the further fact that the force of the office is divided, occupying rooms on different floors, render it necessary that a messenger should be added to the two assistant messengers we now have.

Very respectfully,

R. M. REYNOLDS, *First Auditor.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX C.

In relation to the estimate for "Salaries, office of Second Auditor." (See page 21.)

TREASURY DEPARTMENT,

Second Auditor's Office, Washington, D. C., September 30, 1884.

SIR: I have the honor to transmit herewith an estimate of appropriations required for "Salaries, office of Second Auditor," for the fiscal year ending June 30, 1886, with the following explanatory remarks:

The number of clerks now provided for by law is one hundred and eighty-five, namely: Six chiefs of division, at \$2,000 each, eight clerks of class four, forty of class three, fifty-five of class two, sixty-eight of class one, and eight at \$1,000 each. I have estimated for the same number, but have classified them as follows: Nine chiefs of division, at \$2,000 each, twelve clerks of class four, fifty of class three, sixty of class two, forty-six of class one, and eight at \$1,000 each. I have also estimated for one messenger, at \$840, in lieu of one assistant messenger, at \$720.

The amount appropriated for "Salaries, office of Second Auditor," for the current fiscal year is \$270,490, to which should be added the proportion (about \$7,000) allotted to this office of the \$10,000 set apart by the legislative, executive, and judicial appropriation act of July 7, 1884, for continuing the adjustment of the accounts of the Soldiers' Home, making a total of \$277,490. The amount called for by the accompanying estimate is \$280,410, being \$2,920 in excess of the sum appropriated for this fiscal year. This small increase, a little more than 1 per cent. of the present expenditure, would enable you to promote forty-nine competent and deserving clerks, many of whom have faithfully served the Government for periods varying from fifteen to more than twenty years of the best portion of their lives.

The extreme tardiness of promotion has been a constant source of embarrassment to this office, and has been detrimental to the public service. After serving a few years, and becoming familiar with his duties, an energetic and intelligent man naturally grows dissatisfied when he sees no prospect of promotion, and his dissatisfaction is not lessened when he finds that in other bureaus of the same Department clerks no more experienced than himself are rapidly advanced. He immediately seeks a transfer to one of the more favored bureaus, and the result often is that this office is compelled to part with a clerk whom it has educated into usefulness, and to take in his stead an inexperienced and temporarily useless man.

If the appropriations for the fiscal year 1886 are made on the basis of the estimate herewith submitted, the efficiency of the clerical force of this office will be greatly promoted.

Very respectfully,

O. FERRIS, *Auditor.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX D.

Letter of the Fourth Auditor in relation to the estimate for his office. (Estimate on page 22.)

TREASURY DEPARTMENT,

Fourth Auditor's Office, September 18, 1884.

SIR: In compliance with your circular of July 24, 1884, I have the honor to transmit herewith an estimate of appropriation required for the payment of salaries of this office for the fiscal year ending June 30, 1886.

It is absolutely necessary to the prompt settlement of accounts and claims that the force of the office be increased, and I respectfully and urgently recommend the addition asked in the estimates, viz., one clerk of class four, one of class three, and two of class two.

The necessity for this increase arises from the large accumulation of claims for mileage under the recent decisions of the United States Supreme Court, in the Temple and Graham cases, for longevity pay under the acts August 5, 1882, and March 3, 1883; for three months' extra pay for services in the Mexican War, and the increased number of Navy-pension claims referred for report of service, under the recent acts of Congress extending the pension-list.

These pension cases are now three months in arrears, and this is the only office whose work has been increased by the laws referred to which has not had an increase of force allowed.

Very respectfully, your obedient servant,

CHAS. BEARDSLEY, *Auditor.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX E.

In relation to the estimate for "Salaries, office of Sixth Auditor." (See pages 22 and 23.)

OFFICE OF THE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT,
Washington, D. C., October 21, 1884.

SIR: I have the honor to submit the enclosed estimate for the service of this office for the fiscal year ending June 30, 1886, and to invite your attention to the following facts in connection therewith:

On July 1, 1884, seven hundred and fifty-eight new money-order offices were established, which added, annually, to the work of this office thirty-nine thousand four hundred and sixteen weekly money-orders, and postal notes accompanying them, to be examined and audited. For this increase no provision was made in the estimate for the fiscal year ending June 30, 1885. Twenty-four clerks are needed for this work.

It is estimated that on July 1, 1885, four hundred additional money-order offices will be established, which will necessitate the auditing, annually, of twenty thousand and eight hundred weekly money-order statements, with the accompanying money-orders and postal notes, and require a further addition to the force of twelve clerks.

The extent of the issue of postal notes has far exceeded the anticipations of the Department, and has consequently added very greatly to the work of this office. They require equal care in auditing with money-orders, and, by reason of their size, color, and the system of cancelling the unused figures, involve fully one-third more time and labor than money-orders, as has been proved by experts in auditing them.

A large amount of work not anticipated in the last estimate has been thrown upon this office, in the payment of postmasters and late postmasters, whose salaries have been readjusted by the Postmaster-General, under the act of Congress approved March 3, 1883.

The payment direct by post-office warrants of five thousand two hundred and forty-two mail-messengers and one thousand two hundred and nineteen special mail-carriers, involving a report in each case from this office, and the registration of each warrant, has increased the labors of this office considerably.

The number of settlements of accounts of mail contractors and sub-contractors, railway postal clerks, letter-carriers, mail-messengers, special mail-carriers, and miscellaneous payments has increased during the past fiscal year seven thousand two hundred and fourteen, necessarily involving a large addition to the number of orders of the Postmaster-General affecting accounts for the transportation of the mails, and increasing the labors of the pay and book-keeping divisions.

During the past fiscal year, the number of post-offices has increased two thousand one hundred and fifty-one, and therefore added eight thousand six hundred and four quarterly postal accounts, with accompanying vouchers, to be audited by the examining division, and correspondingly increased the work of other branches of the office.

There has been a large increase in the number of orders of the Postmaster-General, affecting the allowance for clerk-hire, rent, light and fuel, office-furniture, advertising, stationery, miscellaneous expenses, repair of mail-bags, and salaries of postmasters, by which the work of auditing the accounts is materially increased.

During the year 1885 it will again be the duty of this office to prepare the material for such portion of the Biennial Official Register of the United States as pertains to the postal service, one-half of the register. This service has heretofore occupied twelve clerks for a period of three months. The forthcoming register will involve a greater amount of labor in its preparation than any previously issued, and a sufficient force should be provided for this purpose.

The money-order branch now employs nearly one-half of the clerical force of the office, and is under the charge of a chief of division, with a limited number of clerks of the higher grades. On account of the extent and importance of the duties of this division, the number of persons engaged in it, and in the interest of a strict supervision of the work and a better and more even distribution of the responsibilities, it is desirable to divide it into several branches, with a principal clerk in charge of each, and estimate is accordingly submitted.

To avoid as far as possible the embarrassments and delays arising from the lack of clerical force, it has been necessary to continue upon the current work the temporary force provided at the last session of Congress, for the purpose of ascertaining the amount of unpaid money-orders.

With the utmost efforts of the present force, a large number working before and after office-hours, at night and on holidays, it has been found impracticable to keep the work up to the requirements of the office.

For these and other reasons, it is deemed necessary that the clerical force estimated for be granted to this office.

I would call your attention to the fact that at the close of the fiscal year ended June 30, 1883, there was covered into the Treasury \$411,619.37, being the revenue on money-order business. The revenue from this source during the fiscal year ended June 30, 1884, will probably be considerably greater, and the profits of the system will be sufficient to pay the expense of the force required to audit its accounts.

Very respectfully,

R. F. CROWELL, Auditor.

Hon. SECRETARY OF THE TREASURY.

APPENDIX F.

In relation to the estimate for "Salaries, office of Comptroller of the Currency." (See pages 24 and 25.)

TREASURY DEPARTMENT,
Office of Comptroller of the Currency, Washington, September 29, 1884.

SIR: I have the honor to transmit herewith the estimate for appropriation for this office for the fiscal year ending June 30, 1886, and would respectfully submit for the consideration of the Secretary, and, if consistent with his views, for transmittal to the Appropriation Committee, the following statement in reference to the requirements of this office for additional clerical force:

On the 31st of August, 1883, Comptroller Knox transmitted to the Secretary estimate for appropriation for the office for the fiscal year ending June 30, 1885, and suggested an appropriation for an additional force of two clerks of class one, one clerk of class two, and one clerk of class three. It is very evident that this addition of four clerks is very much needed in this office, and is scarcely enough for the requirements.

The business of the office for the last six years has been largely increased, in fact about doubled, by the refunding operations of the Department, by the failure of national banks, and by the expiration and extension of the charters of a large number of them. Extra accounts are required to be kept, both in the redemption and issue divisions of the office on this account, not only with the new but with the old organizations, and it is almost impossible to keep up the records and business of the office with the present force, which is now less than it was ten years ago, when the requirements were not nearly so great.

The number of national banks in operation at the end of the fiscal year June 30, 1873, was one thousand nine hundred and sixty-eight, and the amount appropriated for salaries that year was \$112,800. The number of banks at the end of the fiscal year June 30, 1884, was two thousand six hundred and forty-six, yet the amount appropriated for salaries for that year was but \$103,120. (The number at this date is two thousand six hundred and seventy-four.) This would show a large increase in the number of banks, and consequently in the business of the office, independent of the increased additional volume of work made necessary by the refunding operations, failure of banks, and expiration of charters.

By the time the additional appropriation requested shall become available, the corporate existence of one thousand four hundred and fifteen national banks will have expired, and it will be readily seen that the extra labor required cannot be accomplished by the force now employed in the office.

I have submitted, as my predecessor did, that there be added to the appropriation for the fiscal year ending June 30, 1886, an amount sufficient for the employment of the four additional clerks, and consider them absolutely needed to provide for the increased business of the office, and would also respectfully submit that the sum of \$200 be added to the appropriation and applied to the salary of the Deputy Comptroller, being satisfied that the duties and responsibilities of his position fully entitle him to the increase of salary. He is a bonded officer and has faithfully and satisfactorily discharged the important duties of his position for the last twelve years.

Very respectfully,

H. W. CANNON, *Comptroller.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX G.

Letter of the Chief of the Bureau of Statistics in relation to the estimates for his office. (See page 27.)

TREASURY DEPARTMENT,
Bureau of Statistics, Washington, D. C., October 8, 1884.

SIR: I have the honor to recommend the appropriations for the Bureau of Statistics for the fiscal year ending June 30, 1886, as they are stated in the enclosed estimate blank No. 1. I have recommended an increase of one in the number of clerks of class four.

I also recommend that the appropriation for collecting information in regard to internal commerce be increased from five thousand dollars (\$5,000) to seven thousand five hundred dollars, (\$7,500.) The sum of \$7,500 appears to me to be an exceedingly moderate appropriation for so large and important a subject, when the fact is considered that the Government has appropriated for the current fiscal year the sum of \$134,300 for information in regard to agriculture, and \$49,955 for information in regard to education, and that the total amount appropriated for the clerical force of this bureau employed in the preparation of statistics on foreign commerce is \$50,500.

I feel great hesitancy in asking the Secretary of the Treasury, newly installed in office, to recommend an increase in my own salary, yet it seems that, in justice to myself, I ought at least to place myself upon record in asserting what I regard as a matter of right. No other bureau officer of the Treasury Department receives a salary of less than \$3,600, and from the character and amount of my work it would appear to be but equitable that my salary should be placed upon a par with the lowest of the other bureau officers of the Department. Both Secretaries Sherman and Windom recommended this increase. On two different occasions the item was inserted in the legislative, executive, and judicial appropriation bill, and was agreed to by both branches of Congress, but each time the bill failed to become a law in consequence of political struggles in Congress.

Very respectfully,

JOSEPH NIMMO, JR., *Chief of Bureau.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX H.

Statement of buildings rented in Washington by the Executive Departments, as required by the act of March 3, 1883.—(22 Stat., p. 552.)

BUILDINGS RENTED BY THE TREASURY DEPARTMENT FOR FISCAL YEAR 1885. (ESTIMATE FOR 1886 ON PAGE 29.)

Location of building.	For what purpose used.	Annual rental.

APPENDIX I.

In relation to the estimate for "Salaries, office of Assistant Treasurer at New Orleans." (See page 30.)

OFFICE OF ASSISTANT TREASURER UNITED STATES,
New Orleans, La., September 26, 1884.

SIR: In submitting the annual estimate of this office for the fiscal year ending June 30, 1886, I beg leave to state that the change suggested is absolutely necessary for the proper conduct of business here. Efforts heretofore made seemed to have failed to impress the Department with the importance of this matter, and the office has been obliged to do the best it could with the force allowed; but in order to get along at all, it has been found necessary to utilize every man on the roll, not excepting the night-watchman, in actual office-work, his place being supplied by a detail from the force of the collector of the port.

An important and responsible office such as this is, with work constantly accumulating, I beg to submit, should not be forced to the necessity of utilizing porters and watchmen as clerks, and that on proper representation it seems the change proposed will be concurred in at once as a matter of public necessity.

I beg also to refer you to the report of the gentlemen commissioned to examine into the condition of this office last spring, of which Mr. H. A. Whitney was chief, recommending the reorganization of the force as now proposed.

The salaries affixed to the respective positions are both equitable and just, and, being based on the compensation allowed other offices of like grade, there seems to be no reasonable ground on which exception can be made.

In suggesting the proposed change, I beg to assure you that I do so solely in the interest of the public welfare as its interests are served in and through this office, and for this cause desire to call your earnest attention to the same and ask your favorable consideration.

Very respectfully,

P. F. HERWIG,
Assistant Treasurer United States.

Hon. SECRETARY OF THE TREASURY.

(Letter of Assistant Treasurer referred to the Treasurer of the United States for report. See report following.)

TREASURY OF THE UNITED STATES,
Washington, October 13, 1884.

SIR: I have the honor to return herewith the communication of the assistant treasurer at New Orleans of September 26, with which he submits the estimate of the appropriation required for his office during the fiscal year 1886.

In reply to reference of said communication to me for report thereon, I have to say that the assistant treasurer at New Orleans is the only one of the assistant treasurers in charge of an independent office that receives a salary less than \$4,500, and it would be only just that this increase of \$500 should be granted to bring his salary to a par with the lowest salary paid to any other assistant treasurer in charge of an office.

In regard to the increase of the working force of the office and additions to the present salaries, it appears by the reports of transactions for the last fiscal year that the receipts and disbursements at the New Orleans office were greater in amount than at two others of the offices, and that each of those offices are now more liberally treated in respect to salaries than the New Orleans office, which has been allowed less than any other on account of salaries, and it will not be contended that any of the offices has a force employed larger than its needs, or that the salaries are excessive. That the office at New Orleans has not a sufficient force is evident from the fact, as shown by the statements of the assistant treasurer, and verified by the reports made to the Department of examinations made, that it has been necessary for him to employ watchmen and a porter upon the count of money. It is certainly not advisable that employés of this grade should be placed in positions of such responsibility, and the necessity for it ought not to exist.

After a careful examination of the estimates of the assistant treasurer, aggregating an annual payment for salaries of \$17,840, I am of opinion that the increase of force is necessary for the proper conduct of the public business, and that the recommendations for an increase of force and of salaries are reasonable and proper, and such as should receive the approval of the Secretary.

Very respectfully,

A. U. WYMAN,
Treasurer United States.

Hon. SECRETARY OF THE TREASURY.

APPENDIX J.

In relation to the estimates for mints and assay offices. (See pages 32 to 35.)

TREASURY DEPARTMENT,
Bureau of the Mint, Washington, D. C., October 1, 1884.

SIR: I have the honor to transmit herewith estimates of the amounts necessary to be appropriated for the support of the Mint service during the fiscal year 1886.

These estimates are based upon the actual expenditures during the fiscal year 1884, which included, besides payments from the specific appropriations, \$136,054.78 expended from the appropriation contained in the act authorizing the coinage of the standard silver dollar, on account chiefly of the heavier silver coinage at the Philadelphia and New Orleans mints. If the coinage of silver dollars is continued, the work and expenditures at the coinage mints will probably be fully equal to that in the last year, and it seems preferable that, if practicable, the expenses should be paid from specific rather than indefinite appropriations. This apparently (though not in fact) provides for increased expenditures in wages of workmen and contingent expenses for the mint at Philadelphia of \$87,000, at New Orleans of \$29,000, and at Carson of \$16,000, which are, however, less than the amounts expended at these mints from the appropriation for the coinage of the standard silver dollar, while the estimates for the expenditures at the San Francisco mint on account of its probable diminished silver coinage are reduced \$17,000.

The increasing business at the Denver mint and Helena and Boise assay offices renders it necessary to estimate an increase for the former in the appropriation for contingent expenses from \$6,000 to \$8,000; for the Helena assay office on wages of workmen from \$12,000 to \$13,000; and at Boise from \$3,000 to \$4,500 in salaries. The latter increase being a transfer of an assistant assayer from the labor to the salary roll, is offset by a decrease of \$1,000 in the appropriations for contingent expenses and labor.

An increase of \$500 in the appropriation for the assay laboratory of my office will be required to meet additional expenses necessary in supplying it with improved fixtures and apparatus.

The sum of \$5,000, instead of \$4,000, for the collection of statistics of the production of the precious metals is again requested, to enable me to procure full, accurate, and specific information from the best and most reliable sources.

Increased compensation is estimated for some of the assistants and clerks in the mints and assay offices, in cases where the present rate is deemed out of proportion to the responsibilities of the position, or to the intelligence and skill required for the proper performance of its duties.

Very respectfully,

HORATIO C. BURCHARD, *Director.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX K.

In relation to the items for rent and fuel contained in the estimate for "Legislative expenses, Territory of Dakota. (See page 36.)

112 EAST CAPITOL STREET,
Washington, D. C., October 29, 1884.

SIR: At the request of the capital commissioners and the citizens of Bismarck, Dak., I have examined the papers and estimates filed by James H. Teller, Secretary of Dakota, and find that he asked you to recommend appropriations for office-rent and fuel presumably at Yankton. Whereas the new capitol building at Bismarck is ready for occupancy by the secretary, and is to be heated by steam, I respectfully suggest that if the secretary complies with the law and removes his office to the capitol at Bismarck, as the governor, auditor, and attorney-general have already done, no appropriation will be needed for rent, either for secretary, governor, or legislative assembly.

Respectfully, your obedient servant,

N. G. ORDWAY.

Hon. FIRST COMPTROLLER.

TREASURY DEPARTMENT,
First Comptroller's Office, Washington, D. C., October 29, 1884.

SIR: The enclosed letter from the late governor of Dakota Territory, N. G. Ordway, is respectfully submitted for your information and action.

In the estimate for legislative expenses for Dakota, 1886, referred to this office for inspection, the items for rent of secretary's office and room for storage of Government property, \$500, and for fuel, \$120, were inadvertently approved. I have to respectfully suggest, in view of the controversy in regard to the location of the capital in that Territory, and of the fact that office-rooms are ready and waiting the occupancy of the secretary in the capitol at Bismarck, where the other Territorial officers are located, and that that building is heated by steam, that the items in the estimate for rent and fuel be cancelled, and that the matter then be left for the determination of Congress.

Very respectfully,

WILLIAM LAWRENCE, *Comptroller.*

Hon. SECRETARY OF THE TREASURY.

APPENDIX L.

JOHN NEWTON,

Chief of Engineers, Brigadier and Brevet Major-General.

OFFICE CHIEF OF ENGINEERS, U. S. ARMY,

Washington, D. C., September 12, 1884.

APPENDIX N.

Explanation of estimates for "Public buildings and grounds under Chief of Engineers." (Estimates on pages 50, 51, and 160.)

The amounts of some of the items submitted being greater than the amounts appropriated for similar purposes for the fiscal year ending June 30, 1885, and others being for objects for which no appropriation has as yet been made, it is deemed advisable to submit the following brief explanation, giving the reasons why the additional sums are asked for.

The amount appropriated "for one clerk" for the fiscal year ending June 30, 1885, is \$1,400, and I recommend that his salary be increased to \$1,600, (being \$200 additional,) for the reason, as heretofore stated, "that the duties of the position are as exacting and require quite as much intelligence and ability as those performed by the majority of the third-class clerks in the Executive Departments. In addition, the present incumbent has been a faithful servant to the Government for over twenty-five years, (twelve of which have been spent in this office,) and he can hope for advancement only through an increase of the salary of the position by act of Congress."

The salary of "one public gardener" is estimated for at \$1,800, which is \$200 more than the amount appropriated for the present fiscal year; and in recommending this increase I beg to repeat the language used in my last report, as follows: "The salary of this position was placed by Congress, during the years 1874, 1875, 1876, and 1877 at \$1,800 per annum, so that the additional \$200 submitted in my estimates is not an increase, but really a restoration. The duties of the position demand not only a thorough familiarity with tree, shrub, and plant culture, but also a practical knowledge of civil engineering as applied to landscape-gardening, as this officer is charged with the duty of laying out such portions of the public grounds as are to be improved, and with the general oversight and immediate supervision of the work upon the public reservations and in the propagating greenhouses and nursery under the charge of this office. The salaries of officers performing somewhat similar, though not as varied or extensive, duties under other Departments of the Government in this city are larger than the present compensation (*i. e.*, \$1,600) of the public gardener, and I therefore earnestly recommend that the amount asked for in my estimate (*viz.*, \$1,800) be appropriated, in order that the salary may be restored to what it was prior to the reduction made by Congress in 1877."

The amount appropriated for the present fiscal year "for overseer, draughtsman, foremen, and laborers" employed in the "public grounds" is \$26,000, but with the increase each year in the area of the improved reservations, requiring constant care and supervision to maintain them in a slightly condition, an increase in the force used in the work becomes imperative. The acreage of the improved reservations under the control of this office is at least 20 per centum more now than it was six years ago, and requires a corresponding increase in the labor employed in their care. I therefore recommend that the additional \$4,000 asked for in my estimate, making \$30,000 in all, be granted.

I have asked for an additional day-watchman for "Armory square and reservations east to Botanic Gardens," and I recommend that the appropriation be granted. These grounds extend from Seventh to Third streets, and require the services of at least two watchmen to properly police them during the day.

I have asked for a "watchman for the greenhouses at the nursery," in order that a proper supervision may be exercised over the buildings and other Government property in the nursery-grounds, and I recommend that the appropriation be granted.

I have also thought it proper to submit the following memorandum project of the work proposed to be done with the larger amounts estimated for under the title "Improvement and care of public buildings and grounds in and around Washington:"

For improvement, care and maintenance of grounds south of Executive Mansion..... \$10, 000

For the maintenance, in good condition, of the roadway and walk surfaces of this park, (the main portions of which are under almost constant travel,) 4,000 cubic yards of fine gravel will be required, at an estimated cost, for purchasing, spreading, raking, and rolling the materials, of \$3,500.

For the purchase of suitable fertilizers or compost, for top-dressing the lawn surfaces and for labor in spreading the same, will be required \$1,000.

For the purchase of ornamental trees and shrubs, good soil in which to plant them, and for labor in planting and staking, will be required \$1,000.

For the purchase of four drinking-fountains, construction of their foundations, and for necessary water and sewer connections, will be required \$800.

For the purchase of material for and the construction of 400 lineal feet of rough ashlar-stone wall, with suitable stone coping, at the northeastern boundary of park, the sum of \$3,200.

For purchasing, painting, and lettering signs for protection of grounds, and for purchasing and lettering ornamental iron labels for suitably designating botanical and English names of trees and shrubs, the sum of \$500.

For improving reservation on South Carolina avenue, between Fourth and Sixth streets, east..... 1, 500

The estimated total cost of improving this public space was \$5,000, and, with this amount it was proposed to lay out and construct gravelled walks through the park on direct lines of travel, to enclose it with park post-and-chain fence or other suitable enclosure, and to plant ornamental trees and shrubs. Of the amount estimated, \$3,500 has already been appropriated, \$1,500 for the fiscal year ended June 30, 1884, and \$2,000 for the present fiscal year, and it is now recommended that the balance of the original estimate, viz., \$1,500, be appropriated, in order that the improvement may be completed in accordance with the prepared plan.

For continuing improvement of reservation numbered seventeen and site of old canal northwest of same..... 20, 000

With this appropriation it is proposed to continue the work of laying out roads and walks, to introduce additional water and drain pipe, and to plant additional trees and shrubs. The following is an approximate estimate of the cost of the materials and labor required in the above work:

For purchase of 10,000 cubic yards of fine gravel for road and walk surfaces, \$6,000.

For purchasing and laying 3,000 lineal feet of cast-iron water-pipe, with necessary connections, and for purchasing and putting in position on the same the necessary stop and waste cocks and hose-valves, \$1,500.

For purchase of 3,000 lineal feet of terra-cotta drain-pipe, and for cement and labor required to lay the same, \$1,500.

For purchase of additional trees and shrubs, and good soil in which to plant them, \$1,000.

For labor of all kinds, including hire of horses and carts, required for excavating and preparing the beds of of roadways and walks, for gravelling the same, and for planting trees and shrubs, \$10,000.

For removing snow and ice..... 1, 500

The amount appropriated for this purpose for the fiscal year ending June 30, 1885, is \$1,000, but the experience of the winters of 1880-'81 and 1881-'82 has demonstrated that this amount is not always sufficient for the service of a severe season, and I therefore recommend that \$500 additional be appropriated in order to provide for contingencies.

For improvement, care, and maintenance of various reservations..... 20, 000

With this appropriation it is proposed to maintain in good condition the lawn surfaces, roadways and walks, trees and shrubbery, and drainage, &c., of improved and partly improved parks, for which no special appropriation is requested or provided. The acreage of these improved grounds is constantly increasing; and as they are generally situated in sections of the city embellished by expensive private improvements, they are required to be maintained in as good condition as practicable, to be in keeping with their surroundings.

It is proposed to expend the available amount remaining, after providing for the above work, in the improvement of public spaces on prominent avenues in various sections of the city where such improvements are deemed most necessary and desirable.

The following is an approximate estimate of the cost of the materials and labor required in the prosecution of the above work:

For the care and continued improvement of Rawlings, Farragut, McPherson, Mount Vernon, and Judiciary squares; Iowa, Fourteenth street, (Thomas,) Scott, and Du Pont circles; and improved triangular spaces on Pennsylvania, New Hampshire, Massachusetts, Connecticut, Rhode Island, Vermont, New York, and New Jersey avenues west of the Capitol; and of Stanton, Lincoln, and Sherman squares, and improved triangular public spaces on various avenues east of the Capitol, will require, it is estimated, the sum of \$10,000.

For the purchase of materials, (such as soil, gravel, sod, drain-pipe, and park post-and-chain fence,) and hire of labor and horses and carts for improving the following reservations:

WEST OF THE CAPITOL.

Public space on Maryland avenue, between Seventh and Ninth streets, southwest, \$3,000.
Four triangular spaces on Vermont avenue, between Q and U streets, northwest, \$2,000.

EAST OF THE CAPITOL.

Five triangular spaces on Pennsylvania avenue, between Eighth and Twelfth streets, southeast, \$4,000.
Two triangular spaces on Massachusetts avenue, between Eighth and Tenth streets, northeast, \$1,000.

For improving Seward place..... \$10,000

This reservation is located at the intersection of Pennsylvania and North Carolina avenues, between Fourth and Sixth streets, east of the Capitol, and embraces an area of about four acres, over two of which are at the present time occupied by street surfaces, mainly on the lines of Pennsylvania and North Carolina avenues. The Washington and Georgetown street-railway has its tracks laid on Pennsylvania avenue through this park. It is proposed to remove the intersecting streets and avenues, together with the street-railway tracks, regrade, improve, and enclose the park in a manner similar to Stanton and Mount Vernon squares, with walks through it on direct lines of travel, for pedestrians only. An approximate estimate of the cost of the above work is as follows:

For excavating and removing about 10,000 square yards of asphaltum street-pavements and the curbing and brick sidewalks bordering the same, \$2,000.

For purchase of 4,000 cubic yards of good surface soil, \$3,000.

For purchase of 1,000 cubic yards of gravel, \$500.

For removing and resetting park post-and-rail fence, including purchase of new cedar posts for same, \$500.

For purchase of material and hire of labor required in the construction of sidewalks and granite curbing around the improved park, \$1,000.

For purchase of water-pipe, drain-pipe, drinking-fountains, construction of gutterways, &c., for surface drainage, and for hire of labor and horses and carts required to complete the work in accordance with the plan prepared for the improvement, \$3,000.

For improving four reservations on New Jersey avenue, northwest..... 4,000

It is proposed to grade the surfaces of these reservations to correspond with surrounding street grades, to surface-soil to a sufficient depth for the growth of trees and shrubs, to sod margins and sow down general lawn surfaces in grass-seed, plant with suitable ornamental trees and shrubs, introduce water-pipe for irrigation, and enclose with park post-and-chain fence.

For improvement, care, and maintenance of the Smithsonian grounds..... 10,000

This park is the principal place of public resort south of Pennsylvania avenue, and comprises an area of about sixty acres, with road and walk surfaces of about 30,000 square yards. With the appropriation asked it is proposed to complete the improvement of the southern portion of the grounds, (which at the present time are only partly improved,) to resurface and top-dress with good soil and compost worn-out portions of the lawns, recoat with fine gravel road and walk surfaces, plant trees and shrubs, and construct additional drain lodges, guttering, &c., where required for more perfect drainage.

The following is an approximate estimate of the cost of the materials and labor required in the prosecution of the foregoing work:

For purchase of 5,000 cubic yards of gravel, \$2,500.

For purchase of 2,000 cubic yards of soil and compost, \$2,000.

For purchase of brick and cobble-stone for gutters, construction of drain-lodges, and purchase of terra-cotta drain-pipe, for making necessary connections with main sewers, \$1,000.

For purchase of trees and shrubs, and good soil in which to plant them, \$500.

For hire of labor and horses and carts required in repairing roads and walks, in top-dressing lawn surfaces, and in the general work of the improvement of the grounds, \$4,000.

For improvement of Armory square and reservations east to Botanic Gardens..... 5,000

These parks comprise an area of about thirty acres, with road and walk surfaces of over 10,000 square yards, in a somewhat advanced condition of improvement. With the appropriation asked it is proposed to place the roadways and walks in thorough repair, as also their street approaches; to construct gutters, drain-lodges, &c., for surface-drainage on margins of roadways and walks which are at present frequently washed badly from heavy rain-storms, no adequate provision having as yet been made for this purpose; to top-dress lawn surfaces with good soil and compost where needed, and to plant additional trees and shrubs.

For improvement of Washington circle 2,000

The estimate submitted in my annual estimates for 1885 for the improvement of this circle amounted to \$4,000, with which sum it was proposed to regrade the park to conform to surrounding street grades; to introduce additional water-pipe for irrigation; to purchase good soil for resurfacing; to sod margins of walks, sow down in grass-seed general lawn surfaces, plant additional trees and shrubs, lay asphaltum walk surfaces on lines of travel through the park, and erect a drinking-fountain.

Of the amount asked, only \$2,000 was appropriated for the fiscal year ending June 30, 1885, which is sufficient to perform but a portion of the work contemplated. I would, therefore, recommend that an additional amount of \$2,000 be provided in order to complete the improvement.

CARE OF AND REPAIRS, FUEL, ETC., EXECUTIVE MANSION.

For care and repair of and refurnishing the Executive Mansion..... \$25, 000

The amount appropriated for the above purposes for the fiscal year ending June 30, 1885, is \$12,500, which is barely sufficient for the ordinary necessary care and repair of the Mansion, not permitting of the purchase of any articles of new furniture.

Some of the bed-chambers have not been refurnished for years, and the furniture is in a positively shabby condition, and I therefore recommend that the amount of estimate be appropriated in order that purchases may be made of the articles needed.

For fuel for the Executive Mansion and its greenhouses 3, 000

The amount appropriated for the purchase of fuel during the fiscal year ending June 30, 1885, is \$2,500, which, the experience of the past year has shown, is not a sufficient sum for the purpose, and I therefore recommend that the \$500 additional asked for be granted.

For care and necessary repair of greenhouses 5, 500

The sum appropriated annually for several years past (until the present) for this purpose has been the amount above estimated. For the service of the fiscal year ending June 30, 1885, however, only \$4,000 has been provided, which sum is *not sufficient* to properly care for the buildings and keep them in good repair, and I would, therefore, beg to recommend that the amount requested in my estimate be provided.

For repairs to conservatory of Executive Mansion..... 6, 500

The floor of this building is in such bad condition that in wetting down the plants the waste water is allowed to percolate through the brick arches beneath, disintegrating the cement-joints and *actually endangering the safety of the structure*. This floor should be replaced at the earliest practicable moment with a new and substantial covering of asphaltum or mastic. The old wooden benches should also be removed, and replaced with slate slabs on iron frames, and new heating-pipes should be introduced, replacing those now in the building, which are not only old and thin in places, but are also of insufficient heating capacity. The importance of an appropriation being made for the above-work *cannot be overestimated*, and I trust the amount asked for will be provided.

In connection with the foregoing, attention is invited to the special estimate for the same work which was submitted to the Chief of Engineers on March 31, 1884, but upon which no action was taken by Congress.

For replanking the roadway and footwalks and repainting the iron-work of Anacostia bridge 5, 500

It is estimated that 125,000 feet, board-measure, of timber will be required for replanking, at \$34 per thousand feet, \$4,250.

Ten (10) kegs of 6-inch and 10 kegs of 4-inch spikes will be required in putting down the same, at \$2.50 per keg, \$50.

It is estimated that the labor required in removing the worn-out material from roadway and footwalks and replacing the same with the new material will cost \$600.

It is estimated that the cost of repainting the iron-work of the bridge will be, for purchase of material and for labor required in the work, \$600.

SEPTEMBER, 1884.

A. F. ROCKWELL,
In charge Public Buildings and Grounds.

APPENDIX O.

In explanation of the estimate for "Salaries, Office of Secretary of the Interior." (See pages 55-57.)

Second Assistant Secretary: With an aggregate force of three thousand employes, and the variety and increasing volume of subjects being appealed to the Secretary of the Interior, especially relating to the question of patents and land appeals, the estimate for an additional Assistant Secretary would seem reasonable. Other Departments, with a less volume of work and less variety of interests involved, are much better equipped in relation to the number of their Assistant Secretaries than this Department; and while the work in other Departments may possibly decrease, the work in this Department must of necessity increase for years to come. It would seem much more advisable to strengthen the staff of the Secretary for the consideration of questions of appeal, &c., rather than to consider the segregation of certain portions of the Department into establishments by themselves.

One clerk of class four, as assistant chief of document division: The duties of the superintendent of documents are laborious and intricate, requiring close attention, especially since Congress has devolved upon this Department the distribution of the large mass of Census reports and other documents recently ordered, and also the old Globes and Records, hitherto kept in the charge of the Public Printer, and there should be in his office an assistant of sufficient qualifications to demand a salary of a clerk of class four, and who shall act as chief in the absence of the superintendent, as is likely to be the case, through illness, &c. This assistant would prove of great benefit, especially whenever there is a pressure of business which the superintendent cannot meet alone.

Additional to custodian, \$200: This officer is charged with large responsibilities, and, under the law of last session, required to give bond for the faithful performance thereof. His responsibilities are at least equal to those of an assistant chief of division, and the increase asked for is deemed but just.

Four clerks of class two: One additional clerk of this grade is required in the stationery division, and one is requested in lieu of the one now detailed from the Pension Office, the number of that grade in the Pension Office being reduced by one, the object being in this case, and in all others following, to provide the necessary force for the Secretary's office with-

out making details from subordinate branches, to the end that the Secretary's office may be equipped with a homogeneous force, and not subjected to the loss of time and other annoyances consequent upon being responsible, in part, both to the Secretary and to the head of the bureau whence detailed. One of these is to take the place of a copyist who now has charge of the storage and folding rooms of the Department, thirteen in number, the responsibility and labor of whose position fully entitle him to the salary of a second-class clerk. The other is needed as an addition to the correspondence force of the office.

One clerk of class one, as stenographer and type-writer, to take the place of a copyist: It is impracticable to conduct with any degree of promptness the very large correspondence of this office without the aid of a stenographer, who should also be a practised type-writer. This service has been rendered the last year by a lady receiving the salary of a copyist, but it certainly merits larger compensation.

One chief messenger: It would be of advantage to the service (and at the same time place it on a footing with the other Departments) to have a chief messenger, at the salary asked for, in lieu of the one now on duty at the entrance to the office of the Secretary of the Interior. The position requires a person of more than the ordinary intelligence of messengers in general.

Captain of the watch: It is submitted that the duties of the captain of the watch in this Department are fully as onerous and require as much responsibility as those performed by the captain of the watch of the Treasury Department. The estimate is submitted as a matter of justice, and to remove the unfair discrimination existing between him and the captains of the watch of other Departments.

One clerk at \$2,000 in office of Assistant Attorney-General: The large increase in the work of this branch, consequent upon numerous appeals from the Commissioner of Patents and the volume of business from the General Land Office, necessitates the addition of at least one law-clerk to the existing force. The appeals from the Land Office cannot be considered by the present force until seven to nine months after they reach the Secretary.

APPENDIX P.

In relation to the estimate for "Stationery, Department of the Interior." (See page 57.)

DEPARTMENT OF THE INTERIOR,
Washington, September 29, 1884.

SIR: I have the honor to submit the following estimate for the fiscal year ending June 30, 1886:

For stationery for the Department of the Interior and its several bureaus and offices, (excepting the Census Office and the office of the United States Geological Survey,) \$70,000.

The increase in this estimate over the appropriation for the fiscal year 1885 is necessary on account of the increase in the number of employes in the Department by two hundred and fifty, and on account of the large increase in the business in several of the bureaus and in many of the local land offices and Indian agencies.

With the appropriation of this Department for stationery, supplies are purchased under contracts and issued to the following offices: Office of the Secretary; Patent Office; Pension Office; General Land Office; Office of Indian Affairs; Bureau of Education; Office of Commissioner of Railroads; the offices of sixty Indian agents, and for one hundred and eight local land offices.

Very respectfully,

AMOS HADLEY,
Acting Chief Clerk.

Hon. H. M. TELLER, *Secretary of the Interior.*

DEPARTMENT OF THE INTERIOR,
United States Geological Survey, Washington, September 29, 1884.

SIR: I have the honor to request that there be included in your estimate to Congress for the fiscal year ending June 30, 1886, the sum of twenty-five hundred dollars (\$2,500) for stationery for the United States Geological Survey.

In explanation of the above request, I beg to say that heretofore the Survey has obtained its stationery from the Department, paying the Department, from its own appropriation, contract prices therefor. The bills for such stationery for the fiscal year ended June 30, 1884, exclusive of some small purchases made outside, was in the neighborhood of fifteen hundred dollars, (\$1,500.) The increase is asked for by reason of the greater appropriations made for the Survey, and the increase of force consequent thereon.

I am, with respect, your obedient servant,

J. W. POWELL, *Director.*

The Hon. SECRETARY OF THE INTERIOR.

APPENDIX Q.

In explanation of the estimate for "Salaries, General Land Office." (See pages 57 and 58.)

Commissioner: The increase is submitted because the present salary is not commensurate with the duties and responsibilities of the office; also, on account of the great increase during the last three fiscal years in the disposal of the public domain and consequent increase in the duties of the Commissioner.

Chief clerk: The chief clerk is required by law to act as Commissioner in case of vacancy or of the absence or sickness of that officer and the Assistant Commissioner, and must be fully competent to take charge and control of the bureau at all times. It may be added that the duties of this office are unusually intricate, complex, and arduous, and fully deserve the salary herein estimated.

Two law-clerks: The law-clerks must be thoroughly conversant with land law and practice, as well as with the usages and practice of the Department, and be able to grasp and summarize at once the various questions involved in land con-

tests and the construction of the statutes, and to present the same in proper form for the consideration and action of the head of the bureau and the chiefs of divisions. The compensation estimated for is moderate, considering the nature of the work and the qualifications required.

Three inspectors of surveyors-general and district land offices: The compensation (\$2,000 each) provided for the above officers by the act of August 5, 1882, is inadequate to the character of the work required, as the inspectors must be well versed in the laws governing the land system, as well as possessing an intimate knowledge of the practice and routine of the Department, this office, and the subordinate offices.

Chiefs of divisions: The chiefs of divisions have respectively charge of a particular class of work and of the clerical force employed upon it. They must know, generally, the rules of the office and the laws governing the land system, the relations of the classes being so intermixed as frequently to involve nearly the whole of them in the consideration of a single case. No higher service is performed by the subordinate officers of any Department, not excepting the Treasury, where the salaries range from \$2,250 to \$2,750.

Two examiners: The examiners above estimated for are occupied in reading carefully and critically the decisions and letters prepared in the office before receiving the signature of the Commissioner. They must, of necessity, be familiar with general legal principles, the numerous laws governing the disposal of public lands, the decisions of State and Federal courts, and rulings and decisions of this office and the Department. It becomes their duty not to pass any letter or decision for signature unless they are satisfied that the letter or decision is correct in principle and in conformity to decisions theretofore made and the laws governing that class of cases. Should the letter or decision not meet with their approval, it is their duty to submit it with a brief of their views thereon. These duties are now performed by two fourth-class clerks.

APPENDIX R.

Statement showing the authorized active strength of the Army in commissioned officers, exclusive of the Signal Corps. (Estimate on pages 90 and 91.)

Corps.	Lieutenant-general.	Major-generals.	Brigadier-generals.	Aides, and military secretary.	Colonels.	Lieutenant-colonels.	Majors.	Captains, mounted.	Captains, not mounted.	Chaplains.	Storekeepers. [illegible]

Explanation of estimate for pay of an assistant in the gymnasium of the Military Academy. (Estimate on page 99.)

SIR: I have the honor to call attention to the need of the services of a competent and trained civilian assistant in the gymnasium.

The exercises in the gymnasium are now under charge of one of the officers of the tactical department. With the changes that take place every four years, or oftener, valuable experience in physical development and athletic exercises is lost, and it is impossible to maintain any regular system of instruction. It is in consequence of these changes that the results of physical training in the past has not been uniformly good or always satisfactory.

The present instructor is efficient, and had he such an assistant, the methods he has successfully introduced in the gymnasium and swimming school, after nearly three years' experience, could be preserved.

The necessity of the careful physical training of the soldier is now recognized, and undoubtedly will soon command the attention it demands in our Army. Aside from the benefit to the cadets, it is important that this training should be uniformly and systematically imparted, in order that the graduates may be well prepared as instructors for our soldiers.

I think a competent person could be obtained for \$1,000 a year and quarters, and that the power to appoint and remove him should be vested with the superintendent.

Very respectfully, your obedient servant,

H. C. HASBROUCK,
Lieutenant Colonel, Commandant of Cadets.

THE ADJUTANT U. S. MILITARY ACADEMY,
West Point, N. Y.

First indorsement.

HEADQUARTERS UNITED STATES MILITARY ACADEMY,
West Point, N. Y., July 2, 1884.

Respectfully forwarded to the Adjutant-General United States Army, with the request that, if the funds are available, I may be permitted to employ an expert civilian in the gymnasium, at a sum not to exceed \$1,500 per year, to give instruction to cadets. A great improvement can be made in the instruction in the gymnasium, and I am sure it will be of great benefit to the cadets, who have too little exercise of any kind during the academic year. If need be, an estimate for the funds for another year can be made, but it is important that the instruction commence at once.

W. MERRITT,
Colonel Fifth Cavalry, Brevet Major-General U. S. A., Superintendent.

Second indorsement.

Respectfully submitted to the Lieutenant-General.

GEO. D. RUGGLES,
Assistant Adjutant-General in charge.

ADJUTANT-GENERAL'S OFFICE, *July 7, 1884.*

Third indorsement.

HEADQUARTERS ARMY OF THE UNITED STATES,
Washington, D. C., July 8, 1884.

The Lieutenant-General disapproves the expenditure of any money from the appropriation for the "support of the Army" for the purpose of paying an assistant in the gymnasium at the Military Academy, but desires the superintendent to submit an estimate for the sum required for the next fiscal year.

M. V. SHERIDAN,
Assistant Adjutant-General.

APPENDIX T.

Detailed statement of the estimate for "Pay of the Navy." (See page 103.)

ESTIMATE OF THE AMOUNT REQUIRED TO PAY THE OFFICERS OF THE UNITED STATES NAVY FOR THE FISCAL YEAR
ENDING JUNE 30, 1886.

APPENDIX U.

In relation to the estimate for "Fulfilling treaties with Choctaws." (See page 122.)

DEPARTMENT OF THE INTERIOR,
Office of Indian Affairs, Washington, March 8, 1884.

SIR: I have the honor to enclose herewith a copy of a communication from Messrs. Campbell Leflore and J. S. Standley, Choctaw delegates, in which they state that "it having been declared by the Interior Department that an act (copy herewith) to adopt the freedmen of the Choctaw Nation, enacted May 21, 1883, by the general council of said nation, is a compliance with the third article of the treaty of 1866, we have the honor to ask that you request Congress to appropriate the unappropriated part of the three hundred thousand dollars (\$300,000) specified in said article of said treaty, to which the Choctaw Nation is legitimately entitled."

In this connection I have to state that under the third article of the treaty with the Choctaws and Chickasaws dated April 28, 1866, (Stat. 14, pp. 769, 770,) in consideration of the sum of three hundred thousand dollars, (\$300,000,) the said nations "cede to the United States the territory west of the 98th degree west longitude, known as the leased district: *Provided*, That the said sum shall be invested and held by the United States, at an interest not less than 5 per cent., in trust for said nations, *until* the legislatures of the Choctaw and Chickasaw Nations, respectively, shall have made such laws, rules, and regulations as may be necessary to give all persons of African descent, resident in the said nations at the date of the treaty of Fort Smith, and their descendants, heretofore held in slavery among said nations, all the rights, privileges, and immunities, including the right of suffrage of citizens of said nations, &c. * * * And should the said laws, rules, and regulations *not be made* by the legislatures of the said nations, respectively, *within two years* from the ratification of this treaty, then the said sum of three hundred thousand dollars (\$300,000) shall cease to be held in trust for the said Choctaw and Chickasaw Nations, and be held for the use and benefit of such of said persons as the United States shall remove from the said territory, in such manner as the United States shall deem proper, *the United States agreeing, within ninety days* from the expiration of the said *two years*, to remove from said nations all such persons of African descent as may be willing to remove," &c.

Article 46 of the said treaty, reads as follows: "Of the moneys stipulated to be paid to the Choctaws and Chickasaws under this treaty for the cession of the leased district, and the admission of the Kansas Indians among them, (see art. 30,) the sum of one hundred and fifty thousand dollars (\$150,000) shall be advanced and paid to the Choctaws, and fifty thousand dollars (\$50,000) to the Chickasaws, through their respective treasurers, as soon as practicable after the ratification of this treaty, to be repaid out of said moneys or any other moneys of said nations in the hands of the United States, *the residue*, not affected by any provision of this treaty, to remain in the Treasury of the United States, *at an annual interest of 5 per cent., no part of which shall be paid out as annuity, but shall be annually paid to the Treasurer of said nations, respectively, to be regularly and judiciously applied under the direction of their respective legislative councils*, to the support of their government, the purposes of education," &c.

Under the provisions of the forty-sixth article, the sum of two hundred thousand dollars (\$200,000) was appropriated by the act of July 26, 1866, (14 Stat., 259,) and by the same act interest at the rate of 5 per cent. was appropriated on the whole sum of three hundred thousand dollars (\$300,000) mentioned in the third article of the treaty. A like appropriation of 5 per cent. interest on that sum was made by the act of April 10, 1869, (16 Stat., 39.)

The books of this office show that the Choctaws and Chickasaws have received this sum of two hundred thousand dollars, (\$200,000,) as well as the sum of thirty thousand dollars, (\$30,000,) two years' interest, appropriated as above referred to, in proportion of three-fourths to the former and one-fourth to the latter.

According to the wording of the third article of the treaty in regard to the passage of laws, &c., by the legislatures of the two nations, respectively, granting to all persons of African descent, resident in the said nations, all their rights, &c., as citizens, within two years after the ratification of the treaty, the Choctaw Nation would be debarred from participating in further payments guaranteed under the said third article, but Congress by an act approved May 17, 1882, (22 Stat., p. 72,) virtually extended the time for a compliance with the requirements of the provisions of the third article, in regard to the rights of the citizens of African descent, by the passage of the following law: "That the sum of *ten thousand dollars* (\$10,000) is hereby appropriated out of the three hundred thousand dollars (\$300,000) reserved by the third article of the treaty with the Choctaws and Chickasaws concluded April 28, 1866, for the purpose of educating freedmen in said tribes, to be expended under the direction of the Secretary of the Interior, three-fourths thereof for the freedmen among the Choctaws, and one-fourth for the freedmen among the Chickasaws: *Provided*, That said sum of ten thousand dollars (\$10,000) shall be deducted in like proportion from any moneys in this act appropriated to be paid said Choctaws and Chickasaws: *And provided further*, That *either of said tribes may, before such expenditure, adopt and provide for the freedmen in said tribe in accordance with said third article, and in such case the money herein provided for such education in said tribe shall be paid over to said tribe, to be taken from the unpaid balance of the three hundred thousand dollars (\$300,000) due said tribe.*"

Under the provisions of this law, the Choctaw council, under date of May 21, 1883, enacted a law to adopt the freedmen, and the Department, under date of the 26th ultimo, decided that said law "is a reasonable, substantial, and sufficient compliance" with the requirements of the third article of the treaty of 1866.

Deduct from the sum of \$300,000, the consideration for the cession of the leased district, the sum appropriated by the act approved July 26, 1866, \$200,000, will leave \$100,000.

As the sum of \$200,000 was appropriated immediately after the proclamation of the treaty and paid to the nations interested, as well as interest on \$300,000, at the rate of five per centum per annum for two years, and as there has clearly been made an excess of appropriation of interest for two years, this sum of \$100,000 should also be reduced in the following amounts, viz;

Residue of \$300,000 unappropriated, as above.....	\$100,000 00
Amount appropriated as interest on \$300,000 for year ending June 10, 1867.....	\$15,000 00
Deduct amount of appropriation of interest for said year on \$100,000.....	5,000 00
	<hr/> 10,000 00

Leaving.....	90,000 00
Amount appropriated as interest on \$300,000 for year ending June 10, 1868.	15,000 00
Deduct amount of appropriation of interest for said year on \$90,000.....	4,500 00
	<hr/> 10,500 00

Leaving.....	79,500 00
From this amount should be deducted the sum appropriated by act approved May 17, 1882.....	10,000 00

Leaving.....	69,500 00
--------------	-----------

Three-fourths of which—the share belonging to the Choctaws—amounts to fifty-two thousand one hundred and twenty-five dollars, (\$52,125.)

In view of the decision of the Department of the 26th ultimo, and of the fact that the freedmen have never removed themselves, and that the United States has made no effort to remove them as required by the third article, I respectfully recommend that the attention of the Appropriation Committees of both Houses of Congress be invited to this matter, with the request that the item of fifty-two thousand one hundred and twenty-five dollars (\$52,125) be incorporated in the Indian or deficiency bill, for appropriation, in order that the sum may be placed in the Treasury, to draw interest at five per centum per annum, as required by the 46th article of the treaty.

Very respectfully,

H. PRICE, *Commissioner.*

Hon. SECRETARY OF THE INTERIOR.

APPENDIX V.

Recapitulation of the estimates for Indian service as furnished by the Indian Office. (See pages 119–136.)

Agreeing with the difference between the amounts appropriated for 1885, and these estimates.....	1,534,260 33

APPENDIX W.

In relation to the estimate for the new Naval Observatory. (See page 150.)

NAVY DEPARTMENT,
Bureau of Navigation, October 11, 1884.

SIR: I have the honor to forward herewith a letter from the Superintendent of the Naval Observatory, renewing his recommendation for an estimate for the erection of a new Naval Observatory on the site purchased by the Government for the purpose, under the act of February 4, 1880.

In transmitting this estimate with my approval it seems only necessary to state that the present location of the Naval Observatory is unsuitable for astronomical purposes, to call attention to the dilapidated condition of the buildings at present in use, and to recommend that Congress be asked to appropriate the sum asked for, in order that the work may be begun on the new Observatory according to the plans made three years ago, and which were submitted to the leading scientific gentlemen of the country for their opinion and criticism, and which, with some slight alterations, were approved by them and by the commission appointed under the act quoted above.

Very respectfully, your obedient servant,
J. G. WALKER, *Chief of Bureau.*

Hon. WM. E. CHANDLER, *Secretary of the Navy.*

UNITED STATES NAVAL OBSERVATORY,
Washington, October 4, 1884.

SIR: Herewith I submit an estimate of the sum required for the erection of a new Naval Observatory upon the site purchased under the act approved February 4, 1880.

A like estimate submitted to the Department by my predecessors in 1882 and in 1883 was transmitted to Congress with the Department's recommendation. I now renew the estimate, and respectfully request that the Department will again be pleased to approve and submit the same to Congress.

The sum asked for (\$586,138) is to cover the expenses of erecting the Observatory building and quarters for the Superintendent, the observers, and others whose duties require them to be in attendance during the night; for moving the instruments and mounting them in the new building, for constructing roads, for grading and fencing, and for all the expenses whatever.

Plans of the building were made three years ago, and were, after receiving the approval of the leading scientific gentlemen of the country, adopted by the commission appointed under the act mentioned above.

The unsuitableness of the present situation for astronomical purposes renders it desirable to make the change as early as possible.

A copy of a letter from the Supervising Architect of the Treasury, written in 1882 upon this subject, is hereto appended.

Very respectfully,

S. R. FRANKLIN, *Commodore,
Superintendent.*

Commodore J. G. WALKER, U. S. N.
Chief of Bureau of Navigation, Washington, D. C.

TREASURY DEPARTMENT,
Office of the Supervising Architect, April 22, 1882.

SIR: In compliance with the request of your committee, conveyed by letter of the 12th instant, I have examined the plans and specifications for the proposed building for the Naval Observatory.

The present buildings are old and dilapidated, and the interests of the public service require that the new building should be erected as speedily as possible.

I estimate that the lowest amount that would reasonably serve for the first year's work would be about one-half of the amount proposed to be appropriated, say two hundred and seventy-five thousand dollars, (\$275,000.)

I think, however, the Government interests would best be served by an appropriation of the entire amount estimated for the work.

Very respectfully,

J. G. HILL, *Supervising Architect.*

Hon. FRANK HISCOCK,
Chairman Committee on Appropriations, House of Representatives.

APPENDIX X.

In explanation of certain estimates for the Interior Department building. (See page 150.)

OFFICE OF ARCHITECTS AND ENGINEERS,
RECONSTRUCTION OF THE BUILDING OCCUPIED BY THE DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 3, 1884.

SIR: In explanation of the estimate herewith submitted, we state that the cost of reconstruction of this building has been revised by a board of experts, acting under orders of the House of Representatives, in the year 1879. The east wing, now under consideration, is substantially a duplicate of the west wing; then under discussion, which was completed for \$125,000, the amount appropriated. The increase now asked for is much less than the increase in the price of labor. In support of this, we state that at the present we have to pay 45 cents per hour for skilled plasterers, against 20 cents on the west wing in 1880; other branches have borne similar proportions.

The fire, which has consumed the upper portions of the north and west wings, has also swept through the halls and roof of the east wing, and the combined action of fire and water have left indelible marks in calcined marble, cracked brick arches, charred wood-work, patched roofs, and obliterated decorations.

We have honor to be, very respectfully, your obedient servants,

CLUSS & SCHULZE, *Architects.*

Hon. HENRY M. TELLER, *Secretary of the Interior.*

APPENDIX Y.

In explanation of the estimate for "Building and grounds, Government Hospital for the Insane." (See page 151.)

GOVERNMENT HOSPITAL FOR THE INSANE,
Washington, D. C., October 1, 1884.

SIR: In explanation of the estimates under the head of buildings and grounds, Government Hospital for the Insane, for the fiscal year ending June 30, 1886, I have honor to submit the following statement:

The amount asked for general repairs and improvements, is the same which has been appropriated for this purpose for several years past, and suffices to keep the buildings in ordinary repair and the grounds in thrifty condition, the more extensive improvements being provided for by special appropriations.

The main gas-holder requires renewal. After long service, it has become so defective as to be unsafe and unfit for use. The leakage of gas from it is nearly as great as the amount actually consumed in lighting.

The sum of \$2,000, which was included in the original estimate, has been found necessary to the completion of the new barn, which is designed to provide for one hundred milch cows, also to afford storage for a large part of the hay crop of the farm.

The cottage at the cemetery is needed to prevent desecration, and those on the farm to protect the growing crops from depredations.

A greenhouse of moderate size is required for the storage and propagation of bedding-plants for the lawns, and for this purpose its erection would be an economic measure. In a higher economic sense, it is also needed for the pleasure and solace of twelve hundred insane, for whom the winter has else no flowers.

A suitable work-shop where those inmates who can be trusted and are skilled in the use of carpenters' tools can be employed is very much needed. The small building known as the machine and carpenter shop is unsuitable and wholly inadequate for its purpose, and affords absolutely no accommodations for the employment of the insane, a direction in which important results are now obtained.

An important want is a common dining-hall for the inmates of the detached buildings. A one-story building with hall of a capacity to provide for serving six hundred inmates at once, arranged with suitable tables for carving and keeping the food warm, would, in the case of the quiet classes of the insane, be found a far more satisfactory arrangement for all parties concerned than that of numerous small and scattered rooms, which, however desirable with certain classes, are only a disadvantage with the great mass of inmates of a hospital. By the erection of such a building, accommodation would be at once afforded, with very slight changes in the existing wards, for nearly one hundred additional patients, at a less cost than by any other mode of provision. This is a very important economic consideration in a hospital whose wards have a constant tendency to become overcrowded by the influx of patients.

Under the act of 1882 giving authority to the Attorney-General to transfer to this hospital United States convicts who had become insane while serving sentence in penal institutions, many persons of the criminal class have been received for custody and treatment, so that on the 30th of June, 1884, there were, including military prisoners from Fort Leavenworth, twenty-eight of the convict class under care, and as this is a class of whom but few recover, they accumulate in the hospital

unless they escape. From the necessities of the case, they are associated in the wards with the other inmates. This ought not to be so. We rightly regard insanity as a misfortune, not a crime, and there is no good reason why in any asylum for the insane separate provision for the convict insane should not be made. Least of all in one under United States control should it be necessary for the insane from the criminal class to be associated with those patriotic defenders of their country who have had the misfortune to be overtaken by disease.

The right of custody for crime in the case of the convict makes it obligatory that he shall be securely kept, sane or insane. This cannot be accomplished within the walls of a hospital for the insane as ordinarily constructed; indeed, to so convert a hospital into a penitentiary, for the treatment of any of the ordinary insane, except a few homicidal and dangerous cases, would be to simply defeat the successful treatment of insanity in a great majority of cases.

The protection of the community by the proper custodial care of the convict insane, and justice to the innocent members of society overtaken by mental disease, alike demand a distinct and secure provision for the convict and homicidal insane.

For the purchase of additional land for farming purposes.—That portion of the hospital plateau which is best suited for farm-products has been seriously encroached upon by the ground having been taken up to a considerable extent for the sites of the detached buildings and by the widening area of the lawns and pleasure-grounds about them.

In view of the greatly increased number of the inmates, and the consequent growing consumption of milk and other farm-products, a considerable addition to the arable land becomes not only desirable, but absolutely necessary, if these supplies are to be obtained, as hitherto, from our own grounds. Of the wisdom of this in the article of milk there can be no doubt, nor can the necessity of extensive grounds in connection with a hospital for the recreation of the inmates be questioned.

The opportunity is now presented to secure at a moderate expenditure a valuable tract of about forty-five acres immediately adjoining that portion of the hospital land known at the Stevens farm. After a careful consideration of the whole subject, the board of visitors and the superintendent of the hospital are agreed in recommending the acquisition of this land for hospital use. They consider it well adapted for cultivation, advantageous in situation, and reasonable in price, and as no equally desirable tract is likely to be offered at present, if ever, it is recommended that the sum of six thousand dollars, the amount asked, be appropriated for its purchase.

I am, sir, very respectfully,

W. W. GODDING, *Superintendent.*

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Z.

In relation to the estimate for "Buildings and grounds, Columbia Institution for the Deaf and Dumb." (See page 151.)

THE COLUMBIA INSTITUTION FOR THE DEAF AND DUMB,
Kendall Green, near Washington, D. C., September 24, 1884.

SIR: I have the honor to transmit herewith estimates of appropriations required by this institution for the service of the fiscal year ending June 30, 1886.

The estimate for current expenses is the same in amount as the sum appropriated for this purpose during the past three years.

The second estimate is submitted, after careful consideration by our board of directors, in the belief that in the important work of preparing our pupils to become self-sustaining members of society, the enlargement and improvement of our school-room accommodations have become absolutely necessary. We are now using as class-rooms and study-rooms several apartments having no cellars under them, that are only eight feet between joints, and which, consequently, are often damp and poorly ventilated.

For the instruction of our pupils in industrial labor we have but one shop, in which cabinet-making is taught. It is impossible to give all our boys the benefit of this trade, and our directors are united in the opinion that other trades ought to be introduced. No rooms are available for other shops at present. It will, therefore, be necessary to provide new shop-room if our industrial department is to be made more efficient.

The directors entertain the hope that the estimate of twenty-five thousand dollars now submitted for the purposes above set forth may meet with the approval of the Department and of Congress.

Very respectfully, your obedient servant,

E. M. GALLAUDET,
President and Disbursing Agent.

Hon. SECRETARY OF THE INTERIOR.

APPENDIX A a.

In relation to the estimates for Howard University. (See pages 151 and 214.)

HOWARD UNIVERSITY,
Washington, D. C., September 16, 1884.

SIR: Accompanying this are the estimates for Howard University for the next financial year. The one for salaries is but \$500 in excess of the last appropriation, in order to cover a slight increase of instruction needed by growing classes and an improved course of study. The other special estimates are the same as were urgently presented last year. Large repairs remain to be made on our extensive buildings, and the Architect of the Capitol, sent by the Appropriation Committee to ascertain the facts, said that we ought to expend on repairs \$10,000. We have asked only \$5,000.

Our wants as to necessary books for consultation by teachers and students, as to cabinets, as to philosophical, chemical, and astronomical apparatus, and as to conveniences for the reception and use of such appliances, are of a very serious character for an institution of the rank and extent of ours, and we have ventured to ask for \$3,500, while needing a much larger sum. I have no doubt that these estimates will approve themselves to your considerate judgment.

I have the honor to be, yours truly,

WM. W. PATTON, *President.*

Hon. SECRETARY OF THE INTERIOR.

APPENDIX Bb.

Explanation of estimates for Benicia Arsenal. (Estimates on page 155.)

ORDNANCE OFFICE, WAR DEPARTMENT,
Washington, D. C., October 2, 1884.

SIR: I have the honor to return letters to the Secretary of War, of August 16, 1884, from Hon. J. R. Glasscock, and September 10, 1884, from General Rosecrans, as to the necessity of an appropriation for filling up the marsh on the Benicia Arsenal reservation.

An estimate of \$35,000 for the purpose has been submitted, and your attention is respectfully invited to the report herewith from Colonel McAllister, commanding the Benicia Arsenal, whose views are concurred in by this office. The appropriation is urgently recommended.

Very respectfully, your obedient servant,

S. V. BENÉT,
Brigadier-General, Chief of Ordnance.

Hon. SECRETARY OF WAR.

BENICIA ARSENAL,
Benicia, Cal., September 18, 1884.

GENERAL: I have the honor to acknowledge the receipt of the letter of the Hon. John R. Glasscock, M. C., written to the Honorable the Secretary of War, with indorsement from the Chief of Ordnance, dated August 30, 1884.

In reply, I would respectfully refer to my annual estimate for next year, which was forwarded in July, and asked for money for the following objects, viz:

For purchasing wood-machines.....	\$7, 235
For purchasing cement pipe.....	2, 700
For erecting two boilers.....	2, 800
For erecting a reservoir for artesian water.....	5, 500
For erecting a storehouse for material.....	8, 828
For reclaiming 18½ acres of marsh.....	35, 000
For erecting a boiler-house.....	5, 850
For erecting a paint-shop.....	9, 574
For erecting an iron gateway.....	2, 600
For repairing wharf.....	1, 265
For dredging around wharf.....	5, 496
For erecting laboratory-buildings.....	4, 500
For grading grounds.....	9, 365
For building wall on north side of reserve.....	16, 240
For permanent repairs of post.....	8, 755
For painting buildings.....	1, 350
For pavement.....	1, 917
For building a fire-proof stable.....	13, 065
For building a brick cistern at magazine No. 1.....	2, 900
For building a brick cistern at magazine No. 3.....	2, 500
Total.....	147, 440

The above will prove how serious is the necessity for additional appropriations for this new arsenal. The most essential of the above objects is the filling in the marsh of 18½ acres, which in its present condition seriously affects the health of this post. This marsh is in front of the enlisted men's quarters, shops, and office.

The northwest trade-winds which prevail in summer, the sickly season here, pass over it before reaching any of the above-named buildings and the officers' quarters; they bring the deleterious gases generated from it over and into these buildings. The tide used to flow and ebb without any interruption over this marsh, but since the railroad embankment has been built across its outer edge, and the deposits of slickings and alluvium have increased, the water wets the marsh and forms stagnant pools, which, acted upon by the sun's rays, evaporate malarious gases, that have increased the unhealthiness of this post. The water on this marsh becomes yearly more stagnant, and consequently more offensive and dangerous to health.

Until the last few years chills and fever and bilious fever were unknown on this reserve, but these diseases have of late years steadily increased, and if the marsh is not filled in the unhealthiness of this post will be confirmed. The effect of this marsh and of the gases emanating from it on the health of the post was predicted seven years ago by an experienced army surgeon stationed here, and money to fill it in has been applied for in seven successive annual estimates. The amount necessary to complete this work, *i. e.*, \$44,900, was engrossed in the estimates for four consecutive years, and as these four applications were unsuccessful, the amount asked for was decreased in the hope that a smaller amount might be obtained, which would enable us to fill the marsh over with a thin covering, that might serve for a short time and, while it lasted, protect the mud from the action of the sun's rays.

During the past seven years, although estimates for this work have been regularly forwarded, no money has been appropriated for this purpose, while the absolute necessity for this improvement has been steadily increasing.

Our next great need is a sum to purchase a dimension-planer, at a cost of \$1,390, and a band-saw and re-saw at a cost of \$875. The money to buy these machines was included in the annual estimates for the last two years, but no money was appropriated for their purchase.

The third item to which special attention should be directed is that for "grading grounds." Certain amounts under this head have been applied for in the last eight consecutive annual estimates, but no money has been appropriated during that time for this purpose. The surface of the ground at this arsenal is very irregular, and the different benches, slopes, &c., should be so graded as to promote drainage, to facilitate transportation, and to present some uniformity of appearance.

In regard to the work in the shops at this arsenal, I would report that the new shops are completed and that the machines for metal-work are capable of performing any work of this kind required in the ordnance department.

We want money for the purchase of wood-machinery, as stated above.

I am, General, very respectfully, your obedient servant,

J. McALLISTER,
Colonel of Ordnance, Commanding.

The CHIEF OF ORDNANCE, U. S. ARMY,
Washington, D. C.

APPENDIX Cc.

Explanation of estimate for completing Army and Navy Hospital at Hot Springs, Ark. (Estimate on page 163.)

WAR DEPARTMENT, SURGEON-GENERAL'S OFFICE,
Washington, D. C., October 3, 1884.

SIR: In reply to your indorsement of October 2, 1884, relative to the estimates for the Army and Navy Hospital at Hot Springs, Ark., I have the honor to enclose copies of the detailed estimates of requirements to place that hospital in a fit condition for the reception of patients, with explanatory remarks by Capt. J. W. Jacobs, in charge of the work, from which it will be seen that no additional money is asked to complete the construction of that building, which, it is understood, will be completed in accordance with the approved plans and terms of the contract, without deficiency, but for such requirements as are necessary for fitting up the building for hospital purposes, and which were not included in the contract, being understood as belonging to the furnishing rather than the construction of the building, or for such as have been found necessary or advantageous during the progress of the work.

In the estimate for completion, &c., the labor and material for concreting the floors of the administrative building and annex is recommended, on account of the porous nature of the soil underlying the buildings.

The construction of a stable was not included in the contract, but will be a necessity in the work of the hospital.

The estimate for grading and improving the adjacent grounds is based upon the topography of the location, the difficulty of access and of communication with the several buildings, the necessity for providing suitable drainage for preventing damage to foundations of buildings, for grading the inequalities of surface left after the necessary excavations for buildings.

The estimate for heating the bath-house is made to remedy the omission of any suitable place for insuring and maintaining the proper degree of heat necessary for the treatment of patients, a matter not understood when the original contract was made.

The estimate for quarters for a resident surgeon is necessary from the fact that no suitable provision is made within the building for that purpose, and for the reason that all space therein should be appropriated to the sick. The residence of a family in a hospital is always to be avoided, if possible.

Very respectfully, your obedient servant,

R. MURRAY,
Surgeon-General U. S. Army.

Hon. SECRETARY OF WAR.

Estimate of labor and material required to put the Army and Navy Hospital buildings at Hot Springs, Ark., in a thorough state of completion, as indicated by the plans of the architects, by Capt. J. W. Jacobs, assistant quartermaster, U. S. Army.

Items and remarks.	Amount.
1 W. E. Hale & Co. standard hydraulic passenger-elevator in running order, complete.....	\$2, 275 00
11 bath-tubs in place, complete, for administration building, annex, wards, and men's building, at \$50 each.....	550 00
10 chandeliers, at \$40 each.....	400 00
16 four-light burners, at \$12 each.....	192 00
41 two-light burners, at \$8 each.....	328 00
44 one-light burners and brackets, at \$4.50 each.....	198 00
31 mantels, at \$45 each.....	1, 395 00
31 hearths, at \$20 each.....	620 00
23 grates in place, at \$10 each.....	230 00
8 pairs of andirons, at \$10 per pair.....	80 00
Labor and material for concreting floors of basement of administration and annex.....	622 43
<i>Fire apparatus.</i>	
3 fire-plugs in place, at \$80 each.....	240 00
400 feet of hose, including nozzles, couplings, &c., at \$1.50 per foot.....	600 00
1 stand-pipe for administration building and annex.....	150 00
3 holly reel-carts, at \$40 each.....	120 00
6 fire-ladders, 15, 20, and 24 inches long, at 1 per foot.....	118 00
48 water-buckets, at \$1 each.....	48 00
<i>Painting all wood-work.</i>	
5,376 yards in administration building, at 35 cents per yard.....	1, 881 60
853 yards in annex to administration building, at 35 cents per yard.....	298 55
1,857 yards in bath-house, at 35 cents per yard.....	649 95
877 yards in men's building, at 35 cents per yard.....	306 95
3,562 yards in two wards, at 35 cents per yard.....	1, 246 70
950 yards in verandas and pavilions, at 35 cents per yard.....	332 50

Estimate of labor and material required to put the Army and Navy Hospital buildings at Hot Springs, Ark., in a thorough state of completion, &c.—Continued.

Items and remarks.	Amount.
<i>Painting brick-work.</i>	
1,435 yards for administration building, at 47 cents per yard.....	\$674 45
685 yards for annex to administration building, at 47 cents per yard.....	321 95
696 yards for bath-house, at 47 cents per yard.....	327 12
925 yards for men's building, at 47 cents per yard.....	434 75
1,784 yards for two wards, at 47 cents per yard.....	838 48
440 yards for veranda-piers, at 47 cents per yard.....	206 80
43 yards for pavilion-piers, at 47 cents per yard.....	20 21
For papering administration building and part of annex.....	507 00
For construction of a stable and carriage-house.....	1,800 00
Total.....	18,013 44
Add 20 per cent. for contingencies.....	3,602 70
Total to be supplied.....	21,616 14

GENERAL REMARKS.

Passenger-elevator.—Provision made for it, but not required under present contract.

Bath-tubs.—Same as above.

Painting brick-work.—The rainfall here is estimated as high as 2 inches in a few hours, and is generally accompanied by driving winds. In order to preserve the brick-work and exclude dampness, I think all exposed surfaces should be painted. The necessity for doing so is enhanced from the fact that all walls are to be solid, and not furred inside prior to being plastered.

Painting all wood-work.—The present contract requires the buildings to be finished in oil. This, in my opinion, is insufficient for proper preservation in this climate.

Respectfully submitted.

HOT SPRINGS, ARK., July 17, 1884.

J. W. JACOBS,
Captain and Assistant Quartermaster, U. S. Army.

Estimate for heating the bath-house of the Army and Navy Hospital at Hot Springs, Ark., by Capt. J. W. Jacobs, assistant quartermaster, U. S. Army.

Items and remarks.	Amount.
For heating the bath-house of the Army and Navy Hospital at Hot Springs, Ark., by steam, including valves, pipes, fittings, radiators, and labor.....	\$2,500 00

Under the original plans and specifications submitted by the architect, no provision is made for heating the bath and pool rooms. This estimate is submitted to remedy the defect. A temperature of 85° or 90° must be maintained for eight or ten months in the year.

Respectfully submitted.

HOT SPRINGS, ARK., July 17, 1884.

J. W. JACOBS,
Captain and Assistant Quartermaster, U. S. Army.

Estimate of labor, &c., required for enclosing and improving the grounds of the Army and Navy Hospital at Hot Springs, Ark., by Capt. J. W. Jacobs, assistant quartermaster, U. S. Army.

Items and remarks.	Amount.
For removing 9,545 yards of earth and rock in rear of the buildings of the Army and Navy Hospital, for roadways, water-drains, &c., at \$1 per yard.....	\$9,545 00
For grading and curbing 2,525 lineal feet of roadway through the grounds of the Army and Navy Hospital, at \$2.22 per foot.....	5,605 50
For removing undergrowth, rock, outcroppings, boulders, dead trees, and other rubbish; purchasing and transplanting trees and shrubbery, terracing, building retaining-walls, laying out and grading walks, and putting up one fountain for the improvement of the grounds of the Army and Navy Hospital.....	5,000 00
For 12 gas street-lamps, for lighting the grounds of the Army and Navy Hospital, at \$25 each.....	300 00
For 283 yards of stone wall for iron fence, at \$18 per yard.....	5,094 00
For 850 lineal feet of stone coping, 6 by 14 inch, at 50 cents per foot.....	425 00
For 850 lineal feet of iron fence, at \$1.10 per foot.....	935 00
For 1 pair of drive-gates, 2 posts and braces.....	28 00
For 1 walk-gate, 2 posts and braces.....	16 00
Rods of board fence.....	270 00
Total.....	27,218 50

GENERAL REMARKS.

The expense of removing 9,545 yards of earth and rock in rear of the buildings would at first sight seem large, and possibly unnecessary; but when the precipitous and rocky nature of the site selected, and the absolute importance of controlling the water resulting from the heavy rainfalls is considered, I believe it will appear otherwise and unavoidable. A grade has been made in the rear of the two wards that will temporarily protect them, and is preliminary to the grading that will be necessary eventually to protect permanently all the buildings from being damaged by water running under the wards and into the cellar of the men's building and basement of the annex and administration buildings, in the former case damaging the pier foundations, and in the latter damaging the foundations and causing unhealthy dampness throughout the entire basement and provision-cellar.

Two hundred and eighty-three yards of stone wall for iron fence, &c.: In addition to serving as the foundation for the fence, it is at the same time a retaining-wall for the creek frontage, and thence along the south side of the reservation, where a deep cut must be made for a roadway to the entrance of the grounds. This wall should be built in the most substantial manner, especially along the creek.

Respectfully submitted.

HOT SPRINGS, ARK., July 17, 1884.

J. W. JACOBS,
Captain and Assistant Quartermaster, U. S. Army.

APPENDIX Dd.

In relation to the estimates for "Printing and binding" for Executive Departments. (See pages 180-181.)

WAR DEPARTMENT.

The amount asked for printing and binding by the Chief Signal Officer is \$18,000 more than for the fiscal year 1885 and is explained by him as follows: \$30,000 of it is for continuing the publication of the tri-daily meteorological record, and \$8,000 for the printing of 1,500 copies of volume 1, of 900 pages, (there will be another volume of same size,) of a card catalogue of meteorological bibliography. This catalogue is absolutely needed by scientific men, there being no general bibliography of meteorology in existence, and this office is in possession of 40,000 titles, procured and contributed by prominent meteorologists throughout the world, which titles, comprising as they do an approximately complete meteorological bibliography, will prove an indispensable aid to this office, as well as to all workers in meteorology.

POST-OFFICE DEPARTMENT,

Office of First Assistant Postmaster-General, Washington, D. C., October 15, 1884.

SIR: It is estimated that an appropriation of \$200,000 will be necessary for the public printing for this Department for the fiscal year ending June 30, 1886, exclusive of the amount which will be expended out of the surplus money-order funds for the printing, binding, &c., of that division.

Until last year, the appropriation for this item was for several years \$150,000. A recent change in the method of supplying post offices of the first and second classes with stationery requires that it should be furnished from this Department, and postmasters at these offices now make requisition upon this office for such supplies of this character as they need for official use, (previously they were allowed to purchase them, after obtaining permission from this bureau,) hence a large number of articles required in post offices, such as blank books, printed blanks, &c., are now procured by the Department from the Government Printing Office, and a larger appropriation for this item is consequently necessary, without considering the natural increase in this expenditure arising from the continued expansion of the general service.

The regular appropriation for printing, binding, &c., for the Department for the last fiscal year was \$150,000, and an additional amount of \$30,000 became necessary, which was appropriated on the 1st of May last. The appropriation for the present fiscal year is \$180,000, but the probabilities now are that there will be a deficiency of \$20,000 to be provided for.

I am clearly of the opinion, therefore, that the estimate of \$200,000 for the printing, binding, &c., of this Department, exclusive of that for the money-order division, for the fiscal year ending June 30, 1886, is not too high.

Very respectfully,

JAMES H. MARR,
Acting First Assistant Postmaster-General.

Hon. FRANK HATTON, Postmaster-General.

APPENDIX Ee.

Explanation of estimates for Coast and Geodetic Survey. (See pages 184-186.)

The estimates for the Coast and Geodetic Survey are presented under the following heads:

"Party expenses:" Comprises the pay of those temporarily employed as recorders, signal-men, hands, cooks, drivers, or boatmen, as the case may be, the subsistence and transportation of the parties, and all requisite materials, tents, boats, and all other necessary expenses incident to the work. "Furnishing points for State surveys:" Gives the amount proposed for extending the geodetic work in different States. "Transcontinental geodetic work:" Proposes the sum to be expended for continuing the triangulation connecting the work on the Atlantic coast with that on the Pacific, including the line of levelling between the two oceans. "Pay of field-officers:" Comprises the pay of the regular staff of surveyors. "Pay of office force:" Comprises the pay of persons regularly employed in the office. "Office expenses:" Provides for the purchase of material of all kinds required for the use of the office. "Rent of office buildings;" "Publishing observations;" and "Repairs and maintenance of vessels."

The estimates under these several heads are substantially the same as appropriated for during several years past, except the first item, that for "Party expenses," which is increased for the following reason: In order to conduct the work

with reasonable economy, it is requisite that surveying parties should continue in the field at the several localities where the work is in progress during the whole season of favorable weather. The expenses of moving the parties and their equipments to and from their several localities of work, which are for the main part remote from the ordinary facilities, are no greater for a season of seven months than for one of four months. For the sake of maintaining a proper economic relation between party expenses and results, the Superintendent recommends an increase of about one-third in this item.

The additional item of \$18,000 for "Resurvey of New York bay and harbor" is introduced at the instance of the maritime and commercial bodies of the city of New York. The commercial importance of the port of New York is so great that a constant watch should be kept on the changes in the harbor, and the Department recommends the appropriation asked for this purpose.

The last item, for "Repairs and maintenance of vessels," is \$12,000 less than last year, that amount having been specifically appropriated to provide new boilers for the steamer "Hassler," which has now been done.

APPENDIX Ff.

Estimates of expenditures, under the appropriation for "Pay of assistant custodians and janitors," during the fiscal year ending June 30, 1886. (See page 188.)

APPENDIX Hh.

In relation to the estimate for support of the indigent insane of the District of Columbia. (See page 194.)

GOVERNMENT HOSPITAL FOR THE INSANE,
Washington, D. C., October 14, 1884.

SIR: Replying to your letter of the 9th instant, relative to the estimated cost of support of the indigent insane committed from the District of Columbia in this hospital during the fiscal year ending June 30, 1886, I have the honor to state that the number of this class remaining under treatment June 30, 1883, was 459; June 30, 1884, exclusive of insane convicts, 486; an increase of about 6 per cent. Assuming this rate of increase to continue in the future as in the past, there would be an average number of 530 of this class to provide for for the year ending June 30, 1886.

Estimating the annual cost of support of each patient at \$225, the total cost of the indigent insane committed from the District of Columbia, would be \$119,250.

In view of the fact that a large number of these are transient persons found insane within the limits of the District, Congress has for a number of years provided for a portion only of this expense in the bill for the District of Columbia, but, taking into account the gradual increase of numbers, has each year increased the amount. The appropriation for the present fiscal year in the District bill is \$50,426. If the usual rate of increase is continued, the sum therein appropriated for the fiscal year ending June 30, 1886, will be \$53,462, as has been set forth in the explanation of my estimates for the support of the Government Hospital for the Insane for that year.

I am, sir, very respectfully, your obedient servant,

W. W. GODDING, *Superintendent.*

Hon. J. TARBELL,
Acting First Comptroller, Treasury Department.

APPENDIX Ii.

In relation to the estimate for "Contingent expenses, office of surveyor-general of New Mexico." (See page 207.)

DEPARTMENT OF THE INTERIOR,
Washington, D. C., October 27, 1884.

SIR: I have the honor to transmit herewith a copy of a letter, dated the 27th instant, from the Acting Commissioner of the General Land Office, with extract from a letter, dated the 1st instant, from the surveyor-general of New Mexico, recommending that the amount estimated as required for contingent expenses of the office of surveyor-general of New Mexico for the fiscal year ending June 30, 1886, be increased to \$3,700.

For the reasons assigned by the surveyor-general and the Acting Commissioner, I recommend that the estimate be increased to the required amount.

Very respectfully,

M. L. JOSLYN,
Acting Secretary.

Hon. SECRETARY OF THE TREASURY.

DEPARTMENT OF THE INTERIOR,
General Land Office, Washington, D. C., October 27, 1884.

SIR: I have the honor to enclose herewith an extract from a letter, dated the 1st instant, from the surveyor-general of New Mexico, relative to the needs of his office in the matter of a safe, furniture, &c., with request that it be transmitted to the Hon. Secretary of the Treasury, recommending that the estimate of \$2,000 for "contingent expenses, office of surveyor-general of New Mexico," for the fiscal year ending June 30, 1886, transmitted to the Department with letter of September 17th last, be increased to \$3,700.

I do not think that the surveyor-general has either overestimated or overstated the needs of his office. The reasons assigned for the acquirement of the various items are deemed good and sufficient, and they should, in my opinion, be granted.

Good work cannot be expected from that office unless the necessary conveniences are supplied, and the want of them, which is very often apparent in the returns as they come to this office, is frequently made the excuse for shortcomings which should be avoided. The proper keeping and preservation of the archives is a matter of very serious importance, and adequate provision should be made therefor.

Very respectfully,

L. HARRISON,
Acting Commissioner.

Hon. SECRETARY OF THE INTERIOR.

EXTRACT.

UNITED STATES SURVEYOR-GENERAL'S OFFICE,
Santa Fé, N. Mex., October 1, 1884.

SIR: I would respectfully represent to you that the condition of the furniture, files, &c., necessary to properly conduct the business of my office is such that, after a careful estimate of immediate pressing needs, I submit the following estimate,

requesting that it be forwarded through the proper channels, as additional to the estimate of \$2,000 for contingent expenses for my office for the fiscal year 1886.

Estimate for the surveyor-general's office of New Mexico :

Two office-desks	\$150 00
One office-safe	500 00
Carpets for two rooms	350 00
One desk, with standing and sitting room, book-rack, Woodruff file-holder	150 00
Three pivot office-chairs	45 00
One field-note-book case	50 00
One township-map case, with sliding shelves	100-00
One grant-plat case	50 00
One mining and exterior plat case	50 00
One complete set of draughting instruments	50 00
Four transcribing-tables	100 00
Twelve office-chairs	30 00
Form-books	75 00
Total	\$1,700 00

I am impelled to ask for the additional desks, as many of those in this office are unfit for the purposes for which they are used. The present safe is filled with the Spanish and Mexican archives and other papers relating to private-land claims, and a new one is immediately needed, to preserve invaluable records from possible loss by theft or fire. There are no suitable files, the letters being kept in envelopes; and when reference is made to them it is necessary to untie perhaps several packages in order to obtain the papers required. The places now used for keeping the maps and plats are wholly unfit for the purpose, and there are no suitable draughting instruments in the office.

* * * * *

Very respectfully, your obedient servant,
CLARENCE PULLEN,
Surveyor-General.

Hon. N. C. McFARLAND,
Commissioner General Land Office, Washington, D. C.

APPENDIX Jj.

Statement of appropriations made during the first session of the Forty-eighth Congress for the fiscal year ending June 30, 1885, for which no estimates are submitted for the fiscal year ending June 30, 1886; also, deficiency and miscellaneous appropriations made during the same session.

STATEMENT OF THE PROCEEDS OF GOVERNMENT PROPERTY, PUBLISHED IN CONFORMITY TO THE FOLLOWING PROVISIONS OF LAW:

All proceeds of sales of old material, condemned stores, supplies, or other public property of any kind, except the proceeds of the sale or leasing of marine hospitals, or of the sales of revenue-cutters, or of the sales of commissary stores to the officers and enlisted men of the Army, or of materials, stores, or supplies sold to officers and soldiers of the Army, or of the sale of condemned Navy clothing, or of the sales of materials, stores, or supplies to any exploring or surveying expedition authorized by law, shall be deposited and covered into the Treasury as miscellaneous receipts on account of "proceeds of Government property," and shall not be withdrawn or applied, except in consequence of a subsequent appropriation made by law. A detailed statement of the proceeds of all sales of old material, condemned stores, supplies, or other public property of any kind, shall be included in the Appendix to the Book of Estimates.—(R. S., pages 713, 722, sections 3618, 3672; act February 27, 1877, 19 Stat., 249.)

When covered into Treasury.	No. of warrant.	By whom sold.	Kind of property sold.	Bureau in charge of property.	Amount of each kind of property.	Total amount.
